

*The 100* Kass Morgan,2013-09-03 The first book in the New York Times bestselling series that inspired the hit CW television show. No one has set foot on Earth in centuries -- until now. Ever since a devastating nuclear war, humanity has lived on spaceships far above Earth's radioactive surface. Now, one hundred juvenile delinquents -- considered expendable by society -- are being sent on a dangerous mission: to recolonize the planet. It could be their second chance at life...or it could be a suicide mission. CLARKE was arrested for treason, though she's haunted by the memory of what she really did. WELLS, the chancellor's son, came to Earth for the girl he loves -- but will she ever forgive him? Reckless BELLAMY fought his way onto the transport pod to protect his sister, the other half of the only pair of siblings in the universe. And GLASS managed to escape back onto the ship, only to find that life there is just as dangerous as she feared it would be on Earth. Confronted with a savage land and haunted by secrets from their pasts, the hundred must fight to survive. They were never meant to be heroes, but they may be mankind's last hope.

**The Baseball 100** Joe Posnanski,2021-09-28 NEW YORK TIMES BESTSELLER \* Winner of the CASEY Award for Best Baseball Book of the Year "An instant sports classic." —New York Post \* "Stellar." —The Wall Street Journal \* "A true masterwork...880 pages of sheer baseball bliss." —BookPage (starred review) \* "This is a remarkable achievement." —Publishers Weekly (starred review) A magnum opus from acclaimed baseball writer Joe Posnanski, The Baseball 100 is an audacious, singular, and masterly book that took a lifetime to write. The entire story of baseball rings through a countdown of the 100 greatest players in history, with a foreword by George Will. Longer than Moby-Dick and nearly as ambitious, The Baseball 100 is a one-of-a-kind work by award-winning sportswriter and lifelong student of the game Joe Posnanski. In the book's introduction, Pulitzer Prize-winning commentator George F. Will marvels, "Posnanski must already have lived more than two hundred years. How else could he have acquired such a stock of illuminating facts and entertaining stories about the rich history of this endlessly fascinating sport?" Baseball's legends come alive in these pages, which are not merely rankings but vibrant profiles of the game's all-time greats. Posnanski dives into the biographies of iconic Hall of Famers, unfairly forgotten All-Stars, talents of today, and more. He doesn't rely just on records and statistics—he lovingly retraces players' origins, illuminates their characters, and places their accomplishments in the context of baseball's past and present. Just how good a pitcher is Clayton Kershaw in the 21st-century game compared to Greg Maddux dueling with the juiced hitters of the nineties? How do the career and influence of Hank Aaron compare to Babe Ruth's? Which player in the top ten most deserves to be resurrected from history? No compendium of baseball's legendary geniuses could be complete without the players of the segregated Negro Leagues, men whose extraordinary careers were largely overlooked by sportswriters at the time and unjustly lost to history. Posnanski writes about the efforts of former Negro Leaguers to restore sidelined Black athletes to their due honor and draws upon the deep troves of the Negro Leagues Baseball Museum and extensive interviews with the likes of Buck O'Neil to illuminate the accomplishments of players such as pitchers Satchel Paige and Smokey Joe Williams; outfielders Oscar Charleston, Monte Irvin, and Cool Papa Bell; first baseman Buck Leonard; shortstop Pop Lloyd; catcher Josh Gibson; and many, many more. The Baseball 100 treats readers to the whole rich pageant of baseball history in a single volume. Engrossing, surprising, and heartfelt, it is a magisterial tribute to the game of baseball and the stars who have played it.

**Homecoming** Kass Morgan,2015-02-24 Humanity is coming home. Weeks after landing on Earth, the Hundred have managed to create a sense of order amidst their wild, chaotic surroundings. But their delicate balance comes crashing down with the arrival of new dropships from space. These new arrivals are the lucky ones—back on the Colony, the oxygen is almost gone—but after making it safely to Earth, GLASS's luck seems to be running out. CLARKE leads a rescue party to the crash site, ready to treat the wounded, but she can't stop thinking about her parents who may still be alive. Meanwhile, WELLS struggles to maintain his authority despite the presence of the Vice Chancellor and his armed guards, and BELLAMY must decide whether to face or flee the crimes he thought he'd left behind. It's time for the Hundred to come together and fight for the freedom they've found on Earth, or risk losing everything—and everyone—they love.

**100 Books That Changed the World** Scott Christianson, Colin Salter, 2018-03-06 A tour of global history by way of history's most important scrolls, manuscripts, and printed books, from Plato and Homer to the twenty-first century—100 must reads. Beautifully illustrated in full color, this book informs and entertains as it demonstrates how the power of the written word has shaped, changed, and even revolutionized the world. Prize-winning author Scott Christianson brings together an exceptional collection of groundbreaking works that have changed the tide of history. Included are scriptures that founded religions, manifestos that sparked revolutions, scientific treatises that challenged ingrained beliefs, and novels that kick-started new literary movements. This sweeping chronological survey highlights the most important books from around the globe, from the earliest illuminated manuscripts all the way to the digital age. Included are such well-known classics as the Odyssey, the Torah, Shakespeare's First Folio, Moby-Dick, and Darwin's On the Origins of Species, but an array of other works, some well-known and others less so, are featured as well, including those by Sun Tzu, Nicolaus Copernicus, Mary Wollstonecraft, Adam Smith, Henry David Thoreau, Karl Marx, Sigmund Freud, Marcel Proust, Franz Kafka, as well as more recent works by J. K. Rowling, Art Spiegelman, and Naomi Klein. This provocative collection is the perfect book for both literature lovers and history buffs.

*Rebellion* Kass Morgan, 2016-12-06 Book four in the New York Times bestselling series The 100. Now a hit TV show on the CW! It's been a month since the new dropships landed and the rest of the Colonists joined the hundred on the ground. The teens, once branded juvenile delinquents, are now leaders among their people. It should be a time for celebration and togetherness, but a new threat appears before long: a fanatical cult determined to grow its ranks and heal the war-ravaged planet...by eliminating everyone else on it. After scores of their friends are captured, Clarke sets off to retrieve them, certain that she can come to an understanding with these strangers. Bellamy has a different plan; he won't let anything--or anyone--get in the way of saving the people he loves. Meanwhile, in captivity and scared for their lives, Glass falls under the spell of the cult's magnetic message, and Wells has to learn how to lead again. Unless the rescue party arrives soon, the teen captives will face a fate more terrifying than anything they could imagine. If the hundred ever want to call this dangerous planet home, they'll need to put aside their differences and fight to protect themselves and their world.

**If I Live to Be 100** Neenah Ellis, 2019-03-05 A beautifully written and elegantly wise book that takes us inside the world of centenarians and invites us to learn from them firsthand the art of living well for an exceptionally long period of time. Neenah Ellis always wanted to live to 100, and her fascination led her to interview centenarians from all over the US about what life was like at the very beginning of the century, and how things have changed over time. Ellis, a producer for National Public Radio, spent an unforgettable year traveling with her tape recorder and listening to the stories of America's oldest men and women. She met a couple who courted by horse and sleigh in Vermont during the winter of 1918, and she spent a week with the oldest living black lesbian in America. She visited a nationally known expert on dyslexia who published a book at 96 and whose great-great-grandfather was a colonel in Washington's army; and she met Anna Wilmot, the row-boating centenarian from New England who captured the hearts of thousands of NPR listeners with her confession that she swims in the buff only "when it's foggy and there's no fisherman around." Originally conceived as an American history project, Ellis's year of interviews became much more, a personal journey of growth and transformation. After two decades of acting as the reporter and inquisitor, Ellis finally shifted gears and was able in the process of these conversations to start really listening. Once she had put away the exigencies of her cusp-of-the-millennium life—her deadlines, the intense focus on current events, the endless e-mail and ringing phones—she began to learn the kinds of things that we do from much older people. She started to connect in her conversations with them, and to see the virtue of looking forward, as the centenarians did, not backward. They reminded her that the moment—this very moment that we're in right now—is precious and fine. And that the true richness of life is to be found in each other—in our marriages and friendships, in the intellectual life that we share with each other, and in the ways that we become connected. Their stories add up to a course in living well, with lessons and inspiration for all of us.

secrets are revealed, beliefs are challenged, and relationships are tested. And the hundred will struggle to survive the only way they can--together.

**Vogue 100** Robin Muir,2018 In more than 2,000 issues, British Vogue magazine has acted as a cultural barometer, putting fashion in the context of the larger world in which we live - how we dress, how we entertain, what we eat, listen to, watch, who leads us, excites us and inspires us. The century's most talented photographers, illustrators and artists have contributed to it. In Lee Miller it had, unexpectedly, its own war photographer; in Norman Parkinson, Cecil Beaton, David Bailey, Snowdon and Mario Testino the greatest portrait and fashion photographers of their generation; and in Beaton and Irving Penn two giants of twentieth - century photography. From 1892, American Vogue chronicled the life of beautiful people - their clothes, parties, houses and habits - and the magazine was exported for intrigued British readers. In 1916, when the First World War made transatlantic shipments impossible, its proprietor, Condé Nast, authorised a British edition. It was an immediate success, and over the following ten decades of uninterrupted publication continued to mirror its times - the austerity and optimism that followed two world wars, the 'Swinging London' scene of the sixties, the radical seventies, the image-conscious eighties - and in its second century remains at the cutting edge of photography and design. Decade by decade, Vogue 100 : A Century of Style celebrates the greatest moments in fashion, beauty and portrait photography. Illustrated throughout with well-known images, as well as the less familiar and recently rediscovered, the book focuses on the faces that shaped the cultural landscape: from Matisse to Bacon, Freud and Hirst, from Dietrich to Paltrow, from Fred Astaire to David Beckham, from Lady Diana Cooper to Lady Diana Spencer. It features the fashion designers who defined the century - Dior, Galliano, Balenciaga, Saint Laurent, McQueen - and explores more broadly the changing form of the twentieth - century woman.

**Vital Voices** A. Nelson,2020-09 Vital Voices: 100 Women Using Their Power to Empower celebrates 100 global female leaders who are redefining power. Candid and compelling, each leader shares personal stories, insights and ideas, showing us that women lead differently and that this difference is sorely needed in our world today. While each woman is path-breaking in her own right, it's together that these 100 voices illustrate the transformative power of women's leadership across cultures, industries and generations. A celebration of women's suffrage and gender equality through the use of visual and anecdotal story-telling as told through the eyes of 100 global women leaders who are redefining power, and using their power to strengthen female relationships across the globe. Some of the women featured in the book include Serena Williams, Hillary Clinton, Christine Legarde, Greta Thunberg, and Samar Minall Ah Khan.
