Clara's Kitchen Clara Cannucciari,Christopher Cannucciari,2009-10-27 YouTube® sensation Clara Cannucciari shares her treasured recipes and commonsense wisdom in a heartwarming remembrance of the Great Depression Clara Cannucciari is a 94 year-old internet sensation. Her YouTube® Great Depression Cooking videos have an army of devoted followers. In Clara's Kitchen, she gives readers words of wisdom to buck up America's spirits, recipes to keep the wolf from the door, and tells her story of growing up during the Great Depression with a tight-knit family and a pull yourself up by your bootstraps philosophy of living. In between recipes for pasta with peas, eggplant parmesan, chocolate covered biscotti, and other treats Clara gives readers practical advice on cooking nourishing meals for less. Using lessons she learned during the Great Depression, she writes, for instance, about how to conserve electricity when cooking and how you can stretch a pot of pasta with a handful of lentils. She reminisces about her youth and writes with love about her grandchildren and great-grandchildren. Clara's Kitchen takes readers back to a simpler, if not more difficult time, and gives everyone what they need right now: hope for the future and a nice dish of warm pasta from everyone's favorite grandmother, Clara Cannucciari, a woman who knows

what's really important in life.

**The Gambling Establishment** Jim Orford, 2019-09-05  
There are now signs that, after decades of phenomenal growth, the era of unrestrained gambling liberalisation may be coming to an end. However, the power of the Gambling Establishment is formidable, and it will certainly fight back. Drawing on research and policy examples from around the world, the book provides a unified understanding of the dangerousness of modern commercialised gambling, how its expansion has been deliberately or inadvertently supported, and how the backlash is now occurring. The term Gambling Establishment is defined to include the industry which sells gambling, governments which support it, and a wider network of organisations and individuals who have subscribed to the 'responsible gambling' Establishment discourse. Topics covered include the psychology of how gambling is now being advertised and promoted and

the way it is designed to deceive gamblers about their chances of winning; the increased exposure of young people to gambling and the alignment of gambling with sport; understanding the experience of gambling addiction; the various public health harms of gambling at individual, family, community and societal levels; and how evidence has been used to resist change. The book's final chapter offers the author's manifesto for policy change, designed with Britain particularly in mind but likely to have relevance elsewhere. With detailed examples given of the ways a number of countries are responding to these threats to their citizens' health, this book will be of global interest for academics, researchers, policymakers and service providers in the field of gambling or other addictions specifically, and public health and social policy generally.
