Inertial Component Testing William G. Denhard, 1970 This volume contains the proceedings of the lecture series sponsored by the Guidance and Control Panel of AGARD and presented in Paris in June 1968. The fourteen chapters cover component testing, assembly testing and system testing of gyros, reference platforms, accelerometers and the design of suitable test equipment. The history and economic justification of gyro testing is also discussed, together with an indication of future trends. The effects of design shortcomings and the various types of gas and hydrostatic motor bearings on gyro testing and test specifications are described. The book is concluded by the edited proceedings of a discussion which reveals the testing system philosophy and the test specification and interface problems faced by designers, test engineers, and manufacturers. Richard Hannay Adventures John Buchan, 2016-09-22 John Buchan, (1875 -1940) was a Scottish novelist, historian and Unionist politician who served as Governor General of Canada, the 15th since Canadian Confederation. The Thirty-Nine Steps is set during May and June 1914; war was evident in Europe, Richard Hannay the protagonist and narrator, an expatriate Scot, returns to his new home, a flat in London, after a long stay in Rhodesia, in order to begin a new life. One night he is buttonholed by a stranger, a well-travelled American, who claims to be in fear for his life. The man appears to know of an anarchist plot to destabilise Europe, beginning with a plan to assassinate the Greek Premier, Constantine Karolides, during his forthcoming visit to London. The man reveals his name to be

Franklin P. Scudder, a freelance spy, and remarks that he is dead, which holds Hannay's attention. *Greenmantle* is the second of five novels by Buchan. Hannay is called in to investigate rumours of an uprising in the Muslim world, and undertakes a perilous journey through enemy territory to meet his friend Sandy in Constantinople. Once there, he and his friends must thwart the Germans' plans to use religion to help them win the war, climaxing at the battle of Erzurum. *Mr Standfast* set in the later years of World War I. Brigadier-General Hannay is recalled from active service on the Western Front to undertake a secret mission hunting for a dangerous German agent at large in Britain. Hannay is required to work undercover disguised as a pacifist, roaming the country incognito to investigate a German spy and his agents, and then heads to the Swiss Alps to save Europe from being overwhelmed by the German army. In this book: *The Thirty-Nine Steps* *Greenmantle* *Mr Standfast*

Issues in African Christian Theology Samuel Ngewa, Mark Shaw, Tite Tienou, 1998 Christian theologians in Africa are faced with three conflicting worlds: Christian faith, African culture and modern culture. In spite of the commitment of Christian theologians to live by biblical teaching, there is a tendency for them to become involved with issues in their environments, causing tension. The salient issues confronting Christianity in Africa are examined from an evangelical standpoint. Eighteen African scholars, from Ethiopia, Ghana, Kenya, Nigeria, Tanzania, together with colleagues from the US, contribute perspectives grouped into four parts: The Task of African Christian Theology; The Foundations of African Christian Theology; Christ and the Salvation in African Christian Theology; and The Spirit, the Church and the Future in African Christian Theology.

GUI Design Shan ben tu shu,2015 As technology has rapidly advanced, so too has the way we use and interact with it. Gone are the days of flat black backgrounds dotted with blocky green text; now, users expect a massive range of colors, layouts, and fonts to be used to entertain and assist them in their daily lives. GUI Design assembles the best of recent graphic user interface for a collection that provides practical encouragement for those new to the world as well as inspiration for experienced designers. The book gathers Twitters Vine video creation app for Windows phones, the vulgar-yetamusing Authentic Weather app, an application designed to help tourists follow the physical and ideological path of the Iron Curtain, and more to showcase programs that balance information flow with user experiences and highlight the creativity, inspiration, and expressive techniques used in their design. The projects within demonstrate the increasingly significant role of user interfaces in both design and our everyday lives in the modern world.
