The Fixer Ira Judelson, Daniel Paisner, 2014-06-03 A bail bondsman shares insight into the workings of the justice system while recounting his experiences with celebrity clients, describing how he has organized deals through relationships with judges, lawyers, officers, and district attorneys.

**Digital Technologies and Applications** Saad Motahhir, Badre Bossoufi, 2023-04-27 This book presents volume 2 of selected research papers presented at the Second International Conference on Digital Technologies and Applications (ICDTA 23). This book highlights the latest innovations in

digital technologies as artificial intelligence, Internet of Things, embedded systems, network technology, digital transformation, and their applications in several areas as Industry 4.0, renewable energy, mechatronics, digital healthcare, etc. The respective papers encourage and inspire researchers, industry professionals, and policymakers to put these methods into practice.

**It Takes What It Takes** Trevor Moawad, Andy Staples, 2020-02-04 Foreword by Seattle Seahawks quarterback Russell Wilson From a top mental conditioning coach—the world’s best brain trainer” (Sports Illustrated)—who has transformed the lives and careers of elite athletes, business leaders, and military personnel, battle-tested strategies that will give you tools to manage and overcome negativity and achieve any goal. He knows how to win. More, he knows the many ways—subtle, brutal, often self-inflicted—we lose. As the most trusted mental coach in the world of sports, Trevor Moawad has worked with many of the most dominant athletes and the savviest coaches. From Nick Saban and Kirby Smart to Russell Wilson, they all look to Moawad for help finding or keeping or regaining their competitive edge. (As do countless business leaders and members of special forces.) Now, at last, Moawad shares his unique philosophy with the general public. He lays out lessons he's derived from his greatest career successes as well as personal setbacks, the game-changing wisdom he's earned as the go-to whisperer for elite performers on fields of play and among men and women headed to the battlefield. Moawad's motivational approach is elegant but refreshingly simple: He replaces

hardwired negativity, the kind of defeatist mindset that's nearly everybody's default, with what he calls neutral thinking. His own special innovation, it's a nonjudgmental, nonreactive way of coolly assessing problems and analyzing crises, a mode of attack that offers luminous clarity and supreme calm in the critical moments before taking decisive action. Not only can neutral thinking raise your performance level-it can transform your overall life. And it all starts, Moawad says, with letting go. Past failures, past losses-let them go. The past isn't predictive. If you can absorb and embrace that belief, everything changes. You'll instantly feel more calm. And the athlete-or employee or parent or spouse-who's more calm is also more aware, and more times than not ... will win.

The Road to Modern Jewish Politics Eli Lederhendler, 1989-07-27 It was not until the emergence of the ideologies of Zionism and Socialism at the end of the last century that the Jewish communities of the Diaspora were perceived

by historians as having a genuine political life. In the case of the Jews of Russia, the pogroms of 1881 have been regarded as the watershed event which triggered the political awakening of Jewish intellectuals. Here Lederhendler explores previously neglected antecedents to this turning point in the history of the Jewish people in the first scholarly work to examine concretely the transition of a Jewish community from traditional to post-traditional politics.

Bringing Down the House Ben Mezrich,2002-12-02 The #1 national bestseller, now a major motion picture, 21—the amazing inside story about a gambling ring of M.I.T. students who beat the system in Vegas—and lived to tell how. Robin Hood meets the Rat Pack when the best and the brightest of M.I.T.'s math students and engineers take up blackjack under the guidance of an eccentric mastermind. Their small blackjack club develops from an experiment in counting cards on M.I.T.'s campus into a ring of card savants with a system for playing large and winning big. In less than two years they take some of the world's most sophisticated casinos for more than three million dollars. But their success also brings with it the formidable ire of casino owners and launches them into the seedy underworld of corporate Vegas with its private investigators and other violent heavies.

**The People's Writer** Wayne Mixon,1995 Most critics have considered Caldwell to be only a minor southern writer, often associating him with his worst

**Mustang Miracle** Humberto G. Garcia, 2012-09-21 In 1957, when very few Mexican-Americans were familiar with the game of golf, and even less actually played it, a group of young caddies which had been recruited to form the San Felipe High School Golf Team by two men who loved the game, but who had limited access to it, competed against all-white schools for the Texas State High School Golf Championship. Despite having outdated and inferior equipment, no professional lessons or instructions, four young golfers with self-taught swings from the border city of Del Rio, captured the State title. Three of them took the gold, silver and bronze medals for best individual players. This book tells their story from their introduction to the game as caddies to eventually becoming champions.

**Win the Day** Mark Batterson, 2023-02-21 The New York Times bestselling author of Chase the Lion reveals seven powerful habits that can help you tackle God-sized goals by turning yesterday's regrets and tomorrow's anxieties into fuel for a better today. "This book will change the trajectory of your life."—John Maxwell, #1 New York Times bestselling author, entrepreneur, and leadership expert Too many people delay, downsize, or shrug off their dreams just because they don't know where to start, but playing it safe doesn't account

for the massive cost of a life not fully lived. Win the Day is the jump-start you need to go after your goals, one day at a time. You'll discover how to:

1. Flip the Script: If you want to change your life, start by changing your story.
2. Kiss the Wave: The obstacle is not the enemy; the obstacle is the way.
3. Eat the Frog: If you want God to do the super, you've got to do the natural.
4. Fly the Kite: How you do anything is how you'll do everything.
5. Cut the Rope: Playing it safe is risky.
6. Wind the Clock: Time is measured in minutes; life is measured in moments.
7. Seed the Clouds: Sow today what you want to see tomorrow.

As Batterson unpacks each of these daily habits, you'll see how simple it is to pursue them with focus and dedication—not someday down the road, but now. Transform your perspective of a single day and you'll discover the potential waiting to be grasped at the beginning of each new sunrise.
