A Wonderful Life Frank Martela, PhD, 2020-04-28 In a series of essays that explore the notion of what brings significance to our existences, clarifying why we have this longing beyond the present moment and an insatiable dissatisfaction with where we are, scholar Frank Martela tackles the subject of finding meaning in life. With beautiful decorative elements and an engaging design, the book approaches its subject in a readily digestible form. It grapples with some of life's most pressing questions, like Is happiness a worthy goal? and What is the foundation for meaning in a secular society? and Is life an existential void? yet Martela answers these questions and more in a relaxed, conversational tone and with a wry sense of humor, placing some of life's greatest philosophical concerns and quandaries into a modern-day context. Martela quickly and concisely gets to the heart of the matter: your place in the world and how to find meaning in life as countless thinkers and philosophers have done before, yet the emphasis here is on what we do with the life we have and how we can make it more meaningful. Part prescriptive and part armchair philosophy book, *A Wonderful Life* is accessible to everyone, from the well-read scholar to the apprentice as well as anyone curious about how to extract the greatest meaning and sense of purpose from their existence.

2 Minutes Janene Loucks, 2013-03-04 Michael was considered a 'monster' by anyone who saw him and the Lavetti brothers wanted him dead. His facial disfigurements kept him indoors but his strong will kept him alive. He decided he wanted to become a writer, that way he could be loved and respected and not be seen. One after the other his manuscripts kept getting rejected but he doesn't know why until an editor takes pity on him and tells him he doesn't write with emotion. He decides to start walking around town to figure out what emotion is. On his way home one day, he gets jumped but doesn't know by whom. He blacks out. He waked up the next day in his apartment, clothes ripped and bloody but its not his blood. On his computer is a fully typed out book detailing his life up to that day but he didn't write it. The last paragraph says 'If you wish for fame and fortune, hit send and you will be famous. You have two minutes to decide'. He does it and he becomes exactly what the book says. A couple years later a second book shows up, this time it details his life now and soon to come. Again the same last paragraph shows up but this time it says if he hits send, everything in this book will happen. He does it again then soon realized one by one the Lavetti brothers are being killed off. The last book shows up a few years later, this time detailing his future. If he hits send, the last of his tormentors will die but so will his own wife. Does he do it? Has fortune and fame gone to his head or does the love he has for his wife conquer all?
