Wikipedia @ 20 Joseph Reagle,Jackie Koerner,2020-10-13 Wikipedia's first twenty years: how what began as an experiment in collaboration became the world's most popular reference work. We have been looking things up in Wikipedia for twenty years. What began almost by accident--a wiki attached to an nascent online encyclopedia--has become the world's most popular reference work. Regarded at first as the scholarly equivalent of a Big Mac, Wikipedia is now known for its reliable sourcing and as a bastion of (mostly) reasoned interaction. How has Wikipedia, built on a model of radical collaboration, remained true to its original mission of free access to the sum of all human knowledge when other tech phenomena have devolved into advertising platforms? In this book, scholars, activists, and volunteers reflect on Wikipedia's first twenty years, revealing connections across disciplines and borders, languages and data, the professional and personal.

The 6:20 Man David Baldacci,2022-07-12 A cryptic murder pulls a former soldier turned financial analyst deep into the corruption and menace that prowl beneath the opulent world of finance, in this #1 New York Times bestselling thriller from David Baldacci. Every day without fail, Travis Devine puts on a cheap suit, grabs his faux-leather briefcase, and boards the 6:20 commuter train to Manhattan, where he works as an entry-level analyst at the city's most prestigious investment firm. In the mornings, he gazes out the train window at the lavish homes of the uberwealthy, dreaming about joining their ranks. In the evenings, he listens to the fiscal news on his phone, already preparing for the next grueling day in the cutthroat realm of finance. Then one morning Devine's tedious routine is shattered by an anonymous email: She is dead. Sara Ewes, Devine's coworker and former girlfriend, has been found hanging in a storage room of his office building—presumably a suicide, at least for now—prompting the NYPD to come calling on him. If that wasn't enough, before the day is out, Devine receives another ominous visit, a confrontation that threatens to dredge up grim secrets from his past in the army unless he participates in a clandestine investigation into his firm. This treacherous role will take him from the impossibly glittering lives he once saw only through a train window, to the darkest corners of the country's economic halls of power . . . where something rotten lurks. And apart from this high-stakes conspiracy, there's a killer out there with their own agenda, and Devine is the bull's-eye.

The First 20 Hours Josh Kaufman,2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.

The Gospel According to John ,1999 The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

20 Under 40 Deborah Treisman,2010-11-23 In June 2010, the editors of The New Yorker announced to widespread media coverage their selection of 20 Under 40—the young fiction writers who are, or will be, central to their generation. The magazine published twenty stories by this stellar group of writers over the course of the summer. They are now collected for the first time in one volume. The range of voices is extraordinary. There is the lyrical realism of Nell Freudenberger, Philipp Meyer, C. E. Morgan, and Salvatore Scibona; the satirical comedy of Joshua Ferris and Gary Shteyngart; and the genre-bending tales of Jonathan Safran Foer, Nicole Krauss, and Téa Obreht. David Bezmozgis and Dinaw Mengestu offer clear eyed portraits of immigration and identity; Sarah Shun-lien Bynum, ZZ Packer, and Wells Tower offer voice-driven, idiosyncratic narratives. Then there are the haunting sociopolitical stories of Chimamanda Ngozi Adichie, Daniel Alarcón, and Yiyun Li, and the metaphysical fantasies of Chris Adrian, Rivka Galchen, and Karen Russell. Each of these writers reminds us why we read. And each is aiming for greatness: fighting to get and to hold our attention in a culture that is flooded with words, sounds, and pictures; fighting to surprise, to entertain, to teach, and to move not only us but generations of readers to come. A landmark collection, 20 Under 40 stands as a testament to the vitality of fiction today.

20/20 Susan Lee,2018-09-13 What could you write in 20 minutes?It's something that Susan Lee does almost weekly - go to a writing group, get a prompt, and write for 20 minutes.This collection has a selection of 20 mini-stories created through the use of prompts and a time limit of 20 minutes. Roone Roone Arledge,2010-10-26 Roone Arledge's extraordinary career of more than a half century mirrors the history of the television industry he helped create. Roone is the vivid, intimate account of his own rise to fame and power as the head of both ABC Sports and ABC News as well as an up-close-and- personal story of his era, peopled with friends and foes alike.

High Noon Jean-francois Rischard,2007-03-21 In this age of instant communication and biotechnology, on this ever-smaller planet, what kinds of problems have we created for ourselves? How do we tackle them in a world where the accustomed methods used by nation-states may be reaching their natural limits?In High Noon, J. F. Rischard challenges us to take a new approach to the twenty most important and urgent global problems of the twenty-first century. Rischard finds their common thread: we don't have an effective way of dealing with the problems that our increasingly crowded, interconnected world creates. Our difficulties belong to the future, but our means of solving them belong to the past.Rischard proposes new vehicles for global problem-solving that are startling and persuasive. With its clear-eyed urgency and refreshing specificity, High Noon is an agenda-setting book that everyone who cares about the future must read.

20/20 Bill Hughes,2004-06 Imagine skiing down a slope on Mt. Hood when one ski tangles with an obstruction under the snow. While cartwheeling down the hill, your whole life flashes before your eyes and that's

the last thing you can remember as you awaken twenty years later. That happened to Hugh Williams and this book relates the novel and unusual manner in which he was able to retrieve the highlights of those years he missed. He enters into an agreement with the staff of the nursing home where he had been confined for so many years. Hugh had lots to share with his caretakers as he had taken so many wonderful trips in his earlier years, one of which involved a trip across the Soviet Union in 1972 and included a 5,000 mile trip on the Trans- Siberian Railroad. Having kept a daily journal of this adventure, he was able to bring the trials and tribulations of a visit to communism to life. His interest in politics is borne out in every chapter and if one likes history, geography and government, occasionally sprinkled with a little humor, this book is a must read.

Each essay is informed by Bromberger's ongoing inquiry into how we come to know that there are things in the world that we don't know. Included in the collection is the edited version of Noam Chomsky's minimalist paper.

20/20 Vision Alexandra Tendler,2020-11-03 20/20 Vision is a collection of poetry about love, travel, and self growth. It's a love poem to the past, a sealed letter to the future and a reflection on this moment now and the beautiful unpredictability of what could be. Especially during the uncertainty of your 20s, these poems touch on all the heartache, self discovery, and exploratory desires to see the world and find your niche. The path ahead or behind may not always be clear, but there is always beauty to be found if we look hard enough. It's what makes each of our perspectives uniquely 20/20.
