Getting to Excellence James A. Johnson, 2013-03-29 This book is about a journey with the Center for Strategic Alliances in Education for School and District Improvement with stakeholders in a school targeted for school improvement. The first chapter puts into context the notion of school, its purpose and the incumbent variables of values, attitudes, organizational and leadership behaviors and instructional practices. Throughout the book, the authors look at three contextual boundaries: (1) historical, (2) the lens of former students and their perceptions of the presence or absence of those variables and (3) a comparison of labeled schools and the views and perceptions of stakeholders with regard to quality, equity and adequacy. This is a compelling journey which utilizes quantitative and qualitative data to take a critical look at the processes involved and the strategies used in America's journey in the quest for excellence. The authors' story is one of the pursuits of innovation, reinvention, equity, excellence and culturally relevant education experiences that inspire and reframe the discussion about getting to excellence. The book is replete with illustrations of weaknesses hidden in abstract policies, institutional persistence, and culturally void programs, methodologies and practices. It advocates a methodology for arriving at well-conceived processes for achieving acceptance and academic excellence through collaboration among those to whom education is important - the children and the communities where they live.

The Curriculum Management Audit Larry E. Frase, Fenwick W. English, William K. Poston, 2000-09-20 Overviews the curriculum management audit (CMA) and compares and contrasts it with principles of total quality management (TQM), asking whether a school district can use curriculum audit principles in conjunction with TQM. Part I examines the history, critics, and practical compatibility of the CMA

The NEW School Rules Anthony Kim,Alexis Gonzales-Black,2018-01-06 Actions to increase effectiveness of schools in a rapidly changing world Schools, in order to be nimble and stay relevant and impactful, need to abandon the rigid structures designed for less dynamic times. The NEW School Rules expands cutting-edge organizational design and modern management techniques into an operating system for empowering schools with the same agility and responsiveness so vital in the business world. 6 simple rules create a unified vision of responsiveness among educators Real life case studies illustrate responsive techniques implemented in a variety of educational demographics 15 experiments guide school and district leaders toward increased responsiveness in their faculty and staff

The NEW Team Habits Anthony Kim,Keara Mascarenaz,Kawai Lai,2019-09-20 Leading teams in a rapidly changing world Written for leaders who want to improve their teams, this guide is a follow-up to the best-seller, The NEW School Rules, a framework for transitioning to a more responsive, innovative organization. The NEW Team Habits goes further, providing battle-tested practices the authors have used with hundreds of leadership teams to build better habits for team learning, meetings, and projects. Readers will find • a five step learning cycle for building team habits • videos, readings, and other resources to build knowledge • engaging team activities to drive learning

Fit Happens! Simple Steps for a Healthier, More Productive Life! Todd Whitthorne,2018-06-14 Good habits are just as easy to form as bad habits. With relatable and personal anecdotes, intuitive advice, and a focus on fundamentals, Todd reminds each of us that fitness is not only achievable, but natural and contagious. It's time for each of us to recognize that we have the power to make fit happen. David L. Katz, MD, MPH ~ Founder/President, True Health Initiative Having known Todd as

a colleague and friend for close to 20 years I can honestly say his ability to both motivate and educate is unparalleled. Making the complicated simple is his gift and FIT HAPPENS! is a perfect example of that. Tim Church, M.D., P h.D., M.P.H. ~ Chief Medical Officer, ACAP Health I've long known that Todd Whitthorne was a gifted speaker. With FIT HAPPENS! I now realize he's also a terrific writer. You will find outstanding "nuggets" in every chapter that are not only thought-provoking but also extremely actionable. Crayton Webb ~ Owner/CEO, Sunwest Communications Todd is the most engaging and effective speaker I have ever seen on the topics of good health and fitness. In FIT HAPPENS!, Todd expands upon the insights he shares through his in-person presentations and provides the reader a why-to and how-to guide for transforming her or his life through purposeful, healthy habits and a passion for a life lived fully. Baker Harrell, PhD ~ CEO, It's Time Texas

Managing Forests as Complex Adaptive Systems Christian Messier, Klaus J. Puettmann, K. David Coates, 2013-02-11 This book links the emerging concepts of complexity, complex adaptive system (CAS) and resilience to forest ecology and management. It explores how these concepts can be applied in various forest biomes of the world with their different ecological, economic and social settings, and history. Individual chapters stress different elements of these concepts based on the specific setting and expertise of the authors. Regions and authors have been selected to cover a diversity of viewpoints and emphases, from silviculture and natural forests to forest restoration, and from boreal to tropical forests. The chapters show that there is no single generally applicable approach to forest management that applies to all settings. The first set of chapters provides a global overview of how complexity, CAS and resilience theory can benefit researchers who study forest ecosystems. A second set of chapters provides guidance for managers in understanding how

these concepts can help them to facilitate forest ecosystem change and renewal (adapt or self-organize) in the face of global change while still delivering the goods and services desired by humans. The book takes a broad approach by covering a variety of forest biomes and the full range of management goals from timber production to forest restoration to promote the maintenance of biodiversity, quality of water, or carbon storage.

The Forever Young Diet & Lifestyle James H. O'Keefe, Joan O'Keefe, 2009-01-01 From a cardiologist and a nutritionist, a holistic plan for healthy aging and wellness rooted in the ancestral eating habits of hunter gatherers. "The Forever Young program is the scientifically based plan that will bring your life back into synch with your genetic identity, restoring your youthful vigor and glow, while at the same time optimizing your health, quality of life, and longevity." —James O'Keefe, MD and Joan O'Keefe, RD In a field plagued by "miracle" diets and sketchy information, The Forever Young Diet and Lifestyle presents a commonsense plan that improves satiety; promotes wholesome, fresh, and easily obtained foods; and reinforces a rational, holistic, mind-body approach to diet and lifestyle. The program is a complete package that can help provide a lifetime of energy and good health. Most of our health problems today result from a mismatch between the world we are designed for and the very different one in which we live. The modern American leading a sedentary lifestyle of automobiles, couches, televisions, computers, and junk food is like a fish out of water. Our genes have changed minimally over the past few thousand years, yet our diets and lifestyles have become progressively more divergent from those of our ancient ancestors. The Forever Young Diet and Lifestyle outlines the path back to our natural needs and rhythms. Firmly grounded in the medically proven Hunter-Gatherer diet, the plan easily promotes weight loss, vastly improves energy

levels, enhances sleep and concentration, and restores the natural youthful glow we should have at any age. Cardiologist James O'Keefe and his wife, Joan, a registered dietitian, provide a down-to-earth, sensible program that's satisfying and easy to follow.

Whoosh! Chris Barton, 2016-05-03 Celebrate the inventor of the Super Soaker in this inspiring picture book biography about Lonnie Johnson, the maker behind one of the world's favorite toys. You know the Super Soaker. It's one of top twenty toys of all time. And it was invented entirely by accident. Trying to create a new cooling system for refrigerators and air conditioners, impressive inventor Lonnie Johnson instead created the mechanics for the iconic toy. A love for rockets, robots, inventions, and a mind for creativity began early in Lonnie Johnson's life. Growing up in a house full of brothers and sisters, persistence and a passion for problem solving became the cornerstone for a career as an engineer and his work with NASA. But it is his invention of the Super Soaker water gun that has made his most memorable splash with kids and adults.

Problem Seeking William Peña, Steven Parshall, Kevin Kelly, 1987 The classic programming guide for architects and clients-fully updated and revised. Architectural programming is a team effort that requires close cooperation between architects and their clients. Problem Seeking, Fourth Edition lays out a five-step procedure that teams can follow when programming any building or series of buildings, from a small house to a hospital complex. This simple yet comprehensive process encompasses the entire range of factors that influence the design of buildings.

The Evolution of Affordable Content Efforts in Higher Education Kristi Jensen, Shane Nackerud, 2018 The Evolution of Affordable Content Efforts in the Higher Education Environment: Programs, Case Studies, and Examples provides both inspiration and guidance for those beginning work on affordable content and evidence of the growth that has occurred in this arena over the last

decade. While some institutions have been providing students affordable content options for over 100 years, many others have found the need to launch new programs in response to the escalating costs of higher education and the impact that has on student learning. This book provides examples from different types and sizes of institutions and includes voices from a wide range of contributors including faculty, instructional designers, academic technologists, librarians, bookstore staff, and more. The Evolution of Affordable Content demonstrates the range of affordable content options that are possible today-from openly licensed content to library licensed materials and all inclusive purchase models to institution-wide student textbook rental models.

Avian Influenza Virus Erica Spackman, 2008-02-28 With the growing global fear of a major pandemic, avian influenza (AI) virus research has greatly increased in importance. In Avian Influenza Virus, an expert team of researchers and diagnosticians examine the fundamental, yet essential, virological methods for AI virus research and diagnostics as well as some of the newest molecular procedures currently used for basic and applied research. They present exciting, cutting-edge new methods that focus both on studying the virus itself and on work with avian hosts, an area greatly lacking in research.

Encyclopedia of the Archaeology of Ancient Egypt Kathryn A. Bard, 2005-11-03 The Encyclopedia opens with a general map of the region and a chronology of periods and dynasties, providing a context for the entries. The first section of the volume then comprises 14 overviews which explore the history and significance of each period. The main body of the text offers more than 300 alphabetically organized entries, written by some of the most eminent scholars in this field. Areas covered include: artefacts - glass, jewellery, sculpture archaeological practices - dating techniques, representational evidence, textual sources biographies - Howard Carter, Gertrude Caton Thompson, Gaston Maspero buildings - cult temples, private tombs, pyramid complexes geographical features - agriculture, climate, irrigation sites - Abydos, Dakhla Oasis, Thebes social organization - kingship, law, taxation The text is extensively illustrated with over 120 images. Each entry is followed by a selected further reading section which includes foreign language sources to supplement the available works in English.

Unlocking the Doors to the Worlds of Guaman Poma and His Nueva corónica Rolena Adorno, Ivan Boserup, 2015-12-04 Honored by UNESCO's Memory of the World designation, Felipe Guaman Poma de Ayala's *Nueva corónica y buen gobierno* (1615) rewrites Andean history in accordance with the author's goals of reforming Spanish colonial rule in the continent-spanning viceroyalty of Peru. Housed at the Royal Library of Denmark since the 1660s, brought to international attention in 1908, and first published in facsimile in 1936, the autograph manuscript has been the topic of research in Andean ethnology and related disciplines for several decades. Now, on the eve of the 400th anniversary of Guaman Poma's composition of the *Nueva corónica*, a renowned group of international scholars has focused fresh attention on the work, its author, and its

times. Accomplished Andeanists such as R. Tom Zuidema, Frank Salomon, Jan Szeminski, and Regina Harrison are joined by other notable and younger scholars to explore Andean institutions and ecology, Inca governance, Spanish conquest-era history, the transformations of native and European sources in Guaman Poma's hand, and his multilingual artistic dexterity. The relationship of the manuscript to Fray Martín de Murúa's chronicles and a critical analysis of claims about the Nueva corónica's authorship round out the volume.

The Villa Laurentina of Pliny the Younger in an Eighteenth-century Vision Jerzy Miziołek, 2016 The book deals with a paper reconstruction of Pliny the Younger's (c. AD 61-112) villa near Ostia, some twenty kilometres from Rome. This unique work was created in Rome in the years 1777-78 by a young Pole, Count Stanisław Potocki (1755-1821) in cooperation with Giuseppe Manocchi and other outstanding artists of the time. The work, originally in the Potocki collection in Wilanów, is today housed in the iconographic collection of the National Library, Warsaw. It contains over thirty large-format drawings (57.789.5 cm) in colour. Just before the close of the 18th century, probably during his last sojourn in Italy (1795-97), Count Potocki wrote a 24-page-long commentary to his work, entitled *Notes et Idées sur la Villa de Pline*. This hitherto unpublished manuscript commentary and reconstruction drawings of the villa are now published together with a virtual

visualisation of the villa produced in 3D Studio Max 2014.--
