21st Century Perspectives on Music, Technology, and Culture

R. Purcell, R. Randall, 2016-04-08 This collection presents a contemporary evaluation of the changing structures of music delivery and enjoyment. Exploring the confluence of music consumption, burgeoning technology, and contemporary culture; this volume focuses on issues of musical communities and the politics of media.

The Ringtone Dialectic Sumanth S. Gopinath, 2013 A decade ago, the customisable ringtone was ubiquitous. Almost any crowd of cell phone owners could produce a carillon of tinkly, beeping, synthy, musicalised ringer signals. Ringtones quickly became a multi-billion-dollar global industry and almost as quickly faded away. This book charts the rise and fall of the ringtone economy and assesses its effect on cultural production.

The Ringtone Dialectic Sumanth Gopinath, 2013-07-19 The rise and fall of the ringtone industry and its effect on mobile entertainment, music, television, film, and politics. A decade ago, the customizable ringtone was ubiquitous. Almost any crowd of cell phone owners could produce a carillon of tinkly, beeping, synthy, musicalized ringer signals. Ringtones quickly became a multi-billion-dollar global industry and almost as quickly faded away. In *The Ringtone Dialectic*, Sumanth Gopinath charts the rise and fall of the ringtone economy and assesses its effect on cultural production. Gopinath describes the technical and economic structure of the ringtone industry, considering the transformation of ringtones from monophonic, single-line synthesizer files to polyphonic MIDI files to digital sound files and the concomitant change in the nature of capital and rent accumulation within the industry. He discusses sociocultural practices that seemed to wane as a result of these shifts, including ringtone labor, certain forms of musical notation and representation, and the creation of musical and artistic works quoting ringtones. Gopinath examines “declines,” “reversals,” and

“revivals” of cultural forms associated with the ringtone and its changes, including the Crazy Frog fad, the use of ringtones in political movements (as in the Philippine “Gloriagate” scandal), the ringtone's narrative function in film and television (including its striking use in the films of the Chinese director Jia Zhangke), and the ringtone's relation to pop music (including possible race and class aspects of ringtone consumption). Finally, Gopinath considers the attempt to rebrand ringtones as “mobile music” and the emergence of cloud computing.

Communication and Leadership in the 21st Century Holger Sievert, Daniela Bell, 2010-07-30 For some people, Public Relations used to be that former journalist type who deals with the media. However, the public perception of the profession has changed quite substantially. Communication has become a genuine modern management function. The integration of successful public relations is a crucial contribution to raising the level of professionalism in an organization. *Communication and Leadership in the 21st Century* is a review of theoretical and empirical research papers on this subject, intended for scholars, students, and professionals across these disciplines. The volume focuses in particular on four distinct, but interrelated areas of communication: Integrated Market & Corporate Communication, Communication Management & Media, Organizational Communication & Change and Leadership Communication & Strategies. With special emphasis on the German and European situation and two digressions to China, the authors provide different perspectives on the cross-cultural context of international communications and leadership. The book's four subject areas also characterize the key subjects of an innovative Executive MBA program which has been developed in cooperation with the Technische Universität München. The study program is part of the *icommunicate!* Qualification Program, an initiative of the Bertelsmann Stiftung, the Heinz Nixdorf Stiftung and the Daimler Fund. The aim of *icommunicate!* is to unite communication and leadership in the workplace, in training and in research.

What is a 21st Century Brand? Nick Kendall, 2015-04-03 What is a 21st century brand? How is it changing? What is critical now? What are the new mantras and principles? What are the new ideas for how to do it? What do you believe and what would you

do therefore? What Is a 21st Century Brand? features 20 of the best papers produced during the 10 years of The IPA Excellence Diploma. Each is a fresh, original and uniquely personal perspective from the new generation of leaders across creative, media and digital agencies. Produced in partnership with internationally recognized advertising body, the IPA, the book is accompanied by commentary from leading industry thinkers including Stephen Woodford, Mark Earls, David Wilding and Ian Priest, and is edited by Nick Kendall. Together they offer multiple perspectives and the opportunity to challenge yourself to consider what you really believe about advertising and branding. Structured as 20 provocations written in the form of 'I believe... and therefore...', the essays are organized into three sections: - What is a brand? - How should we engage to build them? - How should we organise to deliver? Highlighting that today's most successful agencies are those which are embracing the new ways to consume content, What is a 21st Century Brand? delivers cutting-edge thinking across all areas of advertising practice, questioning the real fundamentals of creating and building brands. It is a thought-provoking read for any advertising practitioner or student.

The Ringtone and the Drum Mark Weston, 2012-10-26 Tucked away in a remote part of Africa, Sierra Leone, Guinea-Bissau and Burkina Faso, three of the world's poorest countries, are in the throes of great upheaval. Globalisation has shown their people that a more comfortable life is possible, but as they strive to attain it, climate change, the population boom, the tyrants of the old guard and the firm grip of tradition block their way. The clash between old and new is explosive. Civil wars erupt without warning, with drugged up rebels fighting over blood diamonds, gold or a humble bowl of rice. Al Qaeda has set up camp in Burkina Faso. Colombian drug gangs have overrun Guinea-Bissau. Christian and Muslim fanatics battle for African souls, preparing their converts for Armageddon. In *The Ringtone and*

the Drum, Mark Weston dives into this maelstrom. In an often-unsettling adventure, he travels around the three countries and immerses himself in local life. Combining the remarkable stories of those he meets with his deep knowledge of Africa's development, the book sheds new light on a neglected corner of the globe. ,

This Business of Music M. William Krasilovsky, Sidney Schemel, 2007 A complete and up-to-date guide to the music industry covers such topics as record industry trends, copyright law, sources of publishing income, buying and selling of catalogues, agents and managers, and music videos.

21st-Century Yokel Tom Cox, 2017-11-16 Longlisted for the Wainwright Golden Beer Book Prize 21st-Century Yokel is not quite nature writing, not quite a family memoir, not quite a book about walking, not quite a collection of humorous essays, but a bit of all five. Thick with owls and badgers, oak trees and wood piles, scarecrows and ghosts, and Tom Cox's loud and excitable dad, this book is full of the folklore of several counties – the ancient kind and the everyday variety – as well as wild places, mystical spots and curious objects. Emerging from this focus on the detail are themes that are broader and bigger and more important than ever. Tom's writing treads a new path, one that has a lot in common with a rambling country walk; it's bewitched by fresh air and big skies, intrepid in minor ways, haunted by weather and old stories and the spooky edges of the outdoors, restless and prone to a few detours, but it always reaches its destination in the end.

Here for Good: Community Foundations and the Challenges of the 21st Century Terry Mazany, David C. Perry, 2014-12-18

Community foundations bring together the resources of individuals, families, and businesses to support effective nonprofits in their communities. Over the years, foundations have come to engage community problem-solving through more than just grant-making. They have added a rich array of other activities, including programs of community capacity building, active modes of advocacy, and centres for meeting. In 2011, the 700+ institutions in the United States gave an estimated \$4.2 billion to a variety of nonprofit activities in fields that included the arts and education, health and human services, the environment, and disaster relief. The origins of this book stem from conversations among the leadership of community foundations about the challenges they must overcome in order to make such foundational contributions to their communities. As community foundations enter the second century of their existence (the first foundation was formed in Cleveland in 1914), the need for knowledge and best practices has never been greater. This book, with expert authors representing the best and the brightest in this important field, fills that need.

MicroBionic: Radical Electronic Music and Sound Art in the 21st Century Thomas Bey William Bailey, 2012-12-10 Micro Bionic is an exciting survey of electronic music and sound art from cultural critic and mixed-media artist Thomas Bey William Bailey. This superior revised edition includes all of the original supplements neglected by the publishers of the first edition, including a full index, bibliography, additional notes / commentary and an updated discography. As the title suggests, the unifying theme of the book is that of musicians and sound artists taking bold leaps forward in spite of (or sometimes because of) their financial, technological, and social restrictions. Some symptoms of this condition include the gigantic discography amassed by the one-man project Merzbow, the drama of silence enacted by onkyo and New Berlin Minimalism, the annihilating noise transmitted from the humble laptop computers of Russell

Haswell and Peter Rehberg and much more besides. Although the journey begins in the Industrial 1980s, in order to trace how the innovations of that period have gained greater currency in the present, it surveys a wide array of artists breaking ground in the 21st century with radical attitudes and techniques. A healthy amount of global travel and concentrated listening have combined to make this a sophisticated yet accessible document, unafraid to explore both the transgressive extremes of this culture and the more deftly concealed interstices thereof. Part historical document, part survival manual for the marginalized electronic musician, part sociological investigation, *Micro Bionic* is a number of different things, and as such will likely generate a variety of reactions from inspiration to offense. Numerous exclusive interviews with leading lights of the field were also conducted for this book: William Bennett (Whitehouse), Peter Christopherson (r.i.p., Throbbing Gristle / Coil), Peter Rehberg, John Duncan, Francisco López, Carl Michael von Hausswolff, Bob Ostertag, Zbigniew Karkowski and many others weigh in with a diversity of thoughts and opinions that underscore the incredible diversity to be found within new electronic music itself.

The State of the Art Michael Anderson, Colleen Roche, 2015-04-30 *The State of the Art: Teaching Drama in the 21st Century* presents cutting-edge scholarship from leading drama education researchers in New South Wales. This collection features discussions that are directly relevant to drama teachers in primary and secondary schools, artists and theatre makers, and drama education researchers.

Avoiding Extinction: Reimagining Legal Services for the 21st Century Mitchell Kowalski, 2016-04-21
"Mitch Kowalski has translated his considerable understanding of tomorrow's legal profession into an original, provocative and entertaining narrative." —Professor Richard Susskind, author of *The End of Lawyers?* "This is the most innovative law practice management book I've ever seen. Mitch has deftly combined an engaging novel about the lives of working lawyers with an illuminating treatise on how law firms must respond to extraordinary change in the legal

marketplace. Avoiding Extinction is as entertaining as it is instructive -- and it couldn't be more timely." —Jordan Furlong, Partner, Edge International "This is a must read for managing partners, and for all lawyers under the age of 50. Written as a parable, once you pick it up it's difficult to put down. And it literally screams relevance to the lives of those lawyers today who worry about the sustainability of the current model of legal practice. Big firm or small. City or rural – no matter, this book is for you. Can the law be both a profession and a business? Is it possible to escape the tyranny of the billable hour? Is it realistic to imagine being a truly happy lawyer in private practice in the twenty-first century? You bet – and Mitch Kowalski shows us how! —Ian Holloway QC, Dean of Law, The University of Calgary "Avoiding Extinction is the most original, far-thinking and innovative book on transforming the way that law is practised that I have ever read. Mitch has taken the traditional law firm and turned it upside down. In the process he has reworked the law firm model and given us an insight into how a firm could be structured and run. If you are looking for a creative vision into what a new, truly different law firm could look like, then this book is manna from heaven." —David J. Bilinsky, Practice Management Advisor, lawyer and writer on law practice management and technology. Creator of the law blog, Thoughtful Legal Management.
