An Ecclesiastical History to the Year 324 of the Christian Era. Translated by C. F. Cruse ,1842

The Haram of Jerusalem, 324-1099 Andreas Kaplony,2002 From the Muslims' to the Crusaders' conquest Jerusalem is among the world's best known cities. Its most outstanding and constant feature is its shared holiness by three major confessions (Muslim, Jewish and Christian). Covering the Marwanid, the Abbasid, and the Faimid phase, this study describes not only the emergence of conceptions with which the three major confessions share this city, but also their interactions as well as the political circumstances and religious axioms which give each conception its specific shape. Looking for these conceptions of the holy area of the city the Haram has been chosen. This area of the former temple was highly significant to all three confessions. The analysis is based on a careful description of the Haram (focusing on topics like names and traditions, architecture, rituals and customs, visions and dreams), and on the establishment of as many parallels as possible. The result is a volume of astonishing depth and comprehensiveness [♦] As a compendium of sources it is unrivalled. Journal of Palestine Studies The excellent graphics added to each section, culminating in 103 figures, deserve special mention. Also impressive is Kaplony's generous handling of space; it seems that he was aiming for the display of all the texts available to him. [♦] taking into account Kaplony's treatment of the subject, one is tempted to compare it with that of the precision and care of Swiss watchmakers. Unless new sources come to light, which is not very likely, this book will be the standard work ♦ for many years to come. Jerusalem Studies in Arabic and Islam This book is an excellent contribution to the growing literature on Islamic Jerusalem, and it will indubitably be of interest to scholars and students of medieval Islamic history. International Journal of Middle East Studies.

History of the Byzantine Empire, 324-1453, Volume I Alexander A. Vasiliev,1958-04-15 “This is the revised English translation from the original work in Russian of the history of the Great Byzantine Empire. It is the most complete and thorough work on this subject. From it we get a wonderful panorama of the events and developments of the struggles of early Christianity, both western and eastern, with all of its remains of the wonderful productions of art, architecture, and learning.”—Southwestern Journal of Theology

The Empire of the Tetrarchs Simon Corcoran,2000 The era of Diocletian and Constantine is a significant period for the Roman empire, with far-reaching administrative changes that established the structure of government for three hundred years a time when the Christian church passed from persecution to imperial favour. It is also a complexperiod of co-operation and rivalry between a number of co-emperors, the result of Diocletian's experiment of government by four rulers (the tetrarchs). This book examines imperial government at this crucial but often neglected period of transition, through a study of the pronouncements that theemperors and their officials produced, drawing together material from a wide variety of sources: the law codes, Christian authors, inscriptions, and papyri. The study covers the format, composition, and promulgation of documents, and includes chronological catalogues of imperial letters and edicts,as well as extended discussions of the Gregorian and Hermogenian Codes, and the ambitious Prices Edict. Much of this has had little detailed coverage in English before. There is also a chapter that elucidates the relative powers of the members of the imperial college. Finally, Dr Corcoran assesseshow effectively the machinery of government really matched the ambitions of the emperors. The additional notes in this revised edition of the hardback contain details of recent epigraphic work and discoveries, especially from Ephesus, as well as an account of a long ignored rescript ofDiocletian.
