The Steam Mole Dave Freer, 2021-12-11 This new steampunk adventure is a race around the world. Tim Barnabas is a submariner from the Cuttlefish, a coal fired submarine. Clara Calland is the daughter of a scientist who carries a secret formula that threatens British Imperial power. After a daring chase across the globe, they have brought the secret to Westralia. Here, much of Australia is simply too hot to be habitable by day. People are nocturnal, living underground and working outside at night. To cross the deserts they use burrowing machines known as steam moles. With the Cuttlefish out of action, her crew takes jobs on these submarine-like craft. Duke Malcolm, of the Imperial Security Service, transports Clara's rebel-father to a prison in Eastern Australia, hoping to bait her into attempting a rescue. Clara looks to Tim for help, only to find he has fled a racist incident into the desert. She takes a steam mole in search of him. The two head to Eastern Australia, where they discover an invading force with plans to take Westralia. Forced to survive in the desert, they encounter the intolerance meted out to the aboriginal people. Can they save Westralia from falling under British rule? And should they? From the Hardcover edition.

Finding Your Feet Cass Lennox,2017-01-16 While on holiday in Toronto, Evie Whitmore planned to sightsee and meet other asexuals, not audition for a dance competition. Now she's representing Toronto's newest queer dance studio, despite never having danced before. Not only does she have to spend hours learning her routine, she has to do it with one of the grumpiest men she's ever met. Tyler turns out to be more than a dedicated dancer, though—he might be the kind of man who can sweep her off her feet, literally and figuratively. Tyler Davis has spent the last year recovering from an emotionally abusive relationship. So he doesn't need to be pushed into a rushed routine for a dumb competition. Ticking major representation boxes for being trans and biracial isn't why he went into dance. But Evie turns out to be a dream student. In fact, she helps him remember just how good

partnering can be, in all senses of the word. Teaching her the routine, however, raises ghosts for him, ones he's not sure he can handle. Plans change, and people change with them. Learning a few steps is one thing; learning to trust again is another entirely. **See this title's page on RiptidePublishing.com for content warnings.**

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to

enrich that most rewarding of relationships.

Towns, Ecology, and the Land Richard T. T. Forman, 2019-02-07 Towns and villages are sometimes viewed as minor, even quaint, spots, whereas this book boldly reconceptualizes these places as important dynamic environmental 'hotspots'. Multitudes of towns and villages with nearly half the world's population characterize perhaps half the global land surface. The book's pages feature ecological patterns, processes, and change, as well as human dimensions, both within towns and in strong connections and effects on surrounding agricultural land, forest land, and arid land. Towns, small to large, and villages are examined with spatial and cultural lenses. Ecological dimensions - water, soil and air systems, together with habitats, plants, wildlife and biodiversity - are highlighted. A concluding section presents concepts for making better towns and better land. From a pioneer in both landscape ecology and urban ecology, this highly international town ecology book opens an important frontier for researchers, students, professors, and professionals including environmental, town, and conservation planners.

Total Cat Mojo Jackson Galaxy, 2017-10-31 This comprehensive cat care guide from the star of the hit Animal Planet show *My Cat from Hell*, Jackson Galaxy, shows us how to eliminate feline behavioral problems by understanding cats' instinctive behavior. Cat Mojo is the confidence that cats exhibit when they are at ease in their environment and in touch with their natural instincts—to hunt, catch, kill, eat, groom, and sleep. Problems such as litter box avoidance and aggression arise when cats lack this confidence. Jackson Galaxy's number one piece of advice to his clients is to help their cats harness their mojo. This book is his most comprehensive guide yet to cat behavior and basic cat care, rooted in understanding cats better. From getting kittens off to the right start socially, to taking care of cats in their senior years, and everything in between, this book addresses

the head-to-toe physical and emotional needs of cats—whether related to grooming, nutrition, play, or stress-free trips to the vet.

Purrfect Murder Nic Saint,2017-03-16 There's something special about Max. He may look like your regular ginger flabby tabby, but unlike most tabbies, he can actually communicate with his human, reporter for the Hampton Cove Gazette Odelia Poole. Max takes a keen interest in the goings-on in their small town, by snooping around with his best friends Dooley, a not-too-bright ragamuffin, and Harriet, a gorgeous white Persian. Their regular visits to the police station, the barbershop and the doctor's office provide them with those precious and exclusive scoops that have made Odelia the number one reporter in town. But when suddenly the body of a bestselling writer is discovered buried in the last Long Island outhouse, and a new policeman arrives in town to solve the murder, it looks like things are about to change in Hampton Cove. Detective Chase Kingsley doesn't take kindly to nosy reporters like Odelia snooping around his crime scene or interviewing his suspects. And to make matters worse, he's got a cat of his own in Brutus, a buff, black bully, who, just like his owner, likes to lay down the law. Soon Brutus isn't just restricting access to the police station, but he's putting the moves on Harriet, breaking up the band. Now it's all Odelia, Max and Dooley can do to try and solve the murder, in spite of Detective Kingsley's and Brutus's protestations, and show the overbearing cop and his bullyragging feline how things are done in Hampton Cove. Will Odelia find the killer before Detective Kingsley does? And will Max prevent Brutus from moving in on his territory and taking over the town? Find out in *Purrfect Murder*, the first book in the new *Mysteries of Max* series.
