"The New Guitarscape in Critical Theory, Cultural Practice and Musical Performance" Kevin Dawe, 2017-07-05

In *The New Guitarscape*, Kevin Dawe argues for a re-assessment of guitar studies in the light of more recent musical, social, cultural and technological developments that have taken place around the instrument. The author considers that a detailed study of the guitar in both contemporary and cross-cultural perspectives is now absolutely essential and that such a study must also include discussion of a wide range of theoretical issues, literature, musical cultures and technologies as they come to bear upon the instrument. Dawe presents a synthesis of previous work on the guitar, but also expands the terms by which the guitar might be studied. Moreover, in order to understand the properties and potential of the guitar as an agent of music, culture and society, the author draws from studies in

science and technology, design theory, material culture, cognition, sensual culture, gender and sexuality, power and agency, ethnography (real and virtual) and globalization. Dawe presents the guitar as an instrument of scientific investigation and part of the technology of globalization, created and disseminated through corporate culture and cottage industry, held close to the body but taken away from the body in cyberspace, and involved in an enormous variety of cultural interactions and political exchanges in many different contexts around the world. In an effort to understand the significance and meaning of the guitar in the lives of those who may be seen to be closest to it, as well as providing a critically-informed discussion of various approaches to guitar performance, technologies and techniques, the book includes discussion of the work of a wide range of guitarists, including Robert Fripp, Kamala Shankar, Newton Faulkner, Lionel Loueke, Sharon Isbin, Steve Vai, Bob Brozman, Kaki King, Fred Frith, John 5, Jennifer Batten, Guthrie Govan, Dominic Frasca, I Wayan Balawan, Vicki Genfan and Hasan Cihat ?ter.

365 Guitars, Amps & Effects You Must Play Dave Hunter, 2013-05-15 Guitarists love guitars. Few own just one, and most are dreaming of their next acquisition. To help them out, here is the ultimate bucket list of guitars—plus guitar amps and various guitar effects—that aficionados must play. Included are the classics, such as the great Fender guitars, the Stratocaster and Telecaster, and the stylish Gibson Les Paul. Included as well are the dream creations—masterpieces from D’Angelico and Gretsch. And then there are the weird guitars—the outrageous, rare, and so-strange-they’re-cool, and your beloved childhood guitar that you first learned on. Included as well are the guitar amps, from vintage to current, rare to essential, plus the stompboxes, foot pedals, and guitar effects that you simply

have to take for a ride. Each instrument is profiled along with a short description of its history, technical features, and what it's like to play. Photographs and rare memorabilia add the crowning touch, making this the perfect impulse buy or giftbook for any and all guitarists.

Graduating as a music major at Bucks County Community college, he started out in 1984 and got his start working his way up through the ranks at Hoshino USA, the makers of Ibanez Guitars located in Bensalem, PA. While at Ibanez Jim became the USA main guitar designer and custom builder. He was also the overseas purchaser. Part of his job included studying the market and designing new models in terms of current trends and analyzing new market areas. He worked with the artists endorsed and designed models to fit their specific needs. Jim has an impressive resume of artists he had done work for. He has built and designed custom guitars for Steve Vai, Joe Satriani, George Benson, Paul Gilbert, Larry Mitchell, John

Petrucci, Andy Timmons, Gerald Veasley, Gary Willis, Jon Finn, and many other Ibanez endorsers past and present. There was so much work, research, and thought that went into that thick hard bound impressive book! A total must have for any Ibanez owner. Throughout 1994-2003 Jim also was responsible for the layout, models and detail of the Ibanez guitar catalogs. Taking this knowledge with him has aided in the magnificent catalogs he now produces for his own guitar manufacturing company! In 2002 Jim then published Guitars: Design, Production and Repair, which has been very successful! Jim has also written and work published in Korean Guitar magazine called Rockit. He had a section in tremolos' In Dan Erlewins How to Make Your Electric Guitar Play Great. For the Philadelphia Chapter of the Arts, he was called upon to speak at numerous seminars.
