The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full

advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch

A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Adventures of the Clumsy Ninja Zac Tyler,2015-02-05 From The Back CoverHe was going to give the flowers to her. But here?! In front of everyone? Again doubt entered his mind. He was

still in a quandary when he didn't notice and tripped over something and fell face down on the floor. A shot of laughter rose up in the corridor. Tony turned around instinctively to see what had caused him to trip. What he saw made his blood boil: leering and sticking out his foot was Toby Duhamel. Toby. He was an eighth grader who had had an axe to grind with Tony ever since Tony beat him in a game of ping pong. "Oops," he sneered. "Maybe you'll watch where you are going next time." Tony got up angrily, red in the face. His eyes instinctively looked for Emma. She wasn't there. Good, maybe she didn't see that. That jerk, Toby.

The Black Dungeon Doorway Kyle Lance

Proudfoot, 2011-07-28 The Black Dungeon Doorway The Black Dungeon Doorway is a Science Fiction/Fantasy Novel which I, Kyle Lance Proudfoot, have written. It is a romping metaphysical exploration through multiple realities with 4 characters: Orthe, Wodora, Aera and Pyre. With magical and technological devices and telepathic, psychic, telekinetic and magical abilities we go through worlds, progressing through Planes Of Existence. This happens through blinking doorways, doors, portals or gates with sensory panoramas opening up and new dimensions of mind, body and soul being discovered... Throughout our adventure, quest or mission we think, telepathically communicate, talk, converse, philosophize, debate and battle to explore the nature of reality. Regardless of your own opinions and beliefs, one cannot deny within the one big reality the existence of multitudinal different observations and experiences, thus

multiverses. The storyline leads us to a greater discovery of our god-like heroic nature. In the stunning conclusion, there is a higher realization of the true and higher Power and Energy Level's in reality and how in some way we can each become Immortal! The Black Dungeon Doorway is not only a dark dungeon into the realms of the subconscious and/or unconscious but also a maze and puzzle as indicated by the chapter titles. In many ways, it is also not only a 4D symbolic representation and construction of the Universe but also of the human mind and various bodies, aspects and layers which we each possess. If you ask me, the Astral Plane or Dream World is not only symbolic, figurative and/or metaphorical but quite literal, especially in the After Life... The Black Dungeon Doorway is Part 1 of a trilogy. The second part is Planes Of Existence. The third and final part is The Door Of Light or Door Of Light. All three books are based on the complete MMORPG System which I have developed starting with Apotheum Colluseum, the Battle System of The Free Show. I grew up in Toronto, Canada, free spirited, idealistic and lightly optimistic. Though I have now put a good dosage of realism into my perspective, I will still have hope for the future and I will never give up my own 'dream of delusion'. In 1996, I moved to the Netherlands and continued my life's work which are on my websites in the form of FREE Draft's. I have a propedeuse in both Philosophy and Psychology and my highest acquired diploma is MCSE (NT). I am presently busy as a Webmaster, Web Designer and Web Developer and am next to being an Author, also a Musician, Artist and Actor. See my

resum. My interests are diverse: Literature, Films, Music, Art, Science Fiction, Fantasy, Photos, Video, Philosophy, Religion, Science, Politics, Space, Travel, Biking, Fitness, Nature, The Free Show, 3D Games, 3D Game Development, Family, Friends, Information Technology, Open Source Programming Languages, Cooking. Personally, I have a strong sense of humor and am an intellectual and emotional Pisces with my Moon in Aries. I like to be direct and honest but sometimes one has to put water in the wine. Since a young idealistic teenager, I have always had a good sense of Moral's and Values, however this is also tempered by logic and reason. I like to read, debate, argue, converse and philosophize about various topics, alone and with others... Having funny, fun and relaxation is a top priority in all my activities, otherwise I cannot take life seriously either, or I get too stressed out... My two websites are: Silverlingo.com and Planesofexistence.eu . I also have other url's which refer to these two sites such as the title of my books. I hope you enjoy reading The Black Dungeon Doorway since I put all of my mind, body, energy, spirit and soul into it, drawing on the most fantastical and hyper modern ideas and information I could think of for a science fiction/fantasy environment.
