The Dark Forest Cixin Liu, 2015-08-11 The inspiration for the Netflix series 3 Body Problem! Over 1 million copies of the Three-Body Problem series sold in North America PRAISE FOR THE THREE-BODY PROBLEM SERIES: "A mind-bending epic."—The New York Times • "War of the Worlds for the 21st century."—The Wall Street Journal • "Fascinating."—TIME • "Extraordinary."—The New Yorker • "Wildly imaginative."—Barack Obama • "Provocative."—Slate • "A breakthrough book."—George R. R. Martin • "Impossible to put down."—GQ • "Absolutely mind-unfolding."—NPR • "You should be reading Liu Cixin."—The Washington Post The Dark Forest is the second novel in the groundbreaking, Hugo Award-winning series from China's most beloved science fiction author, Cixin Liu. In The Dark Forest, Earth is reeling from the revelation of a coming alien invasion—in just four centuries' time. The aliens' human collaborators may have been defeated, but the presence of the sophons, the subatomic particles that allow Trisolaris instant access to all human information, means that Earth's defense plans are totally exposed to the enemy. Only the human mind remains a secret. This is the motivation for the Wallfacer Project, a daring plan that grants four men enormous resources to design secret strategies, hidden through deceit and misdirection from Earth and Trisolaris alike. Three of the Wallfacers are influential statesmen and scientists, but the fourth is a total unknown. Luo Ji, an unambitious Chinese astronomer and sociologist, is baffled by his new status. All he

knows is that he's the one Wallfacer that Trisolaris wants dead. Daughter of the Forest Juliet Marillier,2010-04-01 Daughter of the Forest is a testimony to an incredible author's talent, a first novel and the beginning of a trilogy like no other: a mixture of history and fantasy, myth and magic, legend and love. Lord Colum of Sevenwaters is blessed with six sons: Liam, a natural leader; Diarmid, with his passion for adventure; twins Cormack and Conor, each with a different calling; rebellious Finbar, grown old before his time by his gift of the Sight; and the young, compassionate Padriac. But it is Sorcha, the seventh child and only daughter, who alone is destined to defend her family and protect her land from the Britons and the clan known as Northwoods. For her father has been bewitched, and her brothers bound by a spell that only Sorcha can lift. To reclaim the lives of her brothers, Sorcha leaves the only safe place she has ever known, and embarks on a journey filled with pain, loss, and

terror. When she is kidnapped by enemy forces and taken to a foreign land, it seems that there will be no way for her to break the spell that condemns all that she loves. But magic knows no boundaries, and Sorcha will have to choose between the life she has always known and a love that comes only once. Juliet Marillier is a rare talent, a writer who can imbue her characters and her story with such warmth, such heart, that no reader can come away from her work untouched. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Neptune and Pluto ,2006 A detailed introduction to the planets Neptune and Pluto.

There's No Such Thing as Bad Weather Linda Åkeson McGurk,2017-10-03 Bringing Up Bébé meets Last Child in the Woods in this “fascinating exploration of the importance of the outdoors to childhood development” (Kirkus Reviews) from a Swedish-American mother who sets out to discover if the nature-centric parenting philosophy of her native Scandinavia holds the key to healthier, happier lives for her American children. Could the Scandinavian philosophy of “There’s no such thing as bad weather, only bad clothes” hold the key to happier, healthier lives for American children? When Swedish-born Linda Åkeson McGurk moved to Indiana, she quickly learned that the nature-centric parenting philosophies of her native Scandinavia were not the norm. In Sweden, children play outdoors year-round, regardless of the weather, and letting babies nap outside in freezing temperatures is common and recommended by physicians. Preschoolers spend their days climbing

trees, catching frogs, and learning to compost, and environmental education is a key part of the public-school curriculum. In the US, McGurk found the playgrounds deserted, and preschoolers were getting drilled on academics with little time for free play in nature. And when a swimming outing at a nearby creek ended with a fine from a park officer, McGurk realized that the parenting philosophies of her native country and her adopted homeland were worlds apart. Struggling to decide what was best for her family, McGurk embarked on a six-month journey to Sweden with her two daughters to see how their lives would change in a place where spending time in nature is considered essential to a good childhood. Insightful and lively, *There's No Such Thing as Bad Weather* is a fascinating personal narrative that illustrates how Scandinavian culture could hold the key to raising healthy, resilient, and confident children in America.

A Better Death Ranjana Srivastava, 2019-06-01 A powerful, timely exploration of the art of living and dying on our own terms by one of Australia's most respected voices Of all the experiences we share, two universal events bookend our lives: we were all born and we will all die. We don't have a choice in how we enter the world but we can have a say in how we leave it. In order to die well, we must be prepared to contemplate our mortality and to broach it with our loved ones, who are often called upon to make important decisions on our behalf. These are some of the most important conversations we can have with each other - to find peace, kindness and gratitude for what has

gone before, and acceptance of what is to come. Dr Ranjana Srivastava draws on two decades of experience to share her observations and advice on leading a meaningful life and finding dignity and composure at the end. With an emphasis on advocacy, leaving a legacy and staying true to our deepest convictions, Srivastava tells stories of strength, hope and resilience in the face of grief and offers an optimistic meditation on approaching the end of life. Intelligent, warm and deeply affecting, *A Better Death* is a passionate exploration of the art of living and dying well. Dr Ranjana Srivastava OAM is a practising oncologist, award-winning writer, broadcaster and Fulbright scholar. See www.ranjanasrivastava.com

ZEN JUNGLE | the Holistic Masterclass in How to Truly LOVE LIFE Zen Jungle,2020-12-07 Includes FREE online members only area with materials to assist transformation and learning. Does anybody truly and deeply love life? Or is that simply a story, a pipe dream, told by people who want to sell you something? This masterclass began with an ultimate belief that there must be something more, something we are all missing. After all, how could life be such a mess of roles to play, expectations to meet, anxiety, blame, guilt, opinion and conflict; causing endless and involuntary overthinking? We seem to live a cycle of perpetual optimism that we never satisfy; we chase happiness for tomorrow, rarely experiencing it right now, in the present moment. It turns out, the problem is not the problem, the problem is your thoughts about the problem. The mind is the most powerful tool on the planet and we were never taught to use it. We can't choose our thoughts or even choose when and when not to think. It is not life, but our thoughts about life that take our peace, and make true happiness hard to find or sustain. Zen Jungle is an 11 step masterclass. A transformational journey through wisdom that works. The secrets of the mind, thought and the universe itself are unlocked, as you unlearn lifelong conditioning and create a whole new relationship between the world outside and yourself inside. Diverse and comprehensive, this masterclass helps you to discover a state of being where fulfilment, joy, love, adventure and peace

reign. It's a path to the only true freedom, freedom from your mind and that voice in your head. If you want the secret of how to truly love life, or seek truth, awakening, enlightenment and deep moment to moment fulfilment, this will surely become your go to manual. Find out more on the Zen Jungle website where helpful supplemental materials are also available. An online course and international retreats are also coming soon.

For the Time Being Annie Dillard, 2010-05-19
National Bestseller Beautifully written and delightfully strange...as earthy as it is sublime...in the truest sense, an eye-opener. -- Daily News From Annie Dillard, the Pulitzer Prize-winning author of *Pilgrim at Tinker Creek* and one of the most compelling writers of our time, comes *For the Time Being*, her most profound narrative to date. With her keen eye, penchant for paradox, and yearning for truth, Dillard renews our ability to discover wonder in life's smallest--and often darkest--corners. Why do we exist? Where did we come from? How can one person matter? Dillard searches for answers in a powerful array of images: pictures of bird-headed dwarfs in the standard reference of human birth defects; ten thousand terra-cotta figures fashioned for a Chinese emperor in place of the human court that might have followed him into death; the paleontologist and theologian Teilhard de Chardin crossing the Gobi Desert; the dizzying variety of clouds. Vivid, eloquent, haunting, *For the Time*

Being evokes no less than the terrifying grandeur of all that remains tantalizingly and troublingly beyond our understanding. Stimulating, humbling, original--. [Dillard] illuminate[s] the human perspective of the world, past, present and future, and the individual's relatively inconsequential but ever so unique place in it.--

Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting

law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
