Aesthetic 3D Lighting Lee Lanier,2018-03-05 Aesthetic 3D Lighting: History, Theory, and Application delves into the history, the theory, and the practical and aesthetic application of lighting in the fine arts and 3D animation. In this book, animation industry veteran and lighting expert Lee Lanier examines the importance of lighting and its ability to communicate information to the viewer. Lee examines the history of lighting as applied to the fine arts, film, photography, and 3D animation. He discusses the use of light color, light location and direction, and light shadow types to recreate specific locations and to generate moods. He includes guides for successful lighting in 3D animation. Software-agnostic examples lead you through useful 3D lighting set-ups. An accompanying eResource (www.routledge.com/9781138737570) features 3D model files, scene files, and texture bitmaps, allowing you to practice the discussed techniques in Autodesk Maya and many other 3D programs. The lighting techniques covered in this book include: History of lighting as used in the fine arts The scientific mechanisms of light Light types and light application in 3D programs Light qualities including shadows variations Basic and advanced 3D lighting approaches 1-, 2-, 3-point, naturalistic, and stylistic lighting techniques Replication of real-world lighting scenarios and locations Overview of advanced 3D lighting and rendering systems

Sam and the Firefly P.D. Eastman,2010-12-08 Sam the Owl and Gus the Firefly literally light up the sky in this classic Beginner Book edited by Dr. Seuss. In Sam and the Firefly, P. D. Eastman (author of Are You My Mother? and Go, Dog. Go!) introduces us to the dynamic duo of Sam and Gus, who soar through the air writing words in the night sky. But when Gus's words end up causing confusion and chaos for the people on the ground, it's up to Sam to help Gus "write" his wrongs. Originally created by Dr. Seuss, Beginner Books encourage children to read all by themselves, with simple words and illustrations that give clues to their meaning. ...provides interest, suspense and word repetition. Illustrations excellent. Recommended.--(starred) School Library Journal.
