Angels of the Sea Michele Gold,1996 Acclaimed multimedia artist Michele Gold brings her vision of the world of dolphins to the pages of this exquisite coffee-table book. Having lived among dolphins herself, her oil and acrylic paintings truly evoke the wonder and mystery of these angels of the sea. Full color.

Souls in the Sea Scott Taylor,2003-02-21 Dolphins have long been attributed with intelligence, but do they have souls? Self-awareness? Compassion? Scott Taylor, Director of the Cetacean Studies Institute, investigates the history, mythology, and science surrounding these creatures and emerges with a resounding yes. And not only do whales and dolphins merit our attention and respect in their own right: they are an index to what our future as a species can be. In this multi-faceted cetology compendium, Taylor surveys the portrayal of dolphins and whales in works of literature as disparate as Moby Dick and Sumerian legend, examines biologist John Lilly's research on interspecies communication, and explores the benefits of dolphin-assisted swimming therapy for disabled children and adults. Looking at the world from the perspective of one of these souls in the sea, Taylor suggests that cetaceans are an ideal bridge between humanity and nature. Poetically written and thoughtfully illustrated with photos and drawings, *Souls in the Sea* is a comprehensive celebration of the biology, history, and mystique of dolphins and whales.

Meeting Dolphins Kathleen Dudzinski,2000 Who can resist dolphins? They're so smart, and they have that mysterious smile. But they're wild animals -- possibly friendly, potentially dangerous. And only a very few people get a chance to meet them in the wild. Kathleen Dudzinski is one of them. Dudzinski has studied dolphins all over the world. Everywhere she goes, she observes gestures, sounds, and behaviors to try to figure out how dolphins communicate. She has watched mother dolphins teach their babies how to hunt and swum with a pod of dolphins to figure out how they all know to turn at the same time. She's even built an underwater camera housing with microphones to record and study dolphin sounds in stereo. In *Meeting Dolphins*, Dr. Kathleen Dudzinski, marine biologist and subject of the large-format film *Dolphins*, tells her own story and the story of the dolphins she has come to know and love.
