Dolphin Love ... from Sea to Land Linda Shay,2011-10 Journey with Linda Shay into the pristine tropical waters of Hawaii where she communes, up close and personal, with a pod of wild Hawaiian spinner dolphins. Discover how one moment, with one dolphin, changes her life forever. Return with Linda to her high desert home in Sedona, Arizona, and walk by her side as she discovers she has been initiated into a unique spiritual path, guided by the Dolphin Consciousness. Witness the beginning of Dolphin Energy Healing, an intuitive energy healing modality, as Linda learns she has been activated by the dolphins to serve as a vehicle for their beautiful healing frequencies. Through interdimensional encounters with the dolphins on land, and magical close encounters with the dolphins in the sea, Linda becomes a bridge between the worlds of humans and dolphins. The bond of healing and love that has been forged unites her eternally with her beloved family of the sea. This touching and inspiring glimpse into Linda's journey with the dolphins opens a doorway into the realm of possibility. It offers an expanded view of who these endearing dolphins really are. It serves as a clear demonstration of the dolphins' desire and ability to heal the human heart, helping us achieve higher states of peace, love, and joy. This is a true story that takes place on land, in the sea, and in the realm of spirit ... in other dimensions of reality. Linda wrote this book with the intention that each reader would co-create their own unique spiritual adventure story with the dolphins. Many have reported receiving unexpected healings and energy transmissions while reading this book. Dolphin Love ... From Sea to Land is a spellbinding adventure of personal growth and transformation. Through a deep and enduring relationship with dolphins, Linda finds her life changed in ways that are unimaginable and delightful. Dolphin Love opened my heart in new and profound ways, rekindling my longing for oneness and expanding my vision and understanding of these amazing beings. This journey into the world of human/dolphin relations demonstrates that dolphins can be a path to spiritual awakening. It's time to dive in! - Mary J. Getten, Marine Naturalist, Animal Communicator and author of Communicating with Orcas: The Whales' Perspective

Dolphins: Our Friends in the Sea Judith Rinard,1986

Souls in the Sea Scott Taylor,2003-02-21 Dolphins have long been attributed with intelligence, but do they have souls? Self-awareness? Compassion? Scott Taylor, Director of the Cetacean Studies Institute, investigates the history, mythology, and science surrounding these creatures and emerges with a resounding yes. And not only do whales and dolphins merit our attention and respect in their own right: they are an index to what our future as a species can be. In this multi-faceted cetology compendium, Taylor surveys the portrayal of dolphins and whales in works of literature as disparate as Moby Dick and Sumerian legend, examines biologist John Lilly's research on interspecies communication, and explores the benefits of dolphin-assisted swimming therapy for disabled children and adults. Looking at the world from the perspective of one of these souls in the sea, Taylor suggests that cetaceans are an ideal bridge between humanity and nature. Poetically written and thoughtfully illustrated with photos and drawings, Souls in the Sea is a comprehensive celebration of the biology, history, and mystique of dolphins and whales.

Meeting Dolphins Kathleen Dudzinski,2000 Who can resist dolphins? They're so smart, and they have that mysterious smile. But they're wild animals -- possibly friendly, potentially dangerous. And only a very few people get a chance to meet them in the wild. Kathleen Dudzinski is one of them. Dudzinski has studied dolphins all over the world. Everywhere she goes, she observes gestures, sounds, and behaviors to try to figure out how dolphins communicate. She has watched mother dolphins teach their babies how to hunt and swum with a pod of dolphins to figure out how they all know to turn at the same time. She's even built an underwater camera housing with microphones to record and study dolphin sounds in stereo. In Meeting Dolphins, Dr. Kathleen Dudzinski, marine biologist and subject of the large-format film Dolphins, tells her own story and the story of the dolphins she has come to know and love.

Dolphin Chronicles Robert W. Eiser,2013-04-30 As an International Marine Consultant I find myself in parts of the world many never venture. The upside is opportunity to explore the world. The downside is never knowing exactly what I'm getting myself into. I am fortunate to have built an international network encompassing China, Taiwan, Hainan, Japan, Spain, South America, South Africa, Mauritius, The Bahamas, Jamaica, and The United States of America. We all know about the current interest in captive dolphins, as reflected in television programs, news media and online. My book Dolphin Chronicles: Keeping Dolphins Alive & Well uniquely takes advantage of this. It contains a how-to-guide. It also contains true accounts and photographs from my professional exploits worldwide as a marine consultant. Living abroad for extended periods teaches invaluable lessons in life; no book or classroom can duplicate this. Dolphin Chronicles: Keeping Dolphins Alive & Well is as close as one can get without being there.
