How to Create Beautiful Palm Beach Nail Art Decorations with Palm Trees, Seashore, Sand, Starfish and Sunset Landscape? Tanya Angelova, Would you like to create romantic sunset nail art decorations with palm trees, boats, beach, seashore, sand, starfish and other sea life elements? In this book I'll show you exactly how with pictures for each step through the process. You'll learn various nail art techniques on how to create sand effect and the ability to draw whatever you want in it (hearts, names, powerful messages, symbols and others). I'll show you how to paint detailed palm trees, mountains, landscape and sunsets on nails. If you like in an exotic place or somewhere that's hot, you'll be armed with the knowledge on how to do it yourself (DIY), even if you are at home, or you are doing nails professionally. Either way, I'll show you an incredible detail and how to add texture of the sand and seashore with a 3D starfish. It's time to have some fun! Grab your copy now!

3D and Animated Lenticular Photography Kim Timby, 2015-07-31 Scholars are increasingly investigating photography's broad cultural role, expanding our understanding of the diversity of photographic practices. Kim Timby contributes to this new history of photography by examining the multifaceted story of images that animate with a flick of the wrist or appear vividly three-dimensional without the use of special devices—both made possible by the lenticular process. Using French case studies, this volume broadly weaves 3D and animated lenticular imagery into scientific and popular culture, from early cinema and color reproduction to the birth of modern advertising and the market for studio portraits, postcards, and religious imagery. The motivations behind the invention and reinvention of this pervasive form of imagery, from the turn of the twentieth century through the end of the pre-digital era, shed new light on our relationship to photographic realism and on the forceful interplay in photography between technological innovation and the desire to be entertained. *3D and Animated Lenticular Photography: Between Utopia and Entertainment* is a profusely illustrated and engaging interdisciplinary study of a wide-ranging body of images that have fascinated viewers for generations.
