Riding the Tiger John Seidensticker,Peter Jackson,Sarah Christie,1999-02-08 Beauty, grace and power make the tiger one of the world's most loved animals, yet it is precisely these qualities that have been its downfall. Poaching for skins and body parts, loss of habitat and prey and conflicts between people and wild tigers have caused catastrophic declines in tiger numbers throughout their range. If wild tigers are to survive through the next century, we must act now. Riding the Tiger is a comprehensive, scientific and eminently readable account of the problems and possible solutions of securing a future for wild tigers. Lavishly illustrated in full colour, it is written by leading conservationists working throughout Asia. It is a vital information resource for tiger conservationists in the field, necessary reading for serious students of carnivore conservation and conservation biologists in general, and an accessible overview of tiger conservation for general readers.

3D Art Lab for Kids Susan Schwake, 2013-10-01 Encourage an artistic spirit in children with 36 kid-friendly fine art projects in paper, clay, textiles, sculpture, and jewelry. Each project is inspired by the work of a prominent artist and is illustrated with step-by-step color photographs of the process as well as finished samples and variations. Have fun exploring: paper by making paper bead figures from magazines, pipe cleaners, wooden beads, and other common supplies. clay by creating whimsical pinch pot birds. textiles by making a nature weaving with two branches, various items collected from nature, yarn, string, ribbon, and glue. sculpture by creating a little world featuring miniature plants, animals, and objects under a stemless wineglass. jewelry by making a modern cameo pin from tiny beads, cardstock, felt, pin, and glue. Colorful photos illustrate how different people using the same lesson will yield different results, exemplifying the way the lesson brings out each artist's personal style. On-site visits to the studios of an established potter, metal smith, jeweler, and sculptor illustrate first-hand accounts of their creative process. 3D Art Lab for Kids is the perfect book for creative families, friends, and community groups and works as lesson plans for both experienced and new art teachers. Children of all ages and experience levels can be guided by adults and will enjoy these engaging exercises.
