Creative Learning in Digital and Virtual Environments Vlad P. Glăveanu, Ingunn Johanne Ness, Constance de Saint Laurent, 2020-11-10 Originally published as a special issue of the Creativity Research Journal, this volume gives a balanced and reflective account of the challenges and opportunities of technology-enabled creative learning in contemporary societies. Providing a current and updated account of the challenges posed by the Coronavirus to online education, chapters more broadly offer conceptual reflections and empirically informed insights into the impact of technology on individual and collective creativity and learning. These thoughts are explored in relation to school achievement, the development of digital educational resources, online collaboration, and virtual working. Further, the book also considers how the creative use of technology poses risks to learning through the accidental or deliberate dissemination of misinformation, and online manipulation of common societal values in the era of COVID-19. Creative Learning in Digital and Virtual Environments looks at the connection between creativity, learning, and school achievement, and analyses the impact of virtual environments on creative expression. It will appeal to postgraduate students in the fields of creativity and learning, as well as to students and academics involved with broader research in areas such as the role of technology in education, e-Learning and distance education. Vlad P. Glăveanu is Associate Professor and Head of the Department of Psychology and Counselling at Webster University Geneva, Switzerland, as well as Associate Professor II at the University of Bergen, Norway. Ingunn Johanne Ness is a Senior Researcher at the Centre for the Science of Learning & Technology, University of Bergen, Norway. Constance de Saint Laurent is a Postdoctoral Researcher at the University of Bologna, Italy.

Informatics in Schools: Focus on Learning Programming Valentina Dagienė, Arto

Hellas,2017-11-22 This book constitutes the refereed proceedings of the 10th International Conference on Informatics in Schools: Situation, Evolution, and Perspectives, ISSEP 2017, held in Helsinki, Finland, in November 2017. The 18 full papers presented together with 1 invited talk were carefully reviewed and selected from 41 submissions. ISSEP presents this year a broad range of themes ranging from making informatics accessible to visually impaired students and computational thinking to context- and country specific challenges as well as teacher development and training.

Visual Computing Tosiyasu L. Kunii,2013-04-17 This volume presents the proceedings of the 10th International Conference of the Computer Graphics Society, CG International '92, Visual Computing - Integrating Computer Graphics with Computer Vision -, held at Kogakuin University, Tokyo in Japan from June 22-26,1992. Since its foundation in 1983, this conference has continued to attract high quality research articles in all aspects of computer graphics and its applications. Previous conferences in this series were held in Japan (1983-1987), in Switzerland (1988), in the United Kingdom (1989), in Singapore (1990), and in the United States of America (1991). Future CG International conferences are planned in Switzerland (1993), in Australia (1994), and in the United Kingdom (1995). It has been the editor's dream to research the integration of computer graphics with computer vision through data structures. The conference the editor put together in Los Angeles in 1975 involving the UCLA and IEEE Computer Societies had to spell out these three areas explicitly in the conference title, computer graphics, pattern recognition and data structures, as well as in the title of the proceedings published by IEEE Computer Society Press. In 1985, the editor gave the name visual computer to machines having all the three functionalities as seen in the journal under that name from Springer. Finally, the research in integrating visual information processing has now reached reality as seen in this proceedings of CG International '92. Chapters on virtual reality, and on tools and environments provide examples.

Proceedings of the Thirtieth Annual Symposium on Sea Turtle Biology and Conservation, 24-30 April 2010 Janice Blumenthal,Aliki Panagopoulou,Alan F. Rees,2013 With over 500 participants from over 60 countries, the success of the symposium was reflected in the coming together of ideas in research and lessons in conservation from a diverse range of individuals and groups, both at the local and regional/global scale. Over 400 abstracts were received and a total of 376 were presented after a careful review process by the Programme Committee, overseen by Programme Chairs Matthew Godfrey and Brendan Godley and the Programme Coordinator DuBose Griffin. The symposium was held at the Kala Academy in Panaji, Goa's renowned centre for performing arts, situated on the banks of the Mandovi River. A few workshops were also held at the Taj Vivanta Hotel situated across the road from the Kala Academy. All evening social events were held at the Cidade de Goa hotel at Vainguinim beach in Dona Paula--Page iii
