Get Through Medical School: 1100 SBAs/BOFs and EMQs, 2nd edition Seema Khan,2020-09-23 Medical schools are rapidly adopting the popular style of Single Best Answers (SBAs), Best of Fives (BOFs) and Extended Matching Questions (EMQs). This unique and up-to-date book contains over 1000 clinically relevant questions, a selection of SBAs/BOFs and EMQs - the essential aid for every medical student. No need to spend time reading through several textbooks, everything you need is here in one place. Questions are presented to include typical scenarios you will encounter as a Junior Doctor and covers the core curriculum subjects: Medicine, Surgery, Psychiatry, Obstetrics and Gynaecology, and Paediatrics. Since the first edition was published, Get Through Medical School has been a bestselling revision book for medical students. Retaining the classic question types - SBAs/BOFs and EMQs, this second edition benefits from a host of new questions and a great deal more explanatory information within the answers. Written by Seema Khan MBBS MRCS MRCGP DRCOG, who has first hand experience of preparing for and taking this format of exam, Get Through Medical School, second edition is a valuable revision book for all candidates preparing for medical school exams and an equally useful tool to help Foundation Doctors prepare for managing patients.

Essential SBAs in Clinical Specialties for Medical Students Yeap Boon Tat,Mohd. Firdaus Mohd. Hayati,Fairrul Kadir,May Zaw Soe,2023-02-17 The young and vibrant four lecturers of the Faculty of Medical and Health Sciences, Universiti Malaysia Sabah joined hands for the first time to produce this wonderful book. They worked hard to produce good, updated questions and answers, based on the latest references and international management guidelines. The authors are well versed with the latest updates in medical education and curriculum. This special book is an asset for all medical students in preparation for their final examinations. It follows the single best answer (SBA) format – a real-life questioning which is based on various clinical scenarios in the fields of surgery, emergency medicine, anaesthesiology, obstetrics and gynaecology. The questions are written in the format of the final exit medical examinations. The informative yet comprehensive answers provided to each of the scenarios are based on the latest clinical evidence and global guidelines. The authors also provided guidance and explanations on how false answers are ruled out. The answers are carefully designed to allow readers to enhance their clinical knowledge, understanding and structure of this SBA technique, thus making this book a friendly excellent aid for exam preparation. In addition, this unique book is also feasible to be used for postgraduate examinations and other allied healthcare professionals. The authors sincerely hope that students will benefit and enjoy this value-for-money book.

SBAs and EMQs in Surgery for Medical Students Anna Kowalewski,2014 The key to passing the written finals is practice, practice, practice. With hundreds of sample SBAs and EMQs to test your knowledge, this unique revision guide offers a great foundation. The highly detailed answers explain each concept fully and help to develop an understanding of this notoriously vast subject. More than a traditional question and answer book, SBAs and EMQs in Surgery for Medical Students is the ideal revision guide for the surgical specialties.

SBAs and EMQs in Obstetrics and Gynaecology for Medical Students Neel Sharma,Tiago Villanueva,2010 'Regardless of your level of obstetrics and gynaecology knowledge and experience, this book will most definitely have something to offer you.'- Tiago Villanueva in his Foreword. Undergraduate medical students often struggle with at least some of the specialty elements of their studies. Some face a further challenge with the advent of the Medical Schools Council Assessment Alliance (MSC-AA, formerly known as UMAP), with a move away from testing specific clinical facts to an assessment focused on preparing to be a foundation doctor and the knowledge such a trainee needs on a daily basis. Neel Sharma has written three self-assessment books - on psychiatry, obstetrics and gynaecology, and paediatrics - designed to help students tackle both the new form of assessment as well as the traditional style of examination. Questions covering all common presentations are included in SBA and EMQ formats with relevant, concise explanations as answers.

Get Ahead! Specialties Fiona Bach, 2017-06-30 Fully revised and updated, this new edition of *Get ahead Specialties: 250 SBAs for Finals* is an invaluable practice aid for all medical students preparing for final exams. Written by an experienced team of authors under the guidance of Saran Shantikumar, series editor for all the *Get ahead* titles, it covers the entire syllabus in a clear and comprehensive style. The book includes the key specialty areas in which students will be examined - paediatrics, obstetrics, gynaecology and psychiatry. Candidates can work through the practice papers systematically or dip in and out of the book using the SBA index as a guide to where questions on a specific topic can be found.

RevMED Lasith Ranasinghe, Oliver Clements, 2019 *RevMED* teaches students how to interpret clinical cases by presenting key details of the history and examination of a patient and making them choose between five plausible options. *RevMED* contains questions on a broad variety of topics in general medicine and surgery that range in difficulty to cover the basics, but also challenge even the most able students. The explanations include up-to-date guidelines and a thorough exploration of not only the correct answer, but a breakdown of the incorrect options as well. Therefore, each SBA is a form of case-based tutorial that can succinctly communicate a concept in general medicine or surgery. Question books are an exceptionally useful resource for medical students preparing for their clinical exams. *RevMED* is designed by medical students who recently sat clinical written examinations and has been reviewed by doctors/professors thereby combining clinical accuracy with a student-friendly delivery.

Get Ahead! Medicine: 300 SBAs for Finals Benjamin McNeillis, Rhian James, Ali Ling Koh, Tim Sparkes, 2011 *Get ahead!* is an essential revision series for medical and surgical finals. Each title contains practice questions similar to those you can expect in the real exam. The series stands out in its use of subject summaries that include all the detail you would need from a larger textbook - but we've waived the waffle! If you are looking for a comprehensive, reliable, effective revision aid, then look no further than *Get ahead!* *Get ahead! Medicine: 300 SBAs for Finals* provides invaluable revision for all medical students preparing for finals exams.

Teaching and Learning Methods in Medicine Shabih Zaidi, Mona Nasir, 2014-10-18 This book considers the evolution of medical education over the centuries, presents various theories and principles of learning (pedagogical and andragogical) and discusses different forms of medical curriculum and the strategies employed to develop them, citing examples from medical schools in developed and developing nations. Instructional methodologies and tools for assessment and evaluation are discussed at length and additional elements of modern medical teaching, such as writing skills, communication skills, evidence-based medicine, medical ethics, skill labs and webinars, are fully considered. In discussing these topics, the authors draw upon the personal experience that they have gained in learning, teaching and disseminating knowledge in many parts of the world over the past four decades. *Medical Education in Modern Times* will be of interest for medical students, doctors, teachers, nurses, paramedics and health and education planners.

320 Single Best Answer Questions For Final Year Medical Students (Second Edition) Adam Ioannou, 2019-09-12 This second edition of '320 Single Best Answer Questions for Final Year Medical Students' is an invaluable resource for medical students preparing for their final examinations. Additionally, the breadth of topics covered and detailed answers expands the versatility of this book to a larger audience including doctors preparing for postgraduate exams and other allied healthcare professionals who will be examined in general internal medicine. This improved edition contains updated and new questions that are in line with the most recent developments in clinical guidelines as well as being written in accordance with the recent changes to medical school examinations. The 320 questions are divided into 11 commonly tested areas of medicine, surgery and sub-specialities. They are designed to provide a comprehensive coverage of the medical school curriculum and to allow practice by speciality or random selection. The questions are written in the format of medical final

examinations. The answers provide detailed explanations as to how the correct answer is reached, followed by a clear discussion of how the incorrect answers are ruled out and supplementary information about other important aspects of each question. The answers are designed to allow the reader to further enhance their clinical knowledge, understanding and single best answer technique, thus making this book an excellent aid for exam preparation. Rheumatology Ahmad Al-Sukaini, Mohsin Azam, Ash Samanta, 2014 Rheumatology: A clinical handbook is an essential resource for medical students who need an introduction, understanding and overview of the subject. Most competing texts either burden medical students with information they do not require, or cover rheumatology alongside orthopedics and as a result compromise fundamentals of rheumatology. This book is different - it provides all the information students need during their rheumatology placement and signposts them to where they can find further information. A definition and brief pathophysiology for each condition is provided, which is linked to the respective clinical features. The book covers the core elements of diagnosis and treatment based on the latest UK guidelines to swiftly bring students and junior doctors in training up-to-date. Self-assessment questions and an OSCE chapter provide a way of checking that users have understood and grasped the core material, as well as enabling students to be well equipped for their written and OSCE examinations. Written by two medical students and an experienced consultant rheumatologist, the book combines a reader-friendly writing style with coverage of the material through clinical experience of a professional in the field. Printed in full color throughout, with an attractive design, a clear and concise writing style as well as a range of pedagogical features including an array of mnemonics, pictures and diagrams, Rheumatology: A clinical handbook is exactly the sort of book medical students and newly qualified doctors would benefit from.

Clinical Obstetrics and Gynaecology E-Book Andrew Thomson, Philip Owen, Brian A. Magowan, 2014-02-19 Wherever you study or practise obstetrics and gynaecology, a sound knowledge of the clinical aspects will underpin your understanding of the specialty and maximise your ability to make a difference to the care of women and babies. A perfect companion to Kumar and Clark's Clinical Medicine, this new edition continues to provide an excellent grounding and framework for handling clinical problems in obstetrics and gynaecology. Highly illustrated with clear, full-colour line drawings and colour photos. Summary boxes and tables throughout. Key-points boxes at the end of each chapter. The latest information for statistics and genetics. Forward-looking approach to obstetrics and gynaecology. History and ethics boxes throughout. Organized into three sections: Fundamentals, Gynaecology, and Pregnancy and the puerperium. New section on sexual and reproductive health New chapter on surgery to aligned with the RCOG undergrad curriculum Anaesthesia chapter totally reworked. Increased coverage of ectopic pregnancy and miscarriage. Fully revised and updated throughout.

Physics in Biology and Medicine Paul Davidovits, 2008 This third edition covers topics in physics as they apply to the life sciences, specifically medicine, physiology, nursing and other applied health fields. It includes many figures, examples and illustrative problems and appendices which provide convenient access to the most important concepts of mechanics, electricity, and optics.

SBA's and EMQs for MRCOG II Chinmayee Ratha, Janesh Gupta, 2016-02-15 This book is a comprehensive collection of questions in the "single best answer (SBA)" format for the MRCOG2 theory exam. This new format has been introduced in the exam paper from March 2015 and most candidates are still getting used to the change. This book will provide them ample opportunity to familiarize themselves with the concept and then practice answering the questions based on almost all subjects included in the MRCOG 2 theory syllabus. Preparing for the MRCOG2 exam is a daunting task for all Obstetrics and Gynecology doctors. The college constantly reforms the exam structure in an effort to optimize the evaluation process. The endeavor of the authors is to equip the candidates with a vision of the holistic nature of the exam so that they master the art of answering SBA questions.

Family Medicine Doug Knutson, 2007-09-12 The closest you can get to seeing the test before you take it! PreTest Family Medicine is the best question-and-answer review for family medicine questions on the USMLE Step 2 and shelf exams. You will find 500 board-format questions, complete with explanations of both correct and incorrect answers. All questions have been student-tested and reviewed to ensure they truly reflect the exam

experience. This high-yield resource is written by an Assistant Professor of Family Medicine who has won excellence in teaching awards every year for the past five years and truly targets what you really need to know.
