*Integral 432 Hz Music - Awareness, music and meditation* Enzo Crotti, 2017-01-20 Music not only provides an entertaining listening experience, but it is also a metaphor for life itself, that is why it has been so important in every culture since time immemorial. The aim of this book is to provide a useful baseline from which to better understand how music can improve our physical and emotional health. Starting from the Greeks and Pythagoras, through the East with Nada Yoga, to modern science with quantum physics, the author offers some good advice on how to approach the wonderful world of music and awareness. Integral 432 Hz Music is created by blending different theories and teachings to achieve objective art, a combination of mathematics and creativity, following in the footsteps of the great masters, such as Osho and Gurdjieff, in order to reach a higher state of consciousness.

**Longarm #432** Tabor Evans, 2014-10-28 These moonshiners trade in firewater...and death! One good lawman has already been murdered in pursuit of Missouri moonshiners who could care less if their rotgut leaves a person blind-or even dead. Now it's Deputy U.S. Marshal Custis Long's turn to search out their stills and make sure these moonshiners don't see the light of day. But as Longarm explores the back country, he learns there's far more at stake than selling bad hooch to the locals. Intoxicated by greed, one man is behind an ambitious whiskey-running operation to sell firewater-and firearms-to the Indians. It's up to Longarm to give this liquor-lugging lunatic a shot and a chaser of a little something called justice...
