Bhima's Mystical Quest Petrus Suparyanto,2019-10 This research based on the Jasadipoeran Sêrat Déwaruci, the Ki Nartosabdan Déwaruci play, and the dhalangs' interpretation of the Déwaruci play they performed. Using three divisions of the horizontal tripartite of the Déwaruci play, and of the vertical tripartite of the wayang kulit cosmology, together with the Javanese concepts of lair, batin, and rasa, the examination of Bhîma's quest reveals three stages of the Javanese spiritual growth, which can be systematically summarized as the purification of the corporeal feelings, the purification of the emotional feelings, and the purification of the intuitive feelings which culminates in the union with God, the so-called manunggaling kawula-Gustia.

Shadow Libraries Joe Karaganis,2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks. From the top down, Shadow Libraries explores the institutions that shape the provision of educational materials, from the formal sector of universities and publishers to the broadly informal ones organized by faculty, copy shops, student unions, and students themselves. It looks at the history of policy battles over access to education in the post-World War II era and at the narrower versions that have played out in relation to research and textbooks, from library policies to book subsidies to, more recently, the several "open" publication models that have emerged in the higher education sector. From the bottom up, Shadow Libraries explores how, simply, students get the materials they need. It maps the ubiquitous practice of photocopying and what are—in many cases—the more marginal ones of buying books, visiting libraries, and downloading from unauthorized sources. It looks at the informal networks that emerge in many contexts to share materials, from face-to-face student networks to Facebook groups, and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online—the shadow libraries of the title. If Alexandra Elbakyan's Sci-Hub is the largest of these efforts to date, the more characteristic part of her story is the prologue: the personal struggle to participate in global scientific and educational communities, and the recourse to a wide array of ad hoc strategies and networks when formal, authorized means are lacking. If Elbakyan's story has struck a chord, it is in part because it brings this contradiction in the academic project into sharp relief—universalist in principle and unequal in practice. Shadow Libraries is a study of that tension in the digital era. Contributors Balázs Bodó, Laura Czerniewicz, Mirosław Filiciak, Mariana Fossatti, Jorge Gemetto, Eve Gray, Evelin Heidel, Joe Karaganis, Lawrence Liang, Pedro Mizukami, Jhessica Reia, Alek Tarkowski

Human Development and Interaction in the Age of Ubiquitous Technology Rahman, Hakikur,2016-06-27 The human condition is affected by numerous factors in modern society. In modern times, technology is so integrated into culture that it has become necessary to perform even daily functions. Human Development and Interaction in the Age of Ubiquitous Technology is an authoritative reference source for the latest scholarly research on the widespread integration of technological innovations around the globe and examines how human-computer interaction affects various aspects of people's lives. Featuring emergent research from theoretical perspectives and case studies, this book is ideally designed for professionals, students, practitioners, and academicians.

ICT Systems Security and Privacy Protection Sabrina De Capitani di Vimercati,Fabio Martinelli,2017-05-17 This book constitutes the refereed proceedings of the 32nd IFIP TC 11 International Conference on ICT Systems Security and Privacy Protection, SEC 2017, held in Rome, Italy, in May 2017. The 38 revised full papers presented were carefully reviewed and selected from 199 submissions. The papers are organized in the following topical sections: network security and cyber attacks; security and privacy in social applications and cyber attacks defense; private queries and aggregations; operating systems and firmware security; user authentication and policies; applied cryptography and voting schemes; software security and privacy; privacy; and digital signature, risk management, and code reuse attacks.

Web 2.0 for Business Bruce A. White,Andrew Pauxtis,2010 The popularity of blogs, wikis, and social networking demands a strong understanding of the hot Web 2.0 applications that are relevant today and this book provides the underlying concepts and business applications of these new tools Includes engaging and challenging projects so readers can learn to put concepts to action Features case studies throughout the chapters to provide a real-world perspective on the material and special sections focus on how an application can be effectively utilized on the job

Ciężkie czasy dla agentów Grzegorz Rossa.,2013-03-01 Główne tezy książki Spec służby i agentura wpływu są rodzajem broni takim samym, jak: - Wojska lądowe - Marynarka wojenna - Lotnictwo - Wojska rakietowe - Wojska kosmiczne - Wojska elektroniczne Kiedy nie jest prowadzona wojna energetyczna, najskuteczniejsze w osiąganiu celów są spec służby i agentura wpływu Od spec służb i agentury wpływu silniejsza jest gospodarka. Spec służby i agentura wpływu nie są w stanie zmienić skutków gospodarczych Najsilniejsze na świecie spec służby i agentury wpływu ma Moskonia. Rozpad Związku Socjalistycznych Republik Radzieckich (ZSRR) nie był wydarzeniem incydentalnym ani pojedynczym. Jest jednym z etapów procesu, którego ciągiem dalszym będzie rozpad Federacji Rosyjskiej (FR) i zanik Moskowni Moskonia popełnia samobójstwo. Pogłębia surowcowość swojej gospodarki. Jednym ze skutków zaniku Moskowni będzie ściganie zbrodniarzy Moskowni jeszcze intensywniejsze od ścigania zbrodniarzy III Rzeszy Niemieckiej Najgorliwszymi i najskuteczniejszymi łowcami zbrodniarzy Moskowni będą byli funkcjonariusze spec służb i agencji wpływu Moskowni Jeżeli zbrodniarze Moskowni nie zneutralizują, póki jeszcze mogą, większość spec służb i agentur wpływu Moskowni, ich szanse na uniknięcie pochwycenia będą bliskie zeru Powyższe procesy można przyspieszyć zmniejszając światowe ceny węglowodorów. Motto Autor uczciwie uprzedzał czytelnika – sensacji nie będzie. Żadnych „nieznanych dotąd dokumentów z prezydenckiego archiwum”, żadnych tajnych i dlatego nikomu nieznanych „wspomnień doradcy Stalina”. Nic oprócz nudnego, nieciekawego, skrupulatnego badania jawnych i – w zasadzie – ogólnodostępnych źródeł. Spece od „płaszczka i kindżału” twierdzą, że właśnie takimi drogami zdobywa się największą część całej informacji rozpoznawczej... Mark Sołonin Postrzeganie kwestii agentury wpływu, działań specjalnych spec służb jest silnie zmistyfikowane. Na jednym biegunie osoba interesująca się agenturą wpływu jest traktowana, jakby wierzyła w zabobony. Przekonanie o istnieniu agentur wpływu jest utożsamiane z wiarą w czarnego kota. Rzecz, którą trzeba obowiązkowo wyszydzić. A pierwszym krokiem jest użycie znanego powszechnie epitetu, spiskowa teoria dziejów. Na drugim biegunie spec służbom przypisuje się zdolności nadludzkie. Demoniczne. Są mroczną, wszechmocną siłą, przenikającą wszystko i nad wszystkim mającą władzę. Nie można wysiąkać nosa, aby wszechświatowy spis o tym nie wiedział. A nawet bez jego przyzwolenia. Książka stara się zagadnienie agentury wpływu zdemistyfikować. Obraz agentury wpływu zdemistyfikowanej sytuuje się, wbrew pozorom, bynajmniej, nie między powyższymi biegunami.

Agentura wpływu jest zjawiskiem, jak każde inne. I, jak każde inne, może i powinno być przedmiotem badań. Książka posługuje się obszerną literaturą źródłową. I, bynajmniej, nie jest to literatura specjalistyczna. Źródła są powszechnie dostępne i popularne. Jest to zabieg celowy. Ma za zadanie udowodnienie, że przy badaniu agentury wpływu sięganie po źródła tajne czy choćby tylko trudniej dostępne nie jest konieczne. Przeciwnie, większość informacji, które, rzekomo, mają pochodzić ze źródeł tajnych, które uwiarygodniane są formą rozpowszechniania, plotką czy omówieniem, są celowo preparowanymi fałszywkami. Aby je badać niezbędna jest wiedza fachowa i doświadczenie. Amator zdziła więcej interesując się tym, co jest dostępne każdemu. Celem istnienia agentury wpływu jest, jak sama nazwa wskazuje, oddziaływanie na otoczenie. Ale, kto wie, czy sama agentura wpływu nie podlega bardziej warunkom, w których operuje. Agentura wpływu jest narzędziem, jak każde inne. I, jak każde narzędzie, jest dostosowywana do potrzeb i celów narzędziem operującego. Narzędzia zbędne się złomuje. Agenturę wpływu częściej, niż to się wydaje. W książce zostały poddane analizie czynniki wpływające na agenturę wpływu: geopolityczne, cywilizacyjne, socjocybernetyczne, kulturowe, gospodarcze, historiozoficzne, ekonomiczne, polityczne, historyczne, antropologiczne, socjologiczne, psychologiczne i in. Analiza wydała się na tyle obiecująca, że pokuszono się o prognozę. Ciężkie czasy dla agentów można potraktować, jako kontynuację Żydów, Polaków, dialogu[2]. W porównaniu z nimi obejmują obszar znaczenie większy i przedstawiają ujęcie głębsze. Żydzi, Polacy, dialog[2] też zawierały prognozy. Około połowa z nich już została spełniona. Żydzi, Polacy, dialog[2] przewidywały np.: emancypację ludności kolorowej w USA i jej marsz przez instytucje – prezydentem USA jest osoba kolorowa; przewidywały, że wzrost cen ropy naftowej da terrorystycznym przeciwnikom Państwa Izraela lepsze uzbrojenie – Państwo Izraela przegrało wojnę z Hezbollahem w południowym Libanie. Spełnianie się prognoz z Żydów, Polaków, dialogu dobrze rokuje prognozom z Ciężkich czasów dla agentów.

Instructional Technology Tools: a Professional Development Plan L. Robert Furman EdD, 2012-03-15 The use of instructional technology in twenty-first-century classrooms is not a subject to be debated. Rather, it needs to be embraced as a standard practice rather than an enriching activity. In *Instructional Technology Tools: A Professional Development Plan*, author L. Robert Furman presents a comprehensive guide to help educators embrace the use of instructional technology tools in the classroom. Answering the typical questions often posed by teachers and staff, Furman emphasizes the practical use of technology and introduces a breakthrough development called E-ProDev Days for offsite electronic professional development. He gives administrators the tools necessary to conduct fulfilling and meaningful professional development days, in-house or electronically, revolving around technology. *Instructional Technology Tools: A Professional Development Plan* also includes professional development lesson plans; tutorials for teachers and students; sample sites where examples of each e-tool are available to share; addresses to obtain the e-tools. Presenting a logical and practical approach to teaching a staff how to successfully use e-tools in their classroom, *Instructional Technology Tools: A Professional Development Plan* helps administrators help teachers to enhance their classrooms, manage time, organize themselves, and save money.

The Global Digital Economy: A Comparative Policy Analysis - Student Edition Holroyd, Carin, Coates, Ken S., 2015-01-08 Note: this is an abridged version of the original book with references removed. The complete edition is also available. This book explores the intersection of public policy and the fast changing digital media economy. Over the last 20 years, digital technologies and digital content have revolutionized many aspects of social, economic and political life around the world. Governments, locked into the policies and programs of the traditional economy, are struggling to respond to this dynamic and commercially unique global ecosystem. This study examines the nature and extent of the digital economy, looking at both the commercial diversity within the sector and the different digital implementations across the world. While the digital engagement of North America is well known, the scale and intensity of digital growth in East Asia is not fully understood not are the transformative changes occurring in parts of Africa. The digital world is marked by the unexpected and rapid re-orientation of economic, social, cultural and political affairs. The digitization of work, for example, has already brought major disruptions within national economies. Governments are struggling to respond, in part because of pressures from the traditional industrial and resource sectors but also because of the unique, somewhat anarchistic nature of the digital content industry. The *Global Digital Economy* provides a profile of the global digital environment, reviews current government digital policies (with an emphasis on innovative strategies), and offers policy suggestions for national and subnational governments. Countries that respond creatively to the digital economy--like Taiwan, South Korea, Finland and Israel--stand to prosper from the anticipated accelerated growth of the sector. Those nations that struggle to keep pace with the digital infrastructure needs of the new economy and with the potential for employment and business creation stand to fall behind economically. This book provides a policy roadmap for the digital economy and identifies the risks and opportunities of this core sector in the twenty-first-century economy.

Disorder and the Disinformation Society Jonathan Paul Marshall, James Goodman, Didar Zowghi, Francesca da Rimini, 2015-04-17 This book is the first general social analysis that seriously considers the daily experience of information disruption and software failure within contemporary Western society. Through an investigation of informationalism, defined as a contemporary form of capitalism, it describes the social processes producing informational disorder. While most social theory sees disorder as secondary, pathological or uninteresting, this book takes disordering processes as central to social life. The book engages with theories of information society which privilege information order, offering a strong counterpoint centred on disinformation. *Disorder and the Disinformation Society* offers a practical agenda, arguing that difficulties in producing software are both inherent to the process of developing software and in the social dynamics of informationalism. It outlines the dynamics of software failure as they impinge on of information workers and on daily life, explores why

computerized finance has become inherently self-disruptive, asks how digital enclosure and intellectual property create conflicts over cultural creativity and disrupt informational accuracy and scholarship, and reveals how social media can extend, but also distort, the development of social movements.

Historiography in Saudi Arabia Jörg Matthias Determann, 2013-10-25 Saudi Arabia is generally and justifiably viewed as a country with some of the fewest democratic institutions and the weakest traditions of pluralism. It is therefore surprising to learn that at least in one corner of the Saudi world, there can be found a plurality of opinions and lively debate. Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia: historical writing. Since the 1920s local, tribal, Shi'i and dynastic histories have contributed to a growing plurality of narratives. Paradoxically, this happened because of the expansion of the Saudi state, including state provision of mass education. It was also due to globalizing processes, such as the spread of the internet. In challenging the widely-held perception of Saudi Arabia as an irredeemably closed and monolithic society, *Historiography in Saudi Arabia* provides a deeper understanding of modern Arab historiography, the Saudi state, and education and scholarship in the Middle East.

The Arabs at War in Afghanistan Mustafa Hamid, Leah Farrall, 2015 A former senior mujahidin figure and an ex-counter-terrorism analyst cooperating to write a book on the history and legacy of Arab-Afghan fighters in Afghanistan is a remarkable and improbable undertaking. Yet this is what Mustafa Hamid, aka Abu Walid al-Masri, and Leah Farrall have achieved with the publication of their ground-breaking work. The result of thousands of hours of discussions over several years, *The Arabs at War in Afghanistan* offers significant new insights into the history of many of today's militant Salafi groups and movements. By revealing the real origins of the Taliban and al-Qaeda and the jostling among the various jihadi groups, this account not only challenges conventional wisdom, but also raises uncomfortable questions as to how events from this important period have been so badly misconstrued.

FOLKLORE DEDICATION Ivanka Ivanova Pietrek, 2012-10-12 The Folklore Dedication is a brief seminar on folklore singing. Текстове са на български оригинален написани с латински и преведени на английски език.

Internet Book Piracy Gini Graham Scott, 2016-03-22 The international battle against Internet pirates has been heating up. Increasingly law enforcement is paying attention to book piracy as ebook publishing gains an ever-larger market share. With this threat to their health and even survival, publishers and authors must act much like the music, film, and software giants that have waged war against pirates for the past two decades. Now, *The Battle against Internet Piracy* opens a discussion on what happens to the victims of piracy. Drawing from a large number of interviews—from writers, self-publishers, mainstream publishers, researchers, students, admitted pirates, free speech advocates, attorneys, and local and international law enforcement officials—the text speaks to such issues as: •Why pirates have acted and how they feel about it •The conflict over constitutional rights and piracy •The current laws surrounding Internet piracy •Examples of cases taken against some pirates •Alternatives to piracy •Personal experiences of being ripped off •The ways piracy affects different industries and how they've responded Author Gini Graham Scott prepares readers to arm themselves against these modern perils by learning about copyright, infringement, and how to prevent, combat, and end book piracy. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Pearls of Bulgarian Folklore - Part Four Ivanka Ivanova Pietrek, 2015-02-03 E 55 unpublished Author songs of the singer based on authentic folk songs from Pazardzhik, with music and lyrics classified by type and explanations of foreign words, unfamiliar words and dialect Lyrics are in Bulgarian original written in Latin letters, and translated into English.
