The Dynamics of Entrepreneurship Maria Minniti,2013-02-14

Learning about entrepreneurship has major implications for the way we understand economic change and progress. At a time when governments all over the world look to entrepreneurship as a way to increase the wealth and well-being of their countries, *The Dynamics of Entrepreneurship* examines the causes of differences in entrepreneurial propensity between individuals, the factors that explain variations in the type and quantity of entrepreneurship at the aggregate level, and the macroeconomic implications of entrepreneurship. Using Global Entrepreneurship Monitor (GEM) data, the book brings together contributions from leading scholars to provide a comprehensive overview of current scholarship on entrepreneurial activity. Discussed topics include entrepreneurial motivation, gender and migration, entrepreneurial financing, urban entrepreneurship, growth-oriented entrepreneurship, economic growth, and regional entrepreneurship policies. The book concludes by summarizing its contribution to existing literature, with particular attention paid to the policy implications and the ongoing debate on entrepreneurship.
