**Wildflower Wonders** Bob Gibbons,2014-07-17 From the Mojave Desert in the USA to the Italian Dolomites, and from South Africa's Cape National Park to the Stirling Ranges of Australia, this book showcases the most spectacular displays of wild blooms on the planet. Each site account begins with a locator map and info panel detailing timing, key species etc. This is followed by an informative and readable account by the expert author (who has personally visited nearly all of the sites covered) accompanied by a handful of stunning images of each location showing off the displays of flowers. In addition there are chapters on the animal life that can be found at these sites, and on the conservation status of the locations covered in the book. Many people travel widely in search of spectacular displays of flowers, but are guided only by word-of-mouth information, or by what organised tours are available. This book sets out to rectify this gap. However, it aims to be much more: the most 'flowery' places in the world are exceptionally spectacular at their best, and the beautiful photography in the book allows a broad audience to enjoy these sights without even leaving the house.

**World of Wonders** Aimee Nezhukumatathil,2020-09-08 "A poet celebrates the wonders of nature in a collection of essays that could almost serve as a coming-of-age memoir." —Kirkus Reviews As a child, Nezhukumatathil called many places home: the grounds of a Kansas mental institution, where her Filipina mother was a doctor; the open skies and tall mountains of Arizona, where she hiked with her Indian father; and the chillier climes of western New York and Ohio. But no matter where she was transplanted—no matter how awkward the fit or forbidding the landscape—she was able to turn to our world's fierce and funny creatures for guidance. "What the peacock can do," she tells us, "is remind you of a home you will run away from and run back to all your life." The axolotl teaches us to smile, even in the face of unkindness; the touch-me-not plant shows us how to shake off unwanted advances; the narwhal demonstrates how to survive in hostile environments. Even in the strange and the unlovely, Nezhukumatathil finds beauty and kinship. For it is this way with wonder: it requires that we are curious enough to look past the distractions in order to fully appreciate the world's gifts. Warm, lyrical, and gorgeously illustrated by Fumi Nakamura, World of Wonders is a book of sustenance and joy. **LIFE Wonders of the World** The Editors of LIFE,2009-10-20 The idea of choosing the Wonders of the World can be traced all the way back to the 5th century, B.C., when the Greek historian Herodotus of the Halicarnassus listed seven must-sees, the Great Pyramid of Khufu in Egypt and six other constructions that long ago vanished from the earth. In this deluxe new LIFE book, Wonders of the World, the editors return to the sites of the original Seven Wonders and then keep right on traveling around the globe--eventually visiting in words and pictures seven-times-seven Wonders, plus one more. There are old Wonders here and a new list offered by the New7Wonders Foundation, a Switzerland-based organization that conducted an online poll that saw more than a million votes cast for the world's greatest Wonders. There are man-made Wonders and natural Wonders. There are obscure Wonders and famous Wonders. The amazing stories behind your favorites are recounted as LIFE goes to the Colosseum, to Stonehenge, to the Great Wall, to Machu Picchu, to the Taj Mahal, to Easter Island, to The Acropolis and the Vatican and back to the Great Pyramid. We travel into outer space for a close-up look at the International Space Station, and into the sea for a sensational vantage on Australia's Great Barrier Reef. We go to the summit of Mount Everest and down into the mile-deep Grand Canyon in Arizona. We could not choose between the world's tallest waterfall, 3,212-foot-high Angel Falls in Venezuela, or that which is arguably the world's most awesome, Victoria Falls on the Zimbabwe-Zambia border--so we went with both. Fifty Wonders in all, each more wondrous than the last. A reader cannot help being amazed and inspired by what man's industry has built through time, and what sublime Wonders nature has graced us with. This a book Herodotus would have loved! And then comes the big bonus: The 7 LIFE Wonders. We were sure that some of these fabulous sites were suitable for framing, and so we went to the vast LIFE archives and picked pictures of some of the most wonderful Wonders taken by famous LIFE photographers. Using a technique we developed in our 2009 book The Classic Collection, we inserted prints of these places in the last section

of our book. Better yet: When you remove the prints to frame them, the image stays on the page, so your lovely coffee-table book remains intact. For these wonders, a wondrous book.
