*The 500 Hats of Bartholomew Cubbins* Dr. Seuss,2013-09-24 As topical today as when it was first published in 1938, this book tells of Bartholomew Cubbins (from Caldecott Honor winner Bartholomew and the Oobleck) and his unjust treatment at the hands of King Derwin. Each time Bartholomew attempts to obey the king's order to take off his hat, he finds there is another hat on his head. Soon it is Bartholomew's head that is in danger . . . of being chopped off! While *The 500 Hats* is one of Dr. Seuss's earliest works, it is nevertheless totally Seussian, addressing subjects that we know the good doctor was passionate about: abuse of power (as in *Yertle the Turtle*), rivalry (as in *The Sneetches*), and of course, zany good humor!

*500 Handmade Books* Julie Chen,2013 An on-the-page gallery is illustrated with hundreds of photographs that showcase the finest work of the contributors who have been inspired to explore the unlimited possibilities of bookbinding and the related arts.

The Forgotten 500 Gregory A. Freeman,2008-09-02 The astonishing, never before told story of the greatest rescue mission of World War II—when the OSS set out to recover more than 500 airmen trapped behind enemy lines in Yugoslavia... During a bombing campaign over Romanian oil fields, hundreds of American airmen were shot down in Nazi-occupied Yugoslavia. Local Serbian farmers and peasants risked their own lives to give refuge to the soldiers while they waited for rescue, and in 1944, Operation Halyard was born. The risks were incredible. The starving Americans in Yugoslavia had to construct a landing strip large enough for C-47 cargo planes—without tools, without alerting the Germans, and without endangering the villagers. And the cargo planes had to make it through enemy airspace and back—without getting shot down themselves. Classified for over half a century for political reasons, the full account of this unforgettable story of loyalty, self-sacrifice, and bravery is now being told for the first time ever. *The Forgotten 500* is the gripping, behind-the-scenes look at the greatest escape of World War II. “Amazing [and] riveting.”—James Bradley, New York Times bestselling author of *Flags of Our Fathers*

*500 Plates & Chargers* Suzanne J. E. Tourtillott,2008 For most of us, plates and chargers are primarily vessels for serving and holding food. In the eyes of the talented artists whose works are showcased in this collection, these objects are spectacular pieces to display on a table, sideboard or hutch.

*500 Figures in Clay* Veronika Alice Gunter,2004 It's an absolutely unequalled photographic gallery: no other book has ever presented such a varied, captivating collection of contemporary ceramics based on the human form. The works range from representational to abstract, from artful realism to provocative surrealism, and many of them come from leaders in the field such as Judy Fox, Kurt Weiser, and Andy Nasisse. Kay Yourist has produced female forms that are smooth, minimalist vessels with only the slightest hint of breasts and belly. The simple, rounded features of Diane Lublinski's black-and-white figures possess a fun, clown-like whimsy. Michael A. Prather's mournful ceramic portraits have frowning faces and pointed dunce-like heads in a muted color palette. Many of the ceramics come with detail images and illuminating artist's commentary.

*Indy 500 Recaps* Pat Kennedy, 2020-03-23 This book started as a self-serving exercise to personally organize the major details and interesting facts of each Indianapolis 500 over the hundred-plus-year history of the greatest race in the world. For many of us passionate racing fans who have attended a multitude of 500s, there is a tendency for the details of the races to (somewhat) blend together. I hope this book will help to provide clarity in this regard as well as educate. During high school, many of us chose to use CliffsNotes to assist in the education process. This book is somewhat patterned after that concept. It falls somewhere between Donald Davidson and Rick Schaffer—the best and by far the most detailed book on the history of the Indianapolis 500—and a multitude of pictorial books with limited information. I hope it will prove to be an easy read with entertaining and educational information.

*The Next 500 Years* Christopher E. Mason, 2022-04-12 An argument that we have a moral duty to explore other planets and solar systems--because human life on Earth has an expiration date. Inevitably, life on Earth will come to an end, whether by climate disaster, cataclysmic war, or the death of the sun in a few billion years. To avoid extinction, we will have to find a new home planet, perhaps even a new solar system, to inhabit. In this provocative and fascinating book, Christopher Mason argues that we have a moral duty to do just that. As the only species aware that life on Earth has an expiration date, we have a responsibility to act as the shepherd of life-forms--not only for our species but for all species on which we depend and for those still to come (by accidental or designed evolution). Mason argues that the same capacity for ingenuity that has enabled us to build rockets and land on other planets can be applied to redesigning biology so that we can sustainably inhabit those planets. And he lays out a 500-year plan for undertaking the massively ambitious project of reengineering human genetics for life on other worlds. As they are today, our frail human bodies could never survive travel to another habitable planet. Mason describes the toll that long-term space travel took on astronaut Scott Kelly, who returned from a year on the International Space Station with changes to his blood, bones, and genes. Mason proposes a ten-phase, 500-year program that would engineer the genome so that humans can tolerate the extreme environments of outer space--with the ultimate goal of achieving human settlement of new solar systems. He lays out a roadmap of which

solar systems to visit first, and merges biotechnology, philosophy, and genetics to offer an unparalleled vision of the universe to come.
