Fußballjournalismus Marcus Bölz, 2013-10-01 Das Phänomen Fußball produziert mit seinen schnell wechselnden Ereignissen und Idolen fortwährenden Diskussionsstoff und verfügt über das Potenzial, Menschen über alle soziale Schichten hinweg zu faszinieren. Fußball erzählt heute globale Geschichten und inszeniert sich auf allen Kanälen als mediales Spektakel, dem (fast) keiner entkommen kann. Marcus Bölz untersucht vor dem Hintergrund der zunehmenden Professionalisierung und Kommerzialisierung des Fußballbetriebs, wie sich die Arbeit und die Selbstwahrnehmung von Sportjournalisten verändert haben. Anhand einer redaktionellen Arbeitsprozessanalyse untersucht er die zahlreichen Maxime und Praktiken deutscher Fußballjournalisten und konfrontiert Spieler, Trainer und Fans mit den Ergebnissen. Er zeigt, dass diese von der Kultur der Fußballberichterstattung teilweise eine ganz andere Vorstellung haben als die untersuchten und befragten Journalisten.

Das Hausrecht bei Übertragungen von Fußballspielen und das Urteil vom 8. November 2005 Kilian Kreitmair, 2022-09-07 Studienarbeit aus dem Jahr 2021 im Fachbereich Jura - Medienrecht, Multimediarecht, Urheberrecht, Note: 1,0, Katholische Universität Eichstätt-Ingolstadt, Sprache: Deutsch, Abstract: Im Folgenden wird das mit den Übertragungsrechten an Fußballspielen zusammenhängende Hausrecht näher definiert und im Speziellen auf das Urteil des Bundesgerichtshofes vom 8. November 2005 eingegangen. Zweifelsohne zählt die Samstagmittagskonferenz der 1. und 2. Fußball-Bundesliga im UKW-Radio zum Kulturgut des deutschen Sportjournalismus. Bereits im Mai 1964 berichteten Fußballkommentatoren des Bayrischen Rundfunk live aus dem Stadion. Bis heute nehmen Kommentare jedes Wochenende fast neun Millionen Hörer mit in die Fußballstadien der 36 Erst- und Zweitligisten in Deutschland und beschreiben für sie das Spielgeschehen. Damit die Spiele jedoch übertragen werden dürfen, müssen Radiosender seit der Saison 1999/2000 eine Hörfunklizenz bezahlen. Im März 2013 schrieb die Deutsche Fußball Liga e. V., kurz DFL, diese Übertragungsrechte an den Fußballspielen aufgrund des Interesses von Alternativen Anbietern erstmals aus. Somit bestand die Möglichkeit, dass die Übertragungen nicht mehr über den ARD-Hörfunk abzurufen sind. Zuvor waren diese über einen Kooperationsvertrag geregelt, der der DFL jährlich rund sieben Millionen Euro zusicherte. Neben den Audiorechten wurde das Live-Rechtepaket für die Internetübertragung, das bis dato der Regiocast-Sender „90elf“ besaß, neu vergeben. Mit dem neugestalteten Wettbewerb um die Vergabe der Rechte wollte die Deutsche Fußball Liga für Fans und Verwerter attraktive, reichweitenstarke und vor allem zukunftsorientierte Lösungen auf sämtlichen Verbreitungswegen erreichen. Neben dem Preis spielte laut

damaligen DFL-Direktor Jan Lehmann auch das Produkt des Anbieters eine entscheidende Rolle. Ebenfalls sollte durch die Vergabe eine klare Strukturierung der audiovisuellen Rechte gewährleistet werden. Letztlich behielt die ARD das UKW-Rechtepaket, während die Web/Mobile-Rechte das neu gegründete Fußballradio „SPORT1.fm“ für vier Jahre erhielt. Zur Bundesligasaison 2017/18 wurde „SPORT1.fm“ vom US-Konzern Amazon übernommen, der über das Format Prime Music von nun an alle Spiele der 1. und 2. Bundesliga übertrug. Zur neuen Bundesligasaison hat sich dies nochmals geändert. Die ARD, die schon das UKW-Rechtepaket besitzt und auf deren Basis die Bundesliga-Schlusskonferenz auf UKW-Wellen übertragen wird, hat nun auch die Online-Rechte übernommen. So kann die ARD mindestens bis zur Bundesligasaison 2024/25 Audio-Reportagen aus den Stadien der Erst- und Zweitligisten live auf der neuen Sportschau-App übertragen.

Sport Governance Russell Hoyer, Graham Cuskelly, 2007-03-14 Sport Governance provides a comprehensive guide to the practical application of governance principles to amateur and professional sport organisations operating at the community, state/provincial, national, and international levels. It presents a balanced view between accepted practice and what contemporary research evidence tells us about a range of governance principles and practices. Organised in three parts, the text provides the reader with * an explanation of the concept of governance, key terms and definitions as well as the economic, political and social factors that impact on how the governance function is enacted within sport organisations; * an understanding of the “mechanics” of governance – the elements of structure, process and performance that ensure the governance function is carried out within sport organisations; and * a discussion of a number of contextual issues in sport governance, including dual leadership, ethics, governance change and future governance challenges. Sport Governance is essential reading for practitioners working and volunteering in the sport industry and upper level undergraduate and postgraduate students enrolled in sport and leisure management programs.

Success and Failure of Countries at the Olympic Games Danyel Reiche, 2016-07-01 The Olympic Games is undoubtedly the greatest sporting event in the world, with over 200 countries competing for success. This important new study of the Olympics investigates why some countries are more successful than others. Which factors determine their failure or success? What is the relationship between these factors? And how can these factors be manipulated to influence a country's performance in sport? This book addresses these questions and discusses the theoretical concepts that explain why national sporting success has become a policy priority around the globe.

Danyel Reiche reassesses our understanding of success in sport and challenges the conventional explanations that population size and economic strength are the main determinants for a country's Olympic achievements. He presents a theory of countries' success and failure, based on detailed investigations of the relationships between a wide variety of factors that influence a country's position in the Olympic medals table, including geography, ideology, policies such as focusing on medal promising sports, home advantage and the promotion of women. This book fills a long-standing gap in literature on the Olympics and will provide valuable insights for all students, scholars, policy makers and journalists interested in the Olympic Games and the wider relationship between sport, politics, and nationalism.

Sport Clubs in Europe Christoph Breuer, Remco Hoekman, Siegfried Nagel, Harold van der Werff, 2016-12-08 □ This book presents an up-to-date portrait of the characteristics of sport clubs in various European countries and their role in society and the national sport system. Furthermore, it offers a cross-national comparative perspective of sport clubs in twenty European countries. Containing both empirical data and information on the political and historical backgrounds of sport clubs, the book is organized in three parts. First, the authors provide an overview of the theoretical approach of the book and a description of the framework used for the country chapters. Second, the country chapters, written by experts within the field, provide a systematic overview of the available information on sport clubs in each country. These chapters are structured to answer the following questions: (1) What is the position of sport clubs within the national sport structure? (2) Which role do they fulfil in policy and society? (3) What are their basic characteristics and what factors influence the development of sport clubs? The book is concluded with a systematic comparison of the participating countries with the purpose of forging a clear link between the functioning of policy systems, observed problems, and possible solutions, and with a future research agenda on sport clubs. In an era of increased collaboration between European states, sport provides a natural vehicle through which to compare changes in culture, economics, and policy across nations. *Sport Clubs in Europe* will appeal to scholars of nonprofit management, sports management and sports sociology as well as administrators and policy makers in the international sports community.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Managing High Performance Sport Popi Sotiriadou, Veerle de Bosscher, 2013 Drawing on real-world case-studies of elite sport around the world, this book shows a conceptual framework for studying and analysing high performance sport and introduces the skills and techniques that managers and administrators will need to develop effective HPS programmes.

Successful Elite Sport Policies Veerle De Bosscher, Simon Shibil, Hans Westerbeek, Maarten van Bottenburg, 2015-08-14 How can nations improve their chances of winning medals in international sport? This book deals with the strategic policy planning process that underpins the development of successful national elite sport development systems. Drawing on various international competitiveness studies, it examines how nations develop and implement policies that are based on the critical success factors that may lead to competitive advantage in world sport. An international group of researchers joined forces to develop theories, methods and a model on the

Sports Policy factors Leading to International Sporting Success (SPLISS). The book presents the results of the large-scale international SPLISS-project. In this project the research team identified, compared and contrasted elite sport policies and strategies in place for the Olympic Games and other events in 15 distinct nations. With input from 58 researchers and 33 policy makers worldwide and the views of over 3,000 elite athletes, 1,300 high performance coaches and 240 performance directors, this work is the largest benchmarking study of national elite sport policies ever conducted. The nations taking part in SPLISS are: • Americas: Brazil and Canada • Asia: Japan and South Korea • Europe: Belgium (Flanders & Wallonia), Denmark, Estonia, Finland, France, the Netherlands, Northern Ireland, Portugal, Spain, Switzerland • Oceania: Australia

Red Thistle Davide Monteleone, 2012 A powerful and fascinating exploration of the important but relatively unknown region of the Northern Caucasus and its people. It lies between the Black and Caspian Seas and is within European Russia. Wars have been fought here for centuries - the most recent in Chechnya. Monteleone examines the stubborn, rebellious culture of this region, which although part of Russia, differs in the ethnicity, religion and social customs of its inhabitants. 'If you shoot in the Caucasus, the echo will be heard for centuries,' says an old proverb from the region.

The Global Sporting Arms Race Veerle de Bosscher, 2008 This title presents an international comparison of elite sports policies in six nations (Norway, Canada, Italy, Holland, the UK and Belgium). Drawing on research involving more than 1400 athletes, coaches, and performance directors, it evaluates and compares over 100 factors that lead to international sporting success.

The King of China Tilman Rammstedt, 2019-10-25 When Keith Stapperpfennig and his family give their grandfather the trip of a lifetime--an all expenses paid holiday to any destination in the world--the eccentric old man arbitrarily chooses China, and he asks Keith to accompany him. But when Keith loses all the money for the journey at a casino, he goes into hiding--mostly under his desk--and his grandfather--equally uninterested in actually traveling to China--heads down the road to engage in a similar subterfuge. And it is here that the novel opens, two men in hiding, mere miles apart. But when his grandfather dies unexpectedly, Keith is left to continue the farce alone. With the aid of a guidebook, Keith writes a series of letters home to his brothers and sisters, detailing their imaginary travels and the bizarre sights they see. These start off harmlessly, but before long he starts adding invented details: non-stop dental hygiene shows on television, dog vaccinations at the post office--and the letters get longer and longer. Engaging, strange, and ultimately moving, this hilarious novel from Tilman Rammstedt won him the prestigious Ingeborg Bachmann Prize in 2008 and confirmed him as one of Germany's most compelling writers.

Managing Social Issues Peter Leisink, Paul Boselie, Dian Marie Hosking, Maarten van Bottenburg, 2013-09-30 Western societies face complex social issues and a growing diversity of views on how these should be addressed. The traditional view focuses on government and public policy but neglects the initiatives that non-profit and private organizations and local

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral

Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. *The Return of the Mother* is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Managing Sport David Hassan, Jim Lusted, 2013 Contemporary sport is shaped by wider society. Anybody working in sport today must be aware of the broader social and cultural context within which sport operates if they are to be effective as managers or professionals. This is the first book written especially for sport management students to examine the wider social and cultural environment and to fully explain the key issues and practical implications for everyday sport management. Written by a team of leading international experts on sport management and sport in society, the book explores important topics such as: - Corporate social responsibility in sport - Race - Gender and sexuality - Sport and the media - Globalisation - Politics and policy - Social class, social capital and social exclusion Each issue is examined from the perspective of the manager or practitioner in sport, and each chapter includes a range of useful features, such as case-studies and self-test questions, to encourage the reader to think critically about the role of sport in society and about their own professional practice. This is the first sports management textbook to be based on the assumption that a more socially aware manager is a more effective manager and it should be essential reading for all sport management students--
