Mind Over Miller Robert M. Miller,2003

Ships in Troubled Waters Nigel Harris,2014-02 This book tells the story of my journey through boarding school and onto offshore radio in the North Sea. It is a recollection of events from my perception only, which took place during my time on a number of radioships. As you will read, sheer dedication and strength of mind was required by all parties over the years to allow the offshore enterprises to survive. Radio Caroline was the central passion for me, as it was for so many others, and I felt it was never on the cards to give up the fight to survive at sea. Nevertheless, remembering every event, and those people involved, was difficult and I trust I do not upset anybody by telling stories they would rather forget. (No malice is intended by anything written in this tome) A few names have been left out to spare embarrassment, but I hope the narrative remains complete. Memories from my younger days are included, as I would like to think they help complete the overall picture of how I thought and behaved, and what shaped me as I grew up.

Global Governance Reform Colin I. Bradford,Johannes Linn,2007-08-29 The current international system of institutions and governance groups is proving inadequate to meet many of today's most important challenges, such as terrorism, poverty, nuclear proliferation, financial integration, and climate change. The International Monetary Fund, World Bank, and UN were founded after World War II, and their structures of voting power and representation have become obsolete, no longer reflecting today's balance of economic and political power. This insightful book examines how to make such institutions more responsive and effective. Institutional reform is critically needed but currently in stalemate. A new push is needed from powerful nations acting together through a reformed and enlarged G-8 that includes emerging economies, such as China and India. Global challenges demand integrated approaches, with greater coordination among international institutions. Global Governance Reform argues that without reconstituting the Group of 8 summit into a larger, more representative group of leaders, with a new mandate to provide strategic guidance to the system of international institutions, the world will fall further behind in addressing global challenges. The path to global reform is defined by the need to act in coordinated ways on summit and institutional reform, and this book lights the way.

Dancefloor Thunderstorm Michael Tullberg,2014-08-01 DANCEFLOOR THUNDERSTORM: Land Of The Free, Home Of The Rave is the spectacular visual storytelling of when the rave scene brought electronic music up from obscurity, and changed the way America looked at dance music forever. Written by rave super-insider Michael Tullberg, the book takes the reader back to the halcyon days of the U.S. rave underground in the 1990s, when the seeds of modern-day EDM were sown. Photographing and writing for the major dance music magazines of the day, Tullberg amassed an enormous collection of photos, live reviews, interviews, rave memorabilia and ephemera over the years. It is this collection that forms the basis for this book. DANCEFLOOR THUNDERSTORM takes the reader into the very heart of the rave scene, when these controversial parties hosted the hottest and most cutting-edge dance music in the country. It gives you VIP, backstage and on-stage access with the biggest electronic music talent in the world, including dance music legends like Paul Oakenfold, Carl Cox, Moby, Fat Boy Slim and more. The first book of its kind in the U.S., DANCEFLOOR THUNDERSTORM pulls back the curtain and captures this cultural explosion as it shot across the country, converting millions into fans of electronic music. A must-have for any fan of music or pop culture, the book is a time warp back to a time of magical nights and miraculous rhythms.

Ewen Spencer: While You Were Sleeping 1998-2000 ,2022-03-31 An up-close portrayal of late-'90s London's many music scenes, from the pages of Sleazation and beyond In the late 1990s, as a graduate from art school, the British photographer Ewen Spencer began making pictures for Sleazation, in particular for the infamous listing pages at the rear of the magazine that were called Savoir Vivre. The images were made in both black and white and color, and were immensely candid and full of characters that seemed to be everywhere at that time. London was at the epicenter of a cultural boom in this period. Small clubs, parties and discos were plentiful in venues from North to South, and Spencer was in a minicab and night bus taking in all the scenes--from Northern Soul, Acid House, Jungle and Garage to Nu Metal, South London blackout clubs and more. Spencer captures an era filled with love, lust and messy authenticity. Ewen Spencer (born 1971) graduated from the University of Brighton in 1997 and began shooting for style magazines such as Sleazation and The Face, with an emphasis on youth culture. In 2004 his series Teenagers was shortlisted for the Project Assistance award at Rencontres D'Arles, curated that year by Martin Parr, who tipped Spencer as one to watch. In 2013 he began self-publishing a biannual photo-zine, Guapamente focusing on global youth subcultures. Spencer has also made documentaries on Britain's Garage and Grime scenes. His monograph Young Love was published by Stanley Barker in 2017.

Science is Golden Karl Kruszelnicki, 2010-07-01 Gold, gold, gold for Australia's mega-selling scientist's 27th book... 'Nullius in verba', the Royal Society's motto, roughly translated, means 'take nobody's word for it'. Why not do the experiment for yourself and see the reality of nature. Don't trust authority - trust nature. Does cranberry juice cure urinary tract infections? Is the hookah really a safer way to smoke? Will the Large Hadron Collider destroy the Earth and the Universe? Is the purpose of the peacock's tail to attract females? And in the unlikely event of a plane crash, are some seats safer than others? the human hand has 27 bones; Uranus has 27 moons; 27 is a perfect cube, being 3 x 3 x 3; and in this, Dr Karl's 27th book, he takes us on another exploration of the dazzling world of science.
