The Forgotten Subject Peter Gentzel, Friedrich Krotz, Jeffrey Wimmer, Rainer Winter, 2024-01-02 The volume provides a critical inventory of existing concepts of the subject in communication studies research. In addition, concepts are developed in order to be able to analyze subjectivity in the context of current theoretical debates (including media sociology, cultural studies, psychoanalysis, practice theory, science and technology studies) as well as social, cultural and technical developments (including digitalization, mediatization, mobility and networking). Since subject conceptions are of central importance for any communication and media analyses, the volume fills a central gap in communication and media studies.

South Korea's Webtooniverse and the Digital Comic Revolution Brian Yecies, Ae-Gyung Shim, 2021-04-09 This book investigates the meteoric rise of mobile webtoons – also known as webcomics – and the dynamic relationships between serialised content, artists, agencies, platforms and applications, as well as the global readership associated with them. It offers an engaging discussion of webtoons themselves, and what makes this new media form so compelling and attractive to millions upon millions of readers. Why have webtoons taken off, and how do users interact with them? Each of the case studies we explore raises interesting questions for both general readers and scholars of new media about how webtoons have become a modern form of popular culture. The book also addresses larger questions about East Asia's contributions to global popular culture and Asian society in general, as well as South Korea's rapid social and cultural transformation since the 1990s. This is a significant – and understudied – aspect of the new screen ecologies and their role in a new wave of media globalisation as we approach the end of the second decade of the 21st century.

Acts of Media Narrain, Siddharth, 2022-11-10 Acts of Media seeks to consolidate a field of multidisciplinary work around media technologies that intersects with legal scholarship. This volume brings together contributions from leading academics, lawyers, researchers and policy experts about contemporary India and Sri Lanka. The approaches to law and media taken in this volume challenge us to think outside of traditional disciplinary descriptions. Rather than approaching the law as being outside of, and constantly catching up with the media, the contributors of this book view law and media as being deeply intertwined. The chapters in this volume address the relationship between law and media through different entry points---disputes over media and information systems shaping law, theories of law that incorporate media forms, and law and media co-producing trials. The multidisciplinary nature of this book has facilitated a rich and productive conversation among legal scholars, researchers and lawyers from disciplines such as constitutional law, law and technology, media and cinema studies, legal anthropology and political science.

Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Spaces and Identities in Border Regions Christian Wille, Rachel Reckinger, Sonja Kmec, Markus Hesse, 2015-11-30 Spatial and identity research operates with differentiations and relations. These are particularly useful heuristic tools when examining border regions where social and geopolitical demarcations diverge. Applying this approach, the authors of this volume investigate spatial and identity constructions in cross-border contexts as they appear in everyday, institutional and media practices. The results are discussed with a keen eye for obliquely aligned spaces and identities and relinked to governmental issues of normalization and subjectivation. The studies base upon empirical surveys conducted in Germany,

France, Belgium and Luxembourg.

Daughter of Mystery Heather Rose Jones, 2015-01-18 Margerit Sovitre did not expect to inherit Baron Saveze's fortunes—even less his bodyguard, a ruthlessly efficient swordswoman known only as Barbara. Wealth suddenly makes Margerit a highly eligible heiress and buys her the enmity of the new Baron. He had expected to inherit all, and now eyes her fortune with open envy. Barbara proudly served as the old Baron's duelist but she had expected his death to make her a free woman. Bitterness turns to determination when she finds herself the only force that stands between Margerit and the new Baron's greed. At first Margerit protests the need for Barbara's services, but soon she cannot imagine sending Barbara away. And Barbara's duty has become something far more hazardous to her heart than the point of a sword. But greater dangers loom than one man's hatred—the Prince of Alpennia is ill. Deadly intrigue surrounds the succession and the rituals of divine power known as The Mysteries of the Saints. Heather Rose Jones debuts with a sweeping story rich in intrigue and the clash of loyalties and love.

Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond Tombul, I?l, Sar?, Gül?ah, 2021-05-28 Orientalism is about much more than just information gathered about the East within its general postcolonial period. In this period, orientalism is a Western discourse that dominated and shaped the view of the East. There is “otherization” in the way the West has historically looked at the East and within the information presented about it. These original stories of travelers in the past and previous telling about the East are facing a reconstruction through modern types of media. Cinema, television, news, newspaper, magazine, internet, social media, photography, literature, and more are transforming the way the East is presented and viewed. Under the headings of post-orientalism, neo-orientalism, or self-orientalism, these new orientalist forms of work in combination with both new and traditional media are redefining orientalism in the media and beyond. The Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond shows how both new media and traditional media deal with orientalism today through the presentation of gender, race, religion, and culture that make up orientalist theory. The chapters focus on how orientalism is presented in the media, cinema, TV, photography, and more. This book is ideal for communications theorists, media analysts, practitioners, researchers, academicians, and students working in fields that include mass media, communications, film studies, ethnic studies, history, sociology, and cultural studies.

The Language of Jokes in the Digital Age Delia Chiaro, 2017-11-23 In this accessible book, Delia Chiaro provides a fresh overview of the language of jokes in a globalized and digitalized world. The book shows how, while on the one hand the lingua-cultural nuts and bolts of jokes have remained unchanged over time, on the other, the time-space compression brought about by modern technology has generated new settings and new ways of joking and playing with language. The Language of Jokes in the Digital Age covers a wide range of settings from social networks, e-mails and memes, to more traditional fields of film and TV (especially sitcoms and game shows) and advertising. Chiaro's consideration of the increasingly virtual

context of jokes delights with both up-to-date examples and frequent reference to the most central theories of comedy. This lively book will be essential reading for any student or researcher working in the area of language and humour and will be of interest to those in language and media and sociolinguistics.

a movie...and a book Daniel Wagner,2005-07-12 "Life is a game: it's a movie and it's a book. It's not always easy, but there is always a way. You just have to look at it the right way."In this stunning debut, Daniel Wagner delivers a soulful examination of the forces that both drive us and oppose us. Jim Frazier is a writer with very little to show for it. He worries that the only way to achieve success is to lower the bar, sell out, and pander to commercialism. Meanwhile, somewhere far away, a woman named Liz and a man named Lou are stranded on a desert island. While they are faced with an obviously serious problem, the two have some more important issues to discuss. As these two seemingly separate stories converge, Wagner presents a meditation on the worlds we inhabit that will resonate long after the credits roll and the last page has been turned.
