Artsy Toddler Storytimes Carol Garnett Hopkins,2013 For toddlers, every storytime can be a new adventure, while art activities are important for developing impulse control, hand-eye coordination, and fine motor dexterity in the hands. Hopkins' new book fuses them together. Designed for children ages 1 to 3 years old, the book's 52 storytimes promote pre-reading skills such as print motivation, vocabulary, and narrative skills. Based on themes familiar to children, including bears, bugs, springtime,clothing and hats, flowers and gardens, weather, music, pets, transportation, pirates, and many more, each storytime includes a list of books, action songs or rhymes along with their words, a flannelboard experience, plus instruction for two to three art activities. This complete toddler storytime resource also includes An introduction which discusses the differences between art activities and craft activities, a toddler's ability in creating art, and why children this age should be exposed to art activities Advice for using different art mediums, such as food, plus important safety considerations Pointers on conducting playful yet educational storytimes Tips for finding inexpensive art materials, with a list of recommended supplies to keep on hand More than 100 drawings, all easy to reproduce and modify Weblinks to "Artsy Helper Sheets," downloadable supplements complete with phrases, tips, and tricks that inform parents and caregivers about the benefits of doing art activities with toddlers Pick up Hopkins' book and you'll be ready to conduct a storytime within moments!

How to Help a Cupid Sue Fliess,2022-01-04 Valentine's Day is all about showing kindness to the most important people in your life—and if you're caring and thoughtful, you can help Cupid spread love and happiness, too! Will you spot a Cupid this Valentine's day? If you do, will you be ready to help him spread love and kindness? By being observant, helpful, and friendly, you can lend Cupid a hand, and together you can make special cards and gifts to show all your favorite people how much they mean to you. So, grab some supplies—stickers, markers, crayons, colored paper, glue, and whatever else you like (it's the thought that counts on Valentine's Day!)—and think of heartfelt messages to share with your loved ones. Then be ready to meet Cupid and work together to spread cheer and happiness! Sue Fliess's poetic read-aloud text and Simona Sanfilippo's vibrant, whimsical illustrations will provide joy for young readers eager to help Cupid share the love! Also included are guides for teachers and parents about how to engage children in making Valentine's Day cards and how to interest them in the history of the holiday, the mythology behind the winged messenger Cupid, and the value of being thoughtful and kind to everyone.

Democratisation and Power-Sharing in Stormy Weather Tamirace Fakhoury Mühlbacher,2009-11-14 Is democracy possible only in homogeneous societies? Does heterogeneity - clude a stable democracy? Throughout history, ethnic, linguistic, or religious homogeneity whether by circumstance, coercion, or choice, has seemingly been conducive to democracy. In France, democracy was established after the imposition of religious uniformity and the revocation of the Edict of Nantes. The United States pulled in immigrants who renounced their original affiliations to forge a new identity in a newly born state. Still, defying assumptions, democracies have emerged in heterogeneous states such as the Swiss Confederation, the Successor States of the Holy Roman Empire and, later, those carved out of the previous colonial empires. One common feature is the failure of – often violent – attempts to enforce homogeneity, or the lack of any such attempt in the first place. In the course of time, these divided societies have learned to live in diversity, to pacify their differences, and to find a path - wards peace or at least accommodation. In sum, they went beyond forms of separating powers to sharing power. Whether defined by ethnicity, language, religion, or even ideology, communities agreed to a pact on participating in a joint government based on proportional or even equal representation. It is noteworthy that political systems based on power-sharing were long marginal in mainstream political science which laid an emphasis on democratic transitions in homogeneous societies and on socio-economic or cultural prerequisites that facilitate the rise of democracy.

WHO guidance on research methods for health emergency and disaster risk management ,2021-09-30 Health Emergency and Disaster Risk Management (Health EDRM) has recently emerged as a critical field for research, policy, and practice as a result of the growing recognition of health as a core dimension in disaster risk management. Global frameworks such as the WHO 13th General Programme of Work (GPW13), the Sendai Framework for Disaster Risk Reduction 2015-2030, the Sustainable Development Goals (SDGs), and the International Health Regulations (IHR) have goals, targets, and indicators that monitor the health impact of disasters and emergencies and resilience in health systems and communities. Policies and actions guided by the best possible evidence are therefore critical for managing the health risks of emergencies and disasters. However, the evidence base in Health EDRM is very limited, reflecting the overall lack of research in this area. To address this gap, the WHO set out to develop a reference book about methods to guide Health EDRM research in collaboration with global experts. This book provides concrete guidance across a wide range of research, taking a systematic approach to discuss the type of research that is needed to generate relevant evidence for managing risks and consequences of emergencies and disasters. This research includes observational and experimental studies, and those that use qualitative or quantitative data, or both. When using the book, readers are encouraged to take account of the specific setting of the health risks of any emergency or disaster, including national capacities and the impacts that are directly and

indirectly health-related.
