Olivia LeClair's experiment with speed dating is not going well. First there was the nasty encounter with the date from hell who tried to murder her and now the mysterious Harlan Rancourt—long believed dead—sits down at her table and tells her she's the only one who can help him locate the Bluestone Project's legendary Vortex lab. She doesn't have much choice, though, because her psychic investigation firm works for the mysterious Foundation and Victor Arganbright, the director, is adamant that she assist Harlan. There's just one problem—no one knows Harlan's real agenda. His father once ran the Foundation like a mob organization, and Harlan was destined to be his heir. There's a real possibility Harlan has returned to claim his inheritance. For now, however, it's a case of the enemy of my enemy is my friend because others are after the secrets of the long-lost lab. Unfortunately for Olivia, the one thing friend and foe have in common is that everyone is convinced she is the key. Her unique psychic talent is required to defuse the ticking time bomb that is Vortex. Neither trusts the other but Olivia and Harlan soon realize they must work together to survive and unlock the Bluestone Project's most dangerous secrets before more innocent people die.

**A Mirror for Observers** Edgar Pangborn,1954 For millennia, the Observers had been monitoring human society. Disguised as humans themselves, they waited patiently for mankind to mature. Their philosophy was one of peace and meditation which prevented them from interfering in human destiny. But one Observer abandoned that philosophy, and set out to encourage humanity in its relentless path toward self-destruction. The struggle which ensued is one of the great classic conflicts in the annals of science fiction.--Back cover.

*At a Mirror's Glance* Savaslas Lofton,2011-10-24 Lisa Williams had it all-exquisite beauty, a lucrative career, and a fabulous home. As a high-powered marketing executive for a Fortune 500 firm, she called the shots and meticulously planned every aspect of her privileged life. Every aspect, that is, except ... When her father died unexpectedly in her junior year of college, gone, too, was that moral compass that was to guide Lisa safely toward true love. Naive and uncertain when it came to matters of the heart, she gave herself completely over to a series of failed relationships. In the end, Daniel's well-hidden secret nearly caused Lisa to throw in the towel on life when his dirty laundry came to light. But, somehow, she found the strength to press forward. Although barely. Behind the torturous suffering of unrequited love, she buried her passions deep within and vowed never again to allow her heart to lead her astray. To avoid the pain that nearly drove her to suicide, Lisa developed a failsafe, ten-rule checklist to screen for the next Mr. Right. Everything worked perfectly until Jacob entered the picture. While definitely not a man Lisa's overbearing, status-driven mother would approve of, he was every bit the knight in shining armor she had been praying for. Only one problem: how would she get past the fact that Jacob did not even meet the top two rules on her checklist? Take this journey with Lisa as she tries desperately to reclaim the bright optimism and certainty of her youth while leaving behind the pain and disillusionment of her present. And discover whether she truly can reconcile Jacob's shortcomings with her trusted checklist.

A Mirror Into My HEART Patricia Yvonne Young,2016-09-20 Mirror, mirror on the wall who is the fairest of them all? To look into a mirror is to simply capture the reflection of the object of desire peering in. A mirror will only show us the outward appearance, never penetrating beyond the surface where there is so much more seen. As one may say, beauty is only skin deep or for you pasta lovers like Prego it is all in there. A mirror into my HEART is my way of sharing my beliefs, thoughts and deep inner feelings which are housed in the chambers of my heart. Whether its from my personal beliefs or worldly shared experiences of others. So from my heart to your heart I share with you a part of me, A Mirror into my HEART.

Reflection in a Mirror Richard S. Conde,2010-10-05 Reflection in a mirror is a science fiction tale with a historical involvement with both the 1936 Spanish War and the current day project eight hundred feet below New York city streets where a new water tunnel is under construction.

*An Image in a Mirror* IJANGOLET S. OGWANG, 2023-10-26 Set between Uganda and South Africa, *An Image in a Mirror* is the story of Nyakale and Achen, identical twins pulled apart by their mother's decision to give one of them away to her sister for a chance at a better life. At the heart of this beautifully woven tale is a coming-of-age story of two young women growing up in separate worlds that are as different as they are similar. When the sisters finally meet after twenty-two years, how mirrored will each feel by the other?

The Mirror Lynn Freed, 1997 In 1920, Agnes La Grange leaves a poor life in England for Durban, South Africa, to make her future. In the house of the Jewish family where she first works as a maid, the wife is dying--which doesn't keep the husband from sneaking to Agnes's room to make love while watching in a mirror he's given her. His unrestrained passion for her (old and a head shorter he may be) leads her to say, I have never felt so strongly the power of being alive. And that's in truth the only power Agnes ever wants or values. During her pregnancy, the old Jew, as she calls him bluntly but without judgment, puts her up in the Railway Hotel--an establishment of which, after the birth of her daughter Leah, she becomes owner and new proprietress by finessing the old man into putting up the money. From then on, Agnes is on her way. The newspaperman will be a weak and soon-divorced husband, followed by such lovers as Agnes finds attractive--the banker, the hunter, and the trader. Agnes doesn't even read the papers, but her beauty, life, and business sense draw others to her, seeing her through the Depression and WWII as she's cheated but recovers, buys more property, sees Leah become a famous singer--although not before Leah does just what Agnes did in seducing a husband (readers will find out whose), leaving Agnes a gorgeous child to raise as a second daughter. Forget improprieties: As Agnes says, this wasn't a story . . . this was a life.

**The Universe in a Mirror** Robert Zimmerman, 2010-02-22 The Hubble Space Telescope has produced the most stunning images of the cosmos humanity has ever seen. It has transformed our understanding of the universe around us, revealing new information about its age and evolution, the life cycle of stars, and the very existence of black holes, among other startling discoveries. But it took an amazing amount of work and perseverance to get the first space telescope up and running. *The Universe in a Mirror* tells the story of this telescope and the visionaries responsible for its extraordinary accomplishments. Robert Zimmerman takes readers behind the scenes of one of the most ambitious scientific instruments ever sent into space. After World War II, astronomer Lyman Spitzer and a handful of scientists waged a fifty-year struggle to build the first space telescope capable of seeing beyond Earth's atmospheric veil. Zimmerman shows how many of the telescope's advocates sacrificed careers and family to get it launched, and how others devoted their lives to Hubble only to have their hopes and reputations shattered when its mirror was found to be flawed. This is the story of an idea that would not die--and of the dauntless human spirit. Illustrated with striking color images, *The Universe in a Mirror* describes the heated battles between scientists and bureaucrats, the perseverance of astronauts to repair and maintain the telescope, and much more. Hubble, and the men and women behind it, opened a rare window onto the universe, dazzling humanity with sights never before seen. This book tells their remarkable story. A new afterword updates the reader on the May 2009 Hubble service mission and looks to the future of astronomy, including the prospect of a new space telescope to replace Hubble.
