

A S D Montebello Don Bosco

Ira A. Glazier, P. William Filby

Latino Image Makers in Hollywood Frank Javier Garcia Berumen, 2016-04-14 Latinos have been part of the Hollywood film industry for more than 100 years, yet beyond the remarkable success of a few, their visibility and clout have generally not reflected their significance in American society. Worse, the Latino image has suffered from widespread stereotyping in film, and performers face unjustified constraints in the kinds of roles available to them. Decade by decade from 1960 onward, this book analyzes important films made by or about Latinos, details the careers of Latino performers and filmmakers of the time, and analyzes how film portrayals of Latino characters and subjects connect with political and social trends of each decade. It discusses the role of gender, social class, and ethnicity in film portrayals and provides an overview of the diverse and dynamic Latino community in the United States, while celebrating a substantial and enduring contribution to Hollywood film history.

Assessing Trauma in Forensic Contexts Rafael Art. Javier, Elizabeth A. Owen, Jemour A. Maddux, 2020-02-29 This book examines the different ways that trauma is involved in the lives of those who interact with the justice system, and how trauma can be exacerbated in legal settings. It includes both victims and perpetrators in providing a perspective on trauma in general, and a framework that will guide those who evaluate and treat individuals in forensic settings. Comprehensive in scope, it covers key areas such as developmental issues, emotions, linguistic and communication difficulties, and special populations such as

veterans, immigrants, abused women, incarcerated individuals, and children. The main objective of this book is to bring trauma to the fore in conducting forensic evaluations in order to understand these cases in greater depth and to provide appropriate interventions for a range of problems. "This masterful book, edited by Rafael Art. Javier, Elizabeth Owen and Jemour A. Maddux, is a refreshing, original, and thoughtful response to these needs, demonstrating – beyond any doubt – why lawyers and forensic mental health professionals must be trauma-informed in all of their relevant work." –Michael L. Perlin, Esq., New York Law School

Twelve Years a Slave Solomon Northup, 2024-01-04

Filmatised in 2013 and the official recipient of three Oscars,

Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Global Challenge of Malaria Frank M Snowden, Richard Bucala, 2014-03-11 Malaria is one of the most important "emerging" or "resurgent" infectious diseases. According to the World Health Organization, this mosquito-borne infection is a leading cause of suffering, death, poverty, and underdevelopment in the world today. Every year 500 million people become

severely ill from malaria and more than a million people die, the great majority of them women and children living in sub-Saharan Africa. In 2008, it was estimated, a child would die of the disease every thirty seconds, making malaria — together with HIV/AIDS and tuberculosis — a global public health emergency. This is in stark contrast to the heady visions of the 1950s predicting complete global eradication of the ancient scourge. What went wrong? This question warrants a closer look at not just the disease itself, but its long history and the multitude of strategies to combat its spread. This book collects the many important milestones in malaria control and treatment in one convenient volume. Importantly, it also traces the history of the disease from the 1920s to the present, and over several continents. It is the first multidisciplinary volume of its kind combining historical and scientific information that addresses the global challenge of malaria control. Malaria remains as resurgent as ever and *The Global Challenge of Malaria: Past Lessons and Future Prospects* will examine this challenge — and the range of strategies and tools to confront it — from an interdisciplinary and transnational perspective.

Contents: Lessons of History: Malaria in America (Margaret Humphreys) Technological Solutions: The Rockefeller Insecticidal Approach to Malaria Control, 1920–1950 (Darwin H Stapleton) Malaria Control and Eradication Projects in Tropical Africa, 1945–1965 (James L A Webb, Jr) The Use and Misuse of History: Lessons from Sardinia (Frank M Snowden) Popular Education and Participation in Malaria Control: A Historical Overview (Socrates Litsios) Scientific, Medical, and Public Health Perspectives: The Contribution of the Gambia to Malaria Research (Brian Greenwood) Insecticide-Treated Bednets and Malaria Control: Strategies, Implementation, and Outcome (Harry V Flaster, Emily Mosites, and Brian G Blackburn) The Scientific and Medical Challenge of Malaria (Tiffany Sun and Richard Bucala)

Readership: Historians of medicine; research scientists; clinicians, especially in the specialties of tropical medicine and

infectious diseases; public health officials; environmentalists; and students in public health and history of medicine programs; general readers interested in contemporary issues of global health. Keywords: Malaria; Re-Emerging Diseases; Tropical Diseases; Epidemic Diseases; Public Health Key Features: First multidisciplinary compendium combining historical and scientific information that addresses the global challenge of malaria control Unique compendium of diverse expertise in the field Reviews: "It is the first multidisciplinary volume of its kind combining historical and scientific information that addresses the global challenge of malaria control." Biotechnology, Agronomy, Society and Environment

Lessons for Education from COVID-19 A Policy Maker's Handbook for More Resilient Systems OECD, 2020-12-15 The COVID-19 pandemic has shaken long-accepted beliefs about education, showing that learning can occur anywhere, at any time, and that education systems are not too heavy to move. When surveyed in May 2020, only around one-fifth of OECD education systems aimed to reinstate the status quo. Policy makers must therefore maintain the momentum of collective emergency action to drive education into a new and better normal.

Knowledge Democracy Roel in 't Veld, 2010-03-10 Knowledge democracy is an emerging concept that addresses the relationships between knowledge production and dissemination, as well as the functions of the media and democratic institutions. Although democracy has been the most successful concept of governance for societies for the last two centuries, representative democracy, which became the hallmark of advanced nation-states, seems to be in decline. Media politics is an important factor in the downfall of the original meaning of representation, yet more direct forms of democracy have not yet found an institutional embedding. Further, the Internet has also drastically changed the rules of the game, and a better educated public has

broad access to information, selects for itself which types to examine, and ignores media filters. Some citizens have even become media themselves. In a time where the political agendas are filled with combatting so-called evils, new designs for the relationships between science, politics and media are needed. This book outlines the challenges entailed in pursuing a vital knowledge democracy.

Italians to America: March 1903-April 1903 Ira A.

Glazier,Percy William Filby,1992 *Italians to America* is the first indexed reference work devoted to Italian immigrants to the United States. This series contains passenger list information in chronological order on the first major wave of Italian migration during the last two decades of the nineteenth century, as well as the beginning of the twentieth century. As with the highly regarded companion series on German immigrants, *Italians to America* presents the passenger lists in chronological order, including information on each person's age, sex, occupation, village of origin, and destination, plus the name of the ship, the port of embarkation, and the date of arrival. Each volume also contains an introduction on the history of Italian migration to the U.S. and a full name index, greatly simplifying the researcher's job.

Pharmocracy William Faloon,2011 Our healthcare system is

irretrievably broken, and now it is devastating the US financially. Pharmocracy uncovers egregious FDA incompetence and abuse, and shows how over-regulation causes lifesaving medications to be delayed or suppressed altogether, and makes consumers pay inflated prices for FDA-approved therapies that are only minimally effective and often dangerous. A free market approach to healthcare, Faloon argues, would spare Medicare and Medicaid from insolvency, while significantly improving the health of the American public.
