The Elusive Shift Jon Peterson,2020-12-22 How the early Dungeons & Dragons community grappled with the nature of role-playing games, theorizing a new game genre. When Dungeon & Dragons made its debut in the mid-1970s, followed shortly thereafter by other, similar tabletop games, it sparked a renaissance in game design and critical thinking about games. D&D is now popularly considered to be the first role-playing game. But in the original rules, the term role-playing is nowhere to be found; D&D was marketed as a war game. In *The Elusive Shift*, Jon Peterson describes how players and scholars in the D&D community began to apply the term to D&D and similar games--and by doing so, established a new genre of games.

Weird Frontiers RPG Standard Hardback David Baity,2021-07-23 *The Weird Frontiers RPG* is a standalone weird West role-playing game influenced by the works of H.P. Lovecraft and folklore pulled from all over the world. Within these pages, you have all the rules and two adventures to get you started riding the trails of the Weird Frontiers.

The Strange Monte Cook Games, Bruce R. Cordell, Monte Cook,2014-08-13 *The Strange*. It is an RPG set on Earth, in the modern day. But a few people a very few people have discovered how to travel to other places. They call them recursions, and they are like limited pocket dimensions with their own laws of reality, connected to Earth via a dark energy network beneath the normal matter of the universe. A dangerous, chaotic network they call the Strange.

The Skeletons Jason Morningstar,2016-09-01 *The Skeletons* is meditative structured freeform game for 1-6 players. You'll need a few hours a private space. *The Skeletons* flips the script on the classic dungeon crawl-- here you play not the intruders, but the guardians, cursed to spend all of eternity defending a tomb. As time passes, both the tomb and its guardians will change. Ferocious battles are fought and won, and the skeletons slowly remember who and what they once were. Melancholy, introspective and spanning epochs, *The Skeletons* is unlike anything you've ever played.

The Tingleverse Chuck Tingle,2019-09-02 Sporting events at the Billings Community Center are ending in angry outbursts, and in the woods nearby, sightings of The Manifested Concept Of Rage are becoming more and more frequent. Could the two be related? An entrepreneur moves to Montana and opens up a petting zoo for creatures of The Void. They claim the cages are secure, but when a big storm rolls into Billings some of the creatures escape. Was this their plan all along? Your reverse twin shows up with a mysterious box, looking for a place to stay. Strange noises are heard from the basement of the Billings Library at night. These adventures and more await you in *The Tingleverse: The Official Chuck Tingle Role-Playing Game*, which thrusts you directly into the middle of your very own Chuck Tingle story. This rulebook contains everything a group of buckaroos will need, including four playable types (bigfoot, dinosaur, human, and unicorn), five trots (bad boy, charmer, sneak, true buckaroo, and wizard), several unique ways, as well as hundreds of cool moves that are specially crafted for each unique play style. Within these 270+ pages you will also find various magical items and a menagerie of monsters, ranging from pesky Void crabs to this villainous Ted Cobbler himself. The only question left is: what are you waiting for? The adventure begins now!

Weird Frontiers RPG Core Rules (POD) David Baity,2022-12-22 A stand alone weird west RPG compatible with *Dungeon Crawl Classics*.

You Need A Bigger Sword Natalie Grey, Michael Anderle,2019-05-06 Turns out, punching zombie bears is fun. Who knew? Enter the world of *Metamorphosis Online*, a fully immersive video game where players compete for spots in the Global Top 10-ranks that actually pay you to play the game. Gracie doesn't play the game to make money...at first. Broke, single, and working a crappy job as a blackjack dealer, Gracie's just blowing off steam and having fun. Can playing a new type of immersive game help her overcome real-life issues, or will it cause more problems? Before she knows it, Gracie has intervened in a generations-long war between the kobolds and the fae and started a ragtag guild, and her weird math abilities make themselves known in a way that most could not have imagined. Can she deal with being pitted against the game developers? For the first time Gracie can remember, she has something worth fighting for. A Selective History of 'Bad' Video Games Michael Greenhut,2023-05-04 Did you grow up playing video games when you had to wait online to get them? Do you remember the bad, weird, or otherwise underrated video games of your youth? Did you like a few of them more than your friends did? A Selective History of 'Bad' Video Games will walk you down memory lane and perform unholy excavations of games you remember, games you've forgotten, and games you never knew you wanted to read about during your lunch break. From a seemingly nude Atari 2600 karate referee to a basketball star doing martial arts to a tiger that speaks broken English and walks through walls, the book will try to uncover what the developers were thinking — and occasionally succeed. While there's been some recent coverage of the most famously "bad" video game — E.T. — this book starts there and continues on to 40 other curiously (or unsurprisingly) unsuccessful video games during the first few decades of the industry's lifespan. Written by a modern day video game developer, the book explores why these games failed, whether or not they truly deserved it, and what could have made them better. The covered games include screen shots that capture awkward moments, irreverent captions, and pages of tongue-in-cheek psychoanalysis.

Into the Odd Chris McDowall,2015-01-10 Into the Odd contains everything you need to create a character and explore an industrial world of cosmic meddlers and horrific hazards. This is a fast, simple game, to challenge your wits rather than your understanding of complex rules.You seek Arcana, strange devices hosting unnatural powers beyond technology. They range from the smallest ring to vast machines, with powers from petty to godlike. Beside these unnatural items that they may

acquire, your characters remain grounded as mortals in constant danger. The game is 48 pages, containing: Original artwork from Jeremy Duncan, Levi Kornelsen, and others. The fastest character creation out there, getting you playing as soon as possible. Player rules that fit on a single page, keeping a focus on exploration, problem solving, and fast, deadly combat. The complete guide to running the game as Referee. From making the most of the rules to creating your own monsters and Arcana. Sample monsters, arcanum, traps, and hazards. Character advancement from Novice to Master Rules for running your own Company, and taking it to war with an original mass combat system. Complete guide to the Odd World, from the cosmopolitan city of Bastion and its hidden Underground, through to backwards Deep Country, the unexplored Golden Lands. The Iron Coral, sample expedition site to test the players' survival skills. The Fallen Marsh, a deadly wilderness to explore. Hopesend Port, a settlement to regroup and sail on to further adventure. Thirteen bonus pages of tools and random tables from the Oddpendium.

The Outer Presence Venger As'nas Satanis, 2015-08-14 This is both a self-contained, investigative horror RPG and weird tales scenario set in 1970's New Guinea. The system is simple. No attributes, skills, or weapon stats to keep track of. If you're playing an explorer, then you're the consummate explorer in the party. If your character is an occultist or professor, same thing. He'll have all the capabilities of that profession. PCs will also be defined by their weaknesses - just like in real life (heightened for dramatic effect). The principal game mechanic is d6 dice pools. It's a simplified, closer-to-the-real-world version of Crimson Dragon Slayer. The adventure starts in and around Miskatonic University and quickly heads to Papua New Guinea... cause you know what they do there, right? This isn't one of those dull scenarios where hardly anything happens. In fact, The Outer Presence occasionally borders on out there without diving into full-on gonzo territory. Eldritch pulp action-adventure probably sums it up best. Welcome to Kort'thalis Publishing, where awesome is nine-tenths of the law!
