Summer Rental Mary Kay Andrews, 2011-06-07 Sometimes, when you need a change in your life, the tide just happens to pull you in the right direction... Ellis, Julia, and Dorie. Best friends since Catholic grade school, they now find themselves, in their mid-thirties, at the crossroads of life and love. Ellis, recently fired from a job she gave everything to, is rudderless and now beginning to question the choices she's made over the past decade of her life. Julia--whose caustic wit covers up her wounds--has a man who loves her and is offering her the world, but she can't hide from how deeply insecure she feels about her looks, her brains, her life. And Dorie has just been shockingly betrayed by the man she loved and trusted the most in the world...though this is just the tip of the iceberg of her problems and secrets. A month in North Carolina's Outer Banks is just what they each of them needs. Ty Bazemore is their landlord, though he's hanging on to the rambling old beach house by a thin thread. After an inauspicious first meeting with Ellis, the two find themselves disturbingly attracted to one another, even as Ty is about to lose everything he's ever cared about. Maryn Shackleford is a stranger, and a woman on the run. Maryn needs just a few things in life: no questions, a good hiding place, and a new identity. Ellis, Julia, and Dorie can provide what Maryn wants; can they also provide what she needs? Mary Kay Andrews' novel is the story of five people questioning everything they ever thought they knew about life. Five people on a journey that will uncover their secrets and point them on the path to forgiveness. Five people who each need a sea change, and one month in a summer rental that might just give it to them. Summer Rental is one of Library Journal's Best Women's Fiction Books of 2011

My Black Family, My White Privilege Michael R. Wenger, 2012-11-21 In 1970, a working-class, Jewish man from New York City married an African American woman from rural, segregated North Carolina. From their union, Michael Wenger has three children, four grandchildren, and one great grandchild. Years later, Mr. Wenger served as Deputy Director for Outreach and Program Development for President Clintons Initiative on Race, an opportunity that confirmed for him the conscious and unconscious bias that people of color confront daily in the United States. Both personally and professionally, Mr. Wenger has peered into a world far beyond the comprehension of most white people in our society. His book, deeply moving and tenderly written, shares the discoveries hes made. He masterfully weaves his personal and professional journeys and helps readers of all races to become more aware of the pain that well-meaning white Americans inflict on people of color, often without knowing it, and to recognize the richness that awaits those with the courage to embrace our nations growing diversity. Mr. Wengers remarkable and inspirational story will, at times, move you to tears while occasionally triggering a knowing laugh as he recounts the struggles and triumphs of his journey. It will awaken you to the stark realities of life for some in America today, while fostering hope for and a commitment to a more racially equitable and harmonious future for all.

How to Attain Enlightenment James Swartz, 2010-02-16 "Goes through the entire gamut of topics covered by the Vedas, making use of yoga, detachment, the ego, karma, dharma, love, meditation and much more." —East and West Magazine This complete guide to enlightenment presents the wisdom of the ancient science of self-inquiry, a time-tested means for achieving spiritual freedom. The author discusses the purpose of self-inquiry, the quest for lasting happiness, issues of identity and transcendence, the role of wisdom and action, and the subconscious obstacles to freedom. He convincingly refutes the popular view that enlightenment is a unique state of consciousness and debunks a host of other enlightenment myths. In his straightforward style he reveals proven methods for purifying the mind, and includes chapters on love, the science of energy transformation and meditation. He takes the reader from the beginning to the end of the spiritual path, patiently unfolding the logic of self-inquiry. "Vedanta is the original systemized enlightenment teaching, and James does an extraordinary job of extracting the essential nectar of the teachings from its dusty, ancient, Sanskrit origins and elucidating it with utmost clarity. One review cannot do this teaching, with its rich history and depth, even a modicum of justice. James's book is the best introduction there is to this subject." —Consciousness Junkie "Explains methods of Vedanta in his survey of spiritual techniques, pairing theory with practice and explaining the myths and realities behind an enlightened state. From reflections on moving to a larger living space and clutter to assimilating experiences, How to Attain Enlightenment is a powerful survey any new age library needs." —The Bookwatch

Spatial thinking must be recognized as a fundamental part of K-12 education and as an integrator and a facilitator for problem solving across the curriculum. With advances in computing technologies and the increasing availability of geospatial data, spatial thinking will play a significant role in the information-based economy of the twenty-first century. Using appropriately designed support systems tailored to the K-12 context, spatial thinking can be taught formally to all students.
