AACN Essentials of Critical Care Nursing, Second Edition Marianne Chulay,Suzanne Burns,American Association of Critical-Care Nurses (AACN),2010-05-24 The authoritative, evidence-based coverage you need to safely and competently care for adult, critically ill patients and their families – or prepare for the critical care nursing certification exam Endorsed by the American Association of Critical-Care Nurses and written by top clinical experts in acute care nursing, this textbook thoroughly covers all the need-to-know details on the care of adult, critically ill patients and their families. Supported by helpful tables and algorithms, the book's practical, building-block organization starts with the basics before proceeding to more complex concepts, paralleling the blueprint for the critical care nursing CCRN certification examination. AACN Essentials of Critical Care Nursing is divided into four logical sections, which, taken as a whole, will give you complete understanding of this challenging area of nursing practice: The Essentials – provides fundamental information that new clinicians must understand to provide safe, competent nursing care to all critically ill patients, regardless of their underlying medical diagnosis. Pathological Conditions – covers pathologic conditions and management strategies commonly encountered in all adult critical care units. Advanced Concepts in Caring for the Critically Ill Patient – presents advanced critical care concepts or pathologic conditions that are less common or more specialized than those generally found in adult critical care units. Key Reference Information – includes reference information that you will find helpful in a clinical environment, such as normal laboratory and diagnostic values, algorithms for advanced cardiac life support, and summary tables of critical care drugs and cardiac rhythms Each chapter begins with Knowledge Competencies that can be used to gauge your progress. This edition is compatible with ECCO (Essentials of Critical Care Orientation), the online program offered by the American Association of Critical-Care Nurses.

AACN Advanced Critical Care Nursing – E-Book Version to be sold via e-commerce site AACN,2008-06-05 From AACN experts comes a resource dedicated to helping you oversee or care for critical care patients in any practice setting. This comprehensive critical care nursing textbook addresses serious and potentially life-threatening patient conditions with a foundation rooted in the critical thinking process: the comprehension, analysis, synthesis, and application of knowledge. Endorsed by the American Association of Critical-Care Nurses (AACN), the largest specialty nursing organization in the United States, for the most authoritative coverage available. Thorough discussions of each body system emphasize advanced concepts, presenting

physiology in an application format that examines the clinical implications of physiological science. Coverage of assessment focuses on interpreting abnormal findings and linking those findings to diagnosis and intervention. Appropriate interventions are discussed from an interdisciplinary, evidence-based perspective. Hundreds of new, full-color illustrations and design clarify important concepts and improve the book's usability. Complex, unfolding case studies are presented in all disease chapters, accompanied by review questions with a comprehensive answer key. Multidisciplinary Plans of Care provide at-a-glance information for common ICU conditions. Nutrition boxes appear in each relevant chapter, offering guidelines for patient needs with specific illnesses. Research-Based Practice Guidelines boxes and Promoting Evidence-Based Practice features appear throughout the text whenever applicable to present the latest research-supported nursing assessment and intervention practices. Drug boxes include common classifications of critical care drugs for specific disorders, including drug, actions, dosage, and special considerations. Applying the Technology features help you apply the latest technology to patient care. NIC Interventions boxes list NIC intervention labels appropriate for the conditions discussed in a chapter.

Cardiac Surgery Essentials for Critical Care Nursing Sonya R. Hardin,Roberta Kaplow,2019-03-07 Cardiac Surgery Essentials for Critical Care Nursing, Third Edition is an indispensable resource for new and experienced nurses caring for patients in critical care units immediately following cardiac surgery and in the transitioning to home. AACN Procedure Manual for Critical Care American Association of Critical-Care Nurses,2005 AACN Procedure Manual for Critical Care offers comprehensive coverage of procedures unique to the critical care environment. This edition is thoroughly revised, updated, and expanded to reflect the current state of critical care nursing practice. Information is presented in a highly illustrated step-by-step format with supporting rationales for each step of every procedure. This resource also emphasizes evidence-based practice and provides complete coverage of the latest clinical studies. Each procedure is organized in a consistent, step-by-step format with categories that include: prerequisite nursing knowledge, equipment, patient and family education, patient assessment and preparation, procedure, expected outcomes, unexpected outcomes, patient monitoring and care, and documentation. Each procedure is supported by research-based data. Advanced practice procedures are noted with a special AP icon indicating that these procedures should be done only by qualified personnel. 19 new procedures discuss topics such as combitube insertion and removal, transesophageal echocardiography, and patient controlled analgesia. A new Quick Tips feature - located in the Special Considerations column for quick reference - highlights key words and key concepts for each procedure. A new web-enhanced feature at the beginning and end of each procedure directs readers to online supplement materials such as additional art and photographs. Web links connect users to hundreds of continually updated web sites that contain information relevant to critical care nursing practice. 200 new line drawings clearly illustrate important techniques and bring key procedures to life.

AACN's Clinical Reference for Critical Care Nursing Marguerite Rodgers Kinney,1998 This title, sanctioned by the AACN, continues to be the most comprehensive clinical resource available for critical care nurses. Three new authors, with a combined 62 years of clinical practice, have been teamed with the original authors to guarantee a well-rounded, comprehensive and current presentation of critical care nursing. The content has been extensively

revised and reorganized to make this edition more practical for the clinical setting. Introductory, non-clinical content has been eliminated making the essential information easier to find. Numerous boxes and tables areintegrated throughout, increasing the visual appeal. Plus, hundreds of line illustrations are completely new or have been redrawn to provide clarity. * The only publication of its kind sanctioned by the American Association of Critical Care Nurses. * New chapters on managing obstetrical emergencies and post-resuscitation care reflect the increased role critical care nurses play in these areas. * New chapter on alternative therapies, a fast-growing area, explores the latest treatment methods that complement traditional approaches to patient care. * Content follows a consistent format: clinical physiology; patient assessment, physical assessment, laboratory assessment; diagnostic procedures, non-invasive and invasive; overview of definitions, incidence, onset and risk; pathophysiology and etiology; clinical management, therapeutic goals, patient outcomes and interventions. * Boxes filled with practical information, including signs and symptoms, potential complications, rehabilitation and transition to home, and clinical pathways. Plus, many tables and algorithms speed location of information. * Information on pharmaceutical agents integrated throughout the text with corresponding therapies.
