Addition & Subtraction Denise Gaskins, 2015-04-20 Prevent math anxiety — by playing games! You'll love these math games because they give your child a sturdy foundation for understanding addition and subtraction. Help your child learn mental flexibility by playing with numbers, from basic math facts to the hundreds and thousands. Logic games build strategic thinking skills, and dice games give students hands-on experience with probability. Addition & Subtraction features 23 kid-tested games, offering a variety of challenges for elementary-age students. Chapters include: • Tens and Teens: Master the concept of number bonds — the relationship between a whole number and the parts that combine to make it — and build a logical foundation for future math. • Numbers to One Hundred: Develop mental math skills for working with larger numbers. Practice using place value, addition, and subtraction. • Mixed Operations: Give mental muscles a workout with games that require number skills and logical thinking. • Logic and Probability: Logic games sharpen inductive and deductive thinking skills, while games of chance build an intuition for probability. Math games protect your child from math phobia. Games pump up your child's mental muscle, reduce the fear of failure, and generate a positive attitude toward mathematics. Parents can use these games to enjoy quality time with your children. Classroom teachers like them as warm-ups and learning center

activities or for a relaxing review day at the end of a term. If you are a tutor or homeschooler, make games a regular feature in your lesson plans to build your students' math skills. So what are you waiting for? Clear off a table, grab a deck of cards, and let's play some math!

Bloomsbury CPD Library: Supporting Children with Special Educational Needs and Disabilities Cherryl Drabble,Bloomsbury CPD Library,2016-09-22 According to the most recent SEND Code of Practice, every teacher is a teacher of children with special educational needs and disabilities, and yet teachers often receive little or no training in this area. Despite their best intentions they are therefore often ill-equipped to rise to the challenge of helping their students achieve the best possible educational outcomes. This comprehensive resource will equip primary and secondary teachers and SENDCos with the training and skills they need to fully support children with SEND in mainstream classrooms. Cherryl Drabble draws on her vast experience as a CPD leader, NQT mentor and her many years of working with SEND to share guidance, practical activities and strategies for evaluating and strengthening your practice and that of your colleagues. The book provides a set of ready-to-use training plans, accompanied by PowerPoint slides available to download online for free, so you can train your colleagues in this essential area and ensure the best support possible for students with SEND across your school. In total, the book offers over 50 hours of CPD, equating to a cost of less than 50p per hour of training!
