City Requiem, Calcutta Ananya Roy, 2003 Housing developments emerge amid the paddy fields on the fringes of Calcutta; overflowing trains carry peasant women to informal urban labor markets in a daily commute against hunger; land is settled and claimed in a complex choreography of squatting and evictions: such, Ananya Roy contends, are the distinctive spaces of a communism for the new millennium -- where, at a moment of liberalization, the hegemony of poverty is quietly reproduced. An ethnography of urban development in Calcutta, Roy's book explores the dynamics of class and gender in the persistence of poverty. *City Requiem, Calcutta* emphasizes how gender itself is spatialized, and how gender relations are negotiated within the geopolitics of modernity and through the everyday practices of territory. Thus Roy shows how urban developmentalism, in its populist guise, reproduces the relations of masculinist patronage, and, in its entrepreneurial guise, seeks to reclaim a bourgeois Calcutta, gentlemanly in its nostalgias. In doing so, her work expands the field of poverty studies by showing how a politics of poverty is also a poverty of knowledge, a construction and management of social and spatial categories.

Tanna Times Lamont Lindstrom, 2021-03-31 Anthropologists like to tell other people's stories but local experts tell them even better. This book introduces the vibrant living culture and fascinating history of Tanna, an island in Vanuatu, Melanesia, through the stories of a dozen interconnected Tanna Islanders. Tracing the past 250 years of island experiences that cross the globe, each of these distinctly extraordinary lives tells larger human narratives of cultural continuity and change. In following Tanna's times, we find that all of us, even those living on seemingly out-of-the-way Pacific Islands, are firmly linked into the world's networks. Each chapter opens with a telling life story then contextualizes that biography with pertinent ethnographic explanation and archival research. Since 1774, Tanna Islanders have participated in events that have captured global anthropological and popular attention. These include receiving British explorer James Cook; a nineteenth-century voyage to London; troubled relations with early Christian missionaries; overseas emigration for plantation labor; the innovation of the John Frum Movement, a so-called Melanesian "cargo cult"; service in American military labor corps during the Pacific War; agitation in the 1970s for an independent Vanuatu; urban migration to seek work in Port Vila (Vanuatu's capital); the international kava business; juggling arranged versus love marriages; and modern dealings with social media and swelling numbers of tourists. Yet, partly as a consequence of their experience abroad, Islanders fiercely protect their cultural identity and continue to maintain resilient bonds with their Tanna homes. Drawing on forty years of fieldwork in Vanuatu, author Lamont Lindstrom offers rich insights into the culture of Tanna. His close relationship with the island's people is reflected in his choice to feature their voices; he celebrates and recounts their stories here in accessible, engaging prose. An ethnographic case study written for students of anthropology, the author has included a concise list of key sources and essential further readings suggestions at the end of each chapter. *Tanna Times* complements classroom and scholarly interests in kinship and marriage, economics, politics, religion, history, linguistics, gender and personhood, and social transformation in Melanesia and beyond.

Most of the ancient civilization had its roots to river basins, where people-water interaction was the key aspect. This book offers analytical case studies on different aspects of water communities, which is defined as the human-water interaction process.

The Routledge Handbook of Global Historical Archaeology Charles E. Orser, Jr., Andres Zarankin, Pedro Funari, Susan Lawrence, James Symonds, 2020-07-26 The Routledge Handbook of Global Historical Archaeology is a multi-authored compendium of articles on specific topics of interest to today's historical archaeologists, offering perspectives on the current state of research and collectively outlining future directions for the field. The broad range of topics covered in this volume allows for specificity within individual chapters, while building to a cumulative overview of the field of historical archaeology as it stands, and where it could go next. Archaeological research is discussed in the context of current sociological concerns, different approaches and techniques are assessed, and potential advances are posited. This is a comprehensive treatment of the sub-discipline, engaging key contemporary debates, and providing a series of specially-commissioned geographical overviews to complement the more theoretical explorations. This book is designed to offer a starting point for students who may wish to pursue particular topics in more depth, as well as for non-archaeologists who have an interest in historical archaeology. Archaeologists, historians, preservationists, and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening.

Latino Metropolis Victor M. Valle, Rodolfo D. Torres, 2000 Los Angeles: scratch the surface of the city's image as a rich mosaic of multinational cultures and a grittier truth emerges-its huge, shimmering economy was built on the backs of largely Latino immigrants and still depends on them. This book exposes the underside of the development and restructuring that have turned Los Angeles into a global city, and in doing so it reveals the ways in which ideas about ethnicity-Latino identity itself-are implicated and elaborated in the process. A truly pathbreaking work that puts Latinos where they belong: in the center of debate about the future of the U

Angaaray Snehal Shingavi,2018-06-05 First published in 1932, this slim volume of short stories created a firestorm of public outrage for its bold attack on the hypocrisy of conservative Islam and British colonialism. Inspired by British modernists like Woolf and Joyce as well as the Indian independence movement, the four young trailblazers who penned this collection were eager to revolutionize Urdu literature. Instead, they invited the wrath of the establishment: the book was burned in protest and then banned by the British authorities. Nevertheless, Angaaray spawned a new generation of Urdu writers and gave birth to the Progressive Writers' Association, whose members included, among others, stalwarts like Chughtai, Manto, Premchand and Faiz. This edition also provides a compelling account of the furore surrounding this explosive collection.

Overcoming School Refusal Joanne Garfi,2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child’s social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Second Tier Cities Ann R. Markusen,Yong-Sook Lee,Sean DiGiovanna,1999 Over the past thirty years, transnational investment, trade, and government policies have encouraged the decentralization of national economies, disrupting traditional patterns of urban and regional growth. Many smaller cities -- such as Seattle, Washington; Campinas, Brazil; Oita, Japan; and Kumi, Korea -- have grown markedly faster than the largest metropolises. Dubbed here second tier cities, they are home to specialized industrial complexes that have taken root, provided significant job growth, and attracted mobile capital and labor. The culmination of an ambitious five-year, fourteen-city research project conducted by an international team of economics and geographers, *Second Tier Cities* examines the potential of these new regions to balance uneven regional development, create good, stable jobs, and moderate hyper-urbanization. Comparing across national borders, the contributors describe four types of second tier cities: Marshallian industrial districts, hub-and-spoke cities, satellite platforms, and government-anchored complexes. They find that both industrial and regional policies have been important contributors to the rise of second tier cities, though the former often trump the latter. Lessons for local, national, and international policymakers are drawn. The authors are critical of devolution and argue that it must be accompanied by strong labor and environmental standards and mechanisms to overcome differential regional resource endowments.

The Work of Cities Susan E. Clarke,Gary L. Gaile,1998 In a pathbreaking study based on four case studies--Cleveland, Tacoma, Syracuse, and Jacksonville--authors Susan E. Clarke and Gary L. Gaile show how cities play a vital role in empowering citizens to adapt and serve as catalysts for a global economy. *THE WORK OF CITIES* is essential reading for anyone who cares about our metropolitan communities.
