Monster Academy Jane Yolen,Heidi E. Y. Stemple,2018-08-28 Where do monsters go to school? Monster Academy! And anything can happen when your teacher is Miss Mummy. It's not like any other school, but if you're a little monster, you'll fit right in! Come along with Principal Frank N. Stein into a bright, energetic classroom where the class pet is a big purple boa constrictor, recess is in a swamp, and class bats help build a Creepy Castle in the Monster Maker's Lab. When Tornado Jo, a new student, roars into class, a storm is brewing. Who could ever guess that her new best friend will be a vampire, and she'll help him find his missing fang? Award-winning writer Jane Yolen teams up with her daughter, Heidi, to present colorful monster children who have familiar human issues such as making friends and learning to help others. In a final twist, Tornado Jo -- the worst behaved student -- is revealed to be an out-of-control human, not a monster after all. Oh, no! Monsters are more afraid of humans than we are of them! Everybody runs! Laugh-aloud humor is enhanced by John McKinley's highly imaginative illustrations loaded with fun and hidden jokes tucked into the art. An irresistible romp from start to finish!

Trickster Academy Jenny L. Davis,2022-02-08 Trickster Academy is a full-length collection of poems that explore the experience of being Native in Academia-from land acknowledgment statements to the criteria for tenure and the histories of using Native American remains within Anthropology. Organized around the premise of the Trickster Academy, a university space run by and meant for training tricksters, this collection moves between the personal dynamics of a two-spirit Indigenous woman in spaces where there are few others, and a trickster's critique of those same spaces. But these realities aren't specific only to those in academic positions-from leaving home, to being the only Indian in the room, to having to deal with the constant pressures to being a 'real Indian', they are shared experiences of Indians across many different regions, and all of us who live among tricksters--

Academy of Six Aleera Anaya Ceres,A. K. Koonce,2019-07-07 Deadly monsters live in all of us.The Academy of Six has just never seen a monster as terribly mundane as Izara Castillo. And that is a dangerous problem. She has four semesters to not only understand her supernatural abilities, but harness them as well.Everything at the Academy is a disaster, from Interdimensional Travels through hell to the other hell they like to call Gym.Bullies push her, test her, and simply try to kill her. A few broodingly protective roommates and a scary fake boyfriend could help. Or make her life impossibly harder.Pretend to date the emotionally detached demon, they said. What's the worst that could happen, they said.It's make or break within this prison of a school. If she succeeds, she'll finally know

what she's capable of, who she truly is, and where she came from.If she fails...she dies.This is Reverse Harem series containing M/M themes. Recommended for readers 18 and over.

Azyl Academy Chris Vines,2019-08-07 I was getting ready to graduate, with only one semester left, when I took a ski trip with my fiancée and ended up dying to save a little girl's life. This wasn't the end, though, as a deity chose me to save another world. I woke up in the body of Kupiec Aiden, in a world where magic was real. Unfortunately, unlike many isekai novels I've read, I retained none of his memories, and had to learn everything. His family took me in, and I recovered from his sickness before learning about magic, or Aether as they called it. I discovered that I had immense innate talent in Aether Gathering, and was offered a scholarship to attend Azyl Academy, the city's premier institution. Where do I fit in this world, and how am I going to be key to saving it?
