*Routledge Handbook of Indian Cinemas* K. Moti Gokulsing, Wimal Dissanayake, 2013-04-17 India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality, film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies.

*That Thing about Bollywood* Supriya Kelkar, 2022-05-10 Middle-schooler Sonali cannot bring herself to share her feelings, but when she wakes up one day and begins to involuntarily burst into Bollywood song and dance routines that showcase her emotions, she realizes she has to find her voice and share her feelings.

**The Next Billion Users** Payal Arora, 2019-02-25 A digital anthropologist examines the online lives of millions of people in China, India, Brazil, and across the Middle East—home to most of the world’s internet users—and discovers that what they are doing is not what we imagine. New-media pundits obsess over online privacy and security, cyberbullying, and revenge porn, but do these things really matter in most of the world? The Next Billion Users reveals that many assumptions about internet use in developing countries are wrong. After immersing herself in factory towns, slums, townships, and favelas, Payal Arora assesses real patterns of internet usage in India, China, South Africa, Brazil, and the Middle East. She finds Himalayan teens growing closer by sharing a single computer with common passwords and profiles. In China’s gaming factories, the line between work and leisure disappears. In Riyadh, a group of young women organizes a YouTube fashion show. Why do citizens of states with strict surveillance policies appear to care so little about their digital privacy? Why do Brazilians eschew geo-tagging on social media? What drives young Indians to friend “foreign” strangers on Facebook and give “missed calls” to people? The Next Billion Users answers these questions and many more. Through extensive fieldwork, Arora demonstrates that the global poor are far from virtuous utilitarians who mainly go online to study, find jobs, and obtain health information. She reveals habits of use bound to intrigue everyone from casual internet users to developers of global digital platforms to organizations seeking to reach the next billion internet users.

*Bollywood and its Other(s)* V. Kishore, A. Sarwal, P. Patra, 2016-01-26 How do we define the globalized cinema and media cultures of Bollywood in an age when it has become part of the cultural diplomacy of an emerging superpower? Bollywood and Its Other(s) explores the aesthetic-philosophical questions of the other through, for example, discussions on Indian diaspora's negotiations with national identity.

**Marketing Management, 2nd Edition** Arun Kumar & N. Meenakshi, 2011 Marketing is a way of doing business. It is all pervasive, a part of everyone’s job description. What is e-book? Nicolae Sfetcu, 2014-05-10 The e-book guide for publishers: how to publish, EPUB format, ebook readers and suppliers. An electronic book (also e-book, ebook, electronic book, digital book) is a book-length publication in digital form, consisting of text, images, or both, and produced on, published through, and readable on computers or other electronic devices. An e-book can be purchased/borrowed, downloaded, and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library, or public library during limited hours, or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles, and the development of digital libraries and catalogues. EPUB (short for electronic publication; alternatively capitalized as ePub, ePUB, EPub, or epub, with EPUB preferred by the vendor) is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work, without the involvement of an established third-party publisher. One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book. People can easily become authors overnight and earn income from selling online ebooks.

**Online around the World** Laura M. Steckman, Marilyn J. Andrews, 2017-05-24 Covering more than 80 countries around the world, this book provides a compelling, contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum—one in Indonesia, with more than seven million registered users? Why does Mongolia rate in the top-ten countries worldwide for peak Internet speeds? Readers of Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps will discover the answers to these questions and learn about people's Internet and social media preferences on six continents—outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate the incredible power of online interactions across otherwise-unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

**Bollywood Sounds** Jayson Beaster-Jones, 2014-10-09 Bollywood Sounds focuses on the songs of Indian films in their historical, social, commercial, and cinematic contexts. Author Jayson Beaster-Jones takes readers through the highly collaborative compositional process, highlighting the contributions of film directors, music directors (composers), lyricists, musicians, and singers in song production. Through close musical and multimedia analysis of more than twenty landmark compositions, Bollywood Sounds illustrates how the producers of Indian film songs have long mediated a variety of musical styles, instruments, and performance practices to create a uniquely cosmopolitan music genre. As an exploration of the music of seventy years of Hindi films, Bollywood Sounds provides long-term historical insights into film songs and their musical and cinematic conventions in ways that will appeal both to scholars and to newcomers to Indian cinema.

*Film and Place in an Intercultural Perspective* Krzysztof Stachowiak, Hania Janta, Jani Kozina, Therese Sunngren-Granlund, 2023-09-26 The book offers an interdisciplinary overview of the film and place relationship from an intercultural perspective. It explores the complex domain of place and space in cinema and the film industry's role in establishing cultural connections and economic cooperation between India and Europe. With contributions from leading international scholars, various case studies scrutinise European and Indian contexts, exploring both the established and emerging locations. The book extends the dominantly Britain-oriented focus on India’s cinema presence in Europe to European countries such as Italy, Switzerland, Poland, Slovenia, Finland, and Sweden, where the Indian film industry progressively expands its presence. The chapters of this book look at Indian film production in Europe as a cultural bridge between India and Europe, fostering mutual understanding of the culture and society of the two regions. This interdisciplinary book will be of interest to researchers in film studies, cultural anthropology, cultural geography, tourism, economics, sociology, and cultural studies. It will also be interest to practitioners working in local authorities, destination management, tourism, and creative business, all of whom see the value of film production in attracting visitors, investment, and creating new networks with local economic actors. The book offers much-needed data and tools to translate their professional goals and potentials into effective regional strategies and activities.

Bollywood’s New Woman Megha Anwer,Anupama Arora,2021-06-18 Bollywood’s New Woman examines Bollywood’s construction and presentation of the Indian Woman since the 1990s. The groundbreaking collection illuminates the contexts and contours of this contemporary figure that has been identified in sociological and historical discourses as the “New Woman.” On the one hand, this figure is a variant of the fin de siècle phenomenon of the “New Woman” in the United Kingdom and the United States. In the Indian context, the New Woman is a distinct articulation resulting from the nation’s tryst with neoliberal reform, consolidation of the middle class, and the ascendancy of aggressive Hindu Right politics.
