The Cultural Industries of India Rohit K. Dasgupta,Clelia Clini,2024-05-14 The Cultural Industries of India is the first book length study dedicated to the Indian cultural and creative industries. By covering specific aspects of the cultural and creative sectors in India- from film festivals to music and performing arts, from cinema to tourism, including a policy review on innovation in the creative industries – the various chapters offer a comprehensive overview of the relationship between the cultural and creative industries and the wider economic, social, cultural and political processes taking place within India and its diaspora. The study of cultural and creative industries in India is important not only for their potential for economic growth and its knock-on effect on social and cultural development, but also because their analysis reveal the ways in which cultural production shapes politics and identities, income generation and urban renewal. This volume focuses on questions of structural inequalities within the sector at the local level, and to account for asymmetries in economic power and the possibility to circulate and access symbolic content within and beyond the boundaries of the Indian nation. This book will be an essential read for scholars and researchers of creative and cultural studies, economics, history, development studies and media studies in India. The chapters in this book were originally published as a special issue of Cultural Trends.

Bollywood's New Woman Megha Anwer,Anupama Arora,2021-06-18 Bollywood's New Woman examines Bollywood's construction and presentation of the Indian Woman since the 1990s. The groundbreaking collection illuminates the contexts and contours of this contemporary figure that has been identified in sociological and historical discourses as the "New Woman." On the one hand, this figure is a variant of the fin de siècle phenomenon of the "New Woman" in the United Kingdom and the United States. In the Indian context, the New Woman is a distinct articulation resulting from the nation's tryst with neoliberal reform, consolidation of the middle class, and the ascendancy of aggressive Hindu Right politics.

Film and Place in an Intercultural Perspective Krzysztof Stachowiak,Hania Janta,Jani Kozina,Therese Sunngren-Granlund,2023-09-26 The book offers an interdisciplinary overview of the film and place relationship from an intercultural perspective. It explores the complex domain of place and space in cinema and the film industry's role in establishing cultural connections and economic cooperation between India and Europe. With contributions from leading international scholars, various case studies scrutinise European and Indian contexts, exploring both the established and emerging locations. The book extends the dominantly Britain-oriented focus on India's cinema presence in Europe to European countries such as Italy, Switzerland, Poland, Slovenia, Finland, and Sweden, where the Indian film industry progressively expands its presence. The chapters of this book look at Indian film production in Europe as a cultural bridge between India and Europe, fostering mutual understanding of the culture and society of the two regions. This interdisciplinary book will be of interest to researchers in film studies, cultural anthropology, cultural geography, tourism, economics, sociology, and cultural studies. It will also be interest to practitioners working in local authorities, destination management, tourism, and creative business, all of whom see the value of film production in attracting visitors, investment, and creating new networks with local economic actors. The book offers much-needed data and tools to translate their professional goals and potentials into effective regional strategies and activities.

Nico Slate offers a new look at the struggle for freedom that linked two former British colonies.

Bollywood and its Other(s) V. Kishore,A. Sarwal,P. Patra,2016-01-26 How do we define the globalized cinema and media cultures of Bollywood in an age when it has become part of the cultural diplomacy of an emerging superpower? Bollywood and Its Other(s) explores the aesthetic-philosophical questions of the other through, for example, discussions on Indian diaspora's negotiations with national identity.

100 Bollywood Films Rachel Dwyer,2019-07-25 Bollywood film is the national cinema of India, describing movies made in Mumbai, distributed nationally across India and with their own production, distribution and exhibition networks worldwide. This informative screen guide reflects the work of key directors, major stars and important music directors and screenplay writers. Historically important films have been included along with certain cult movies and top box office successes. No guide to Hindi film would be complete without discussing: Mother India, the national epic of a peasant woman's struggle against nature and society to bring up her family; Sholay, a 'curry western' where the all-star cast sing and dance, romance and kill; Dilwale Dulhaniya le jayenge, the greatest of the diaspora films, in which two British Asians fall in love on a holiday in Europe before going to India where they show their elders how to incorporate love into family traditions; Junglee, showing how love transforms a 'savage' (junglee) who yells 'Yahoo!' before singing and dancing like Elvis, creating a new youth culture; Pyaasa, dramatically shot in black and white film with haunting songs as the romantic poet suffers for his art in the material world; Fans of Bollywood film can debate Rachel Dwyer's personal selection of these 101 titles while those new to the area will find this an invaluable introduction to the best of the genre.

The Next Billion Users Payal Arora,2019-02-25 A digital anthropologist examines the online lives of millions of people in China, India, Brazil, and across the Middle East—home to most of the world's internet users—and discovers that what they are doing is not what we imagine. New-media pundits obsess over online privacy and security, cyberbullying, and revenge porn, but do these things really matter in most of the world? The Next Billion Users reveals that many assumptions about internet use in developing countries are wrong. After immersing herself in factory towns, slums, townships, and favelas, Payal Arora assesses real patterns of internet usage in India, China, South Africa, Brazil, and the Middle East. She finds Himalayan teens growing closer by sharing a single computer with common passwords and profiles. In China's gaming factories, the line between work and leisure disappears. In Riyadh, a group of young women organizes a YouTube fashion show. Why do citizens of states with strict surveillance policies appear to care so little about their digital privacy? Why do Brazilians eschew geo-tagging on social media? What drives young Indians to friend "foreign" strangers on Facebook and give "missed calls" to people? The Next Billion Users answers these questions and many more. Through extensive fieldwork, Arora demonstrates that the global poor are far from virtuous utilitarians who mainly go online to study, find jobs, and obtain health information. She reveals habits of use bound to intrigue everyone from casual internet users to developers of global digital platforms to organizations seeking to reach the next billion internet users.

King of Bollywood Anupama Chopra,2007-10-02 Here is the astonishing true story of Bollywood, a sweeping portrait about a country finding its identity, a movie industry that changed the face of India, and one man's struggle to become a star. Shah Rukh Khan's larger than life tale takes us through the colorful and idiosyncratic Bollywood movie industry, where fantastic dreams and outrageous obsessions share the spotlight with extortion, murder, and corruption. Shah Rukh Khan broke into this \$1.5 billion business despite the fact that it has always been controlled by a handful of legendary film families and sometimes funded by black market money. As a Muslim in a Hindu majority nation, exulting in classic Indian cultural values, Shah Rukh Khan has come to embody the aspirations and contradictions of a complicated culture tumbling headlong into American style capitalism. His story is the mirror to view the greater Indian story and the underbelly of the culture of Bollywood. A bounty for cinema lovers everywhere. --Mira Nair, Director, *The Namesake* and *Monsoon Wedding* *King of Bollywood* is the all-singing, all-dancing back stage pass to Bollywood. Anupama Chopra chronicles the political and cultural story of India with finesse and insight, through fly-on-wall access to one of its biggest, most charming and charismatic stars. -- Gurinder Chadha, director of *Bend it Like Beckham* *The Easy Rider Raging Bull* of the Bollywood industry and essential reading for any Shah Rukh Khan fan. --Emma Thompson, actress Anu Chopra infuses the pivotal moments of Shah Rukh Khan's life with an edge-of-your-seat tension worthy of the best Bollywood blockbusters. --Kirkus

Networked Bollywood Swapnil Rai,2024-01-31 *Networked Bollywood* provides interdisciplinary analysis of the role of the stars in the transformation of Hindi cinema into a global entertainment industry. The first Indian film was made in 1913. However, filmmaking was recognized as an industry almost a hundred years later. Yet, Indian films have been circulating globally since their inception. This book unearths this oft-elided history of Bollywood's globalization through multilingual, transnational research and discursive cultural analysis. The author illustrates how over the decades, a handful of primarily male megastars, as the heads of the industry's most prominent productions and corporations, combined overwhelming charismatic affect with unparalleled business influence. Through their star switching power, theorized here as a deeply gendered phenomenon and manifesting broader social inequalities, India's most prominent stars instigated new flows of cinema, industrial collaborations, structured distinctive business models, influenced state policy and diplomatic exchange, thereby defining the future of Bollywood's globalization.

India's New Independent Cinema Ashvin Immanuel Devasundaram,2016-06-10 This is the first-ever book on the rise of the new wave of independent Indian films that is revolutionising Indian cinema. Contemporary scholarship on Indian cinema so far has focused asymmetrically on Bollywood—India's dominant cultural export. Reversing this trend, this book provides an in-depth examination of the burgeoning independent Indian film sector. It locates the new 'Indies' as a glocal hybrid film form—global in aesthetic and local in content. They critically engage with a diverse socio-political spectrum of 'state of the nation' stories; from farmer suicides, disenfranchised urban youth and migrant workers to monks turned anti-corporation animal rights agitators. This book provides comprehensive analyses of definitive Indie new wave films including *Peepli Live* (2010), *Dhobi Ghat* (2010), *The Lunchbox* (2013) and *Ship of Theseus* (2013). It explores how subversive Indies, such as polemical postmodern rap-musical *Gandu* (2010) transgress conventional notions of 'traditional Indian values', and collide with state censorship regulations. This timely and pioneering analysis shows how the new Indies have emerged from a middle space between India's globalising present and traditional past. This book draws on in-depth interviews with directors, actors, academics and members of the Indian censor board, and is essential reading for anyone seeking an insight into a current Indian film phenomenon that could chart the future of Indian cinema.

Bollywood takes you on a behind-the-scenes tour of Hindi cinema's biggest blockbusters, with stunning film stills and plot timelines, as well as insightful biographies of iconic stars including Dev Anand, Amitabh Bachchan, Deepika Padukone, and Shahrukh Khan. Affinity Online Mizuko Ito,Crystle Martin,Rachel Cody Pfister,Matthew H. Rafalow,Katie Salen,Amanda Wortman,2018-12-18 How online affinity networks expand learning and opportunity for young people Boyband One Direction fanfiction writers, gamers who solve math problems together, Harry Potter fans who knit for a cause. Across subcultures and geographies, young fans have found each other and formed community online, learning from one another along the way. From these and other in-depth case studies of online affinity networks, Affinity Online considers how young people have found new opportunities for expanded learning in the digital age. These cases reveal the shared characteristics and unique cultures and practices of different online affinity networks, and how they support "connected learning"—learning that brings together youth interests, social activity, and accomplishment in civic, academic, and career relevant arenas. Although involvement in online communities is an established fixture of growing up in the networked age, participation in these spaces show how young people are actively taking up new media for their own engaged learning and social development. While providing a wealth of positive examples for how the online world provides new opportunities for learning, the book also examines the ways in which these communities still reproduce inequalities based on gender, race, and socioeconomic status. The book concludes with a set of concrete suggestions for how the positive learning opportunities offered by online communities could be made available to more young people, at school and at home. Affinity Online explores how online practices and networks bridge the divide between in-school and out-of-school learning, finding that online affinity networks are creating new spaces of opportunity for realizing the ideals of connected learning.
