Conservation of Books Abigail Bainbridge,2023-03-27 Conservation of Books is the highly anticipated reference work on global book structures and their conservation, offering the first modern, comprehensive overview on this subject. The volume takes an international approach to its subject. Written by over 70 specialists in conservation and conservation science based in 19 countries, its 26 chapters cover traditional book structures from around the world, the materials from which they are made and how they degrade, and how to preserve and conserve them. It also examines the theoretical underpinnings of conservation: what and how to treat, and the ethical, cultural, and economic implications of treatment. Technical drawings and photographs illustrate the structures and treatments examined throughout the book. Ultimately, readers gain an in-depth understanding of the materiality of books in numerous global contexts and reflect on the practical considerations involved in their analysis and treatment. Conservation of Books is a quintessential reference work for book conservators and anyone working with books, such as collection managers, librarians, curators, dealers, collectors, historians, and related professionals. It is also an indispensable text for students to complement hands-on training in this field.

**The First Book of Fashion** Ulinka Rublack,Maria Hayward,Jenny Tiramani,2021-02-11 This captivating book reproduces arguably the most extraordinary primary source documents in fashion history. Providing a revealing window onto the Renaissance, they chronicle how style-conscious accountant Matthäus Schwarz and his son Veit Konrad experienced life through clothes, and climbed the social ladder through fastidious management of self-image. These bourgeois dandies' agenda resonates as powerfully today as it did in the sixteenth century: one has to dress to impress, and dress to impress they did. The Schwarzes recorded their sartorial triumphs as well as failures in life in a series of portraits by illuminists over 60 years, which have been comprehensively reproduced in full color for the first time. These exquisite illustrations are accompanied by the Schwarzes' fashion-focussed yet at times deeply personal captions, which render the pair the world's first fashion bloggers and pioneers of everyday portraiture. The First Book of Fashion demonstrates how dress – seemingly both ephemeral and trivial – is a potent tool in the right hands. Beyond this, it colorfully recaptures the experience of Renaissance life and reveals the importance of clothing to the aesthetics and every day culture of the period. Historians Ulinka Rublack's and Maria Hayward's insightful commentaries create an unparalleled portrait of sixteenth-century dress that is both strikingly modern and thorough in its description of a true Renaissance fashionista's wardrobe. This first English translation also includes a bespoke pattern by TONY award-winning costume designer and dress historian Jenny Tiramani, from which readers can recreate one of Schwarz's most elaborate and politically significant outfits.

Written by scholars working at the cutting-edge of the subject, from the UK and North America, the volume considers the production, reception, circulation, consumption, destruction, loss, modification, recycling, and conservation of books from different disciplinary perspectives. Each chapter discusses in a lively manner the nature and role of the book in early modern England, as well as offering critical insights on how we talk about the history of the book. On finishing the Handbook, the reader will not only know much more about the early modern book, but will also have a strong sense of how and why the book as an object has been studied, and the scope for the development of the field.

Proceedings of the Ninth International Dakhleh Oasis Project Conference Colin A. Hope,Gillian E. Bowen,2020-01-19 This new volume in the Oasis Papers series marks the 40th anniversary of archaeological fieldwork in the Dakhleh Oasis in Egypt's Western Desert under the leadership of Anthony J. Mills and presents a synthesis of the current state of our knowledge of the oasis and its interconnections with surrounding regions, especially the Nile Valley. The papers are by distinguished authorities in the field and postgraduate students who specialise in different aspects of Dakhleh and presents an almost complete survey of the archaeology of Dakhleh including much unpublished, original material. It will be one of the few to document a specific part of modern Egypt in such detail and thus should have a broad and lasting appeal. The content of some of the papers is unlikely to be published in any other form elsewhere. Dakhleh is possibly the most intensively examined wider geographic region within Egypt.

*The Financing of John Wesley's Methodism c.1740-1800* Clive Murray Norris,2017-02-09 The dominant activities of the eighteenth century Wesleyan Methodist Connexion, in terms of expenditure, were the support of itinerant preaching, and the construction and maintenance of preaching houses. These were supported by a range of both regular and occasional flows of funds, primarily from members' contributions, gifts from supporters, various forms of debt finance, and profits from the Book Room. Three other areas of action also had significant financial implications for the movement: education, welfare, and missions. The Financing of John Wesley's Methodism c.1740-1800 describes what these activities cost, and how the money required was raised and managed. Though much of the discussion is informed by financial and other quantitative data, Clive Norris examines a myriad of human struggles, and the conflict experienced by many early Wesleyan Methodists between their desire to spread the Gospel and the limitations of their personal and collective resources. He describes the struggle between what Methodists saw as the promptings of Holy Spirit and their daily confrontation with reality, not least the financial constraints which they faced.

**Archaeologies of African American Life in the Upper Mid-Atlantic** Michael J. Gall,Richard F. Veit,2017-10-17 A 2018 CHOICE Outstanding Academic Title New scholarship provides insights into the archaeology and cultural history of African American life from a collection of sites in the Mid-Atlantic This groundbreaking volume explores the archaeology of African American life and cultures in the Upper Mid-Atlantic region, using sites dating from the eighteenth through the twentieth centuries. Sites in Delaware, Pennsylvania, New Jersey, and New York are all examined, highlighting the potential for historical archaeology to illuminate the often overlooked contributions and experiences of the region’s free and enslaved African American settlers. Archaeologies of African American Life in the Upper Mid-Atlantic brings together cutting-edge scholarship from both emerging and established scholars. Analyzing the research through sophisticated theoretical lenses and employing up-to-date methodologies, the essays reveal the diverse ways in which African Americans reacted to and resisted the challenges posed by life in a borderland between the North and South through the transition from slavery to freedom. In addition to extensive archival research, contributors synthesize the material finds of archaeological work in slave quarter sites, tenant farms, communities, and graveyards. Editors Michael J. Gall and Richard F. Veit have gathered new and nuanced perspectives on the important role free and enslaved African Americans played in the region’s cultural history. This collection provides scholars of the Mid-Atlantic and Northeast regions, African American studies, material culture studies, religious studies, slavery, the African diaspora, and historical archaeologists with a well-balanced array of rural archaeological sites that represent cultural traditions and developments among African Americans in the region. Collectively, these sites illustrate African Americans’ formation of fluid cultural and racial identities, communities, religious traditions, and modes of navigating complex cultural landscapes in the region under harsh and disenfranchising circumstances.

**The Routledge Companion to Accounting History** John Richard Edwards,Stephen P. Walker,2020-04-15 The Routledge Companion to Accounting History presents a single-volume synthesis of research in this expanding field, exploring and analysing accounting from ancient civilisations to the modern day. No longer perceived as the narrow study of how a mysterious technique was used in past, the scope of accounting history has widened substantially. This revised and updated volume moves beyond the history of accounting technologies, accounting theories and practices and the accountants who applied them. Expert contributors from around the world explore the interfaces between accounting and the economy, society, culture and the polity. Accounting history is shown to offer important insights into such disparate phenomena as the evolution of capitalism, control of labour, gender and family relationships, racial exploitation, the operation of religious organisations, and the functioning of the state. Illuminating the foundation and development of accounting systems, this updated, classic book opens the field to a new generation of accounting scholars and historians around the world.
