Race of Aces John R Bruning,2020-01-14 The astonishing untold story of the WWII airmen who risked it all in the deadly race to become the greatest American fighter pilot. In 1942, America's deadliest fighter pilot, or ace of aces -- the legendary Eddie Rickenbacker -- offered a bottle of bourbon to the first U.S. fighter pilot to break his record of twenty-six enemy planes shot down. Seizing on the challenge to motivate his men, General George Kenney promoted what they would come to call the race of aces as a way of boosting the spirits of his war-weary command. What developed was a wild three-year sprint for fame and glory, and the chance to be called America's greatest fighter pilot. The story has never been told until now. Based on new research and full of revelations, John Bruning's brilliant, original book tells the story of how five American pilots contended for personal glory in the Pacific while leading Kenney's resurgent air force against the most formidable enemy America ever faced. The pilots -- Richard Bong, Tommy McGuire, Neel Kearby, Charles MacDonald and Gerald Johnson -- riveted the nation as they contended for Rickenbacker's crown. As their scores mounted, they transformed themselves from farm boys and aspiring dentists into artists of the modern dogfight. But as the race reached its climax, some of the pilots began to see how the spotlight warped their sense of duty. They emerged as leaders, beloved by their men as they chose selfless devotion over national accolades. Teeming with action all across the vast Pacific theater, *Race of Aces* is a fascinating exploration of the boundary between honorable duty, personal glory, and the complex landscape of the human heart. Brings you into the cockpit of the lethal, fast-paced world of fighter pilots . . . Fascinating. -- Sara VladoExtraordinary . . . a must-read. -- US Navy Captain Dan PedersenA heart-pounding narrative of the courage, sacrifice, and tragedy of America's elite fighter pilots. -- James M. The Great Air Race: Glory, Tragedy, and the Dawn of American Aviation John Lancaster,2022-11-15 The untold, almost unbelievable, story of the daring pilots who risked their lives in an unprecedented air race in 1919—and put American aviation on the map. Years before Charles Lindbergh's

flight from New York to Paris electrified the nation, a group of daredevil pilots, most of them veterans of the World War I, brought aviation to the masses by competing in the sensational transcontinental air race of 1919. The contest awakened Americans to the practical possibilities of flight, yet despite its significance, it has until now been all but forgotten. In *The Great Air Race*, journalist and amateur pilot John Lancaster finally reclaims this landmark event and the unheralded aviators who competed to be the fastest man in America. His thrilling chronicle opens with the race's impresario, Brigadier General Billy Mitchell, who believed the nation's future was in the skies. Mitchell's contest—critics called it a stunt—was a risky undertaking, given that the DH-4s and Fokkers the contestants flew were almost comically ill-suited for long-distance travel: engines caught fire in flight; crude flight instruments were of little help in clouds and fog; and the brakeless planes were prone to nosing over on landing. Yet the aviators possessed an almost inhuman disregard for their own safety, braving blizzards and mechanical failure as they landed in remote cornfields or at the edges of cliffs. Among the most talented were Belvin "The Flying Parson" Maynard, whose dog, Trixie, shared the rear cockpit with his mechanic, and John Donaldson, a war hero who twice escaped German imprisonment. Jockeying reporters made much of their rivalries, and the crowds along the race's route exploded, with everyday Americans eager to catch their first glimpse of airplanes and the mythic "birdmen" who flew them. The race was a test of endurance that many pilots didn't finish: some dropped out from sheer exhaustion, while others, betrayed by their engines or their instincts, perished. For all its tragedy, Lancaster argues, the race galvanized the nation to embrace the technology of flight. A thrilling tale of men and their machines, *The Great Air Race* offers a new origin point for commercial aviation in the United States, even as it greatly expands our pantheon of aviation heroes.

F-86 Sabre Aces of the 51st Fighter Wing Warren Thompson, 2012-11-20 The 51st Fighter Wing initially flew the F-80C in the Korean War, but in 1951, the 51st brought in high-scoring World War 2 ace Colonel Francis Gabreski to assume command when it converted from the F-80 over to the newly arrived F-86E. His recruits included his elite 4th Wing pilots, and by the end of the war, the 51st had two pilots who achieved the status of "Double Ace" as well as the highest scoring ace of the war, Joe McConnell. This book describes the 51st Wing's tenure with the Sabre that led to their high scoring sprees of 1953.

Aces High Bill Yenne, 2009-02-03 Capturing the hearts of a beleaguered nation, the fighter pilots of World War II engaged in a kind of battle that became the stuff of legend. They cut through the sky in their P-38s to go one-on-one against the enemy—and those who survived the deadly showdowns with enough courage and skill earned the right to be called aces. But two men in particular rose to become something more. They became icons of aerial combat, in a heroic rivalry that inspired a weary nation to fight on. Richard "Dick" Bong was the bashful, pink-faced farm boy from the Midwest. Thomas "Tommy" McGuire was the wise-cracking, fast-talking kid from New Jersey. What they shared was an unparalleled gallantry under fire which won them both the Medal of Honor—and remains the subject of hushed and reverent conversation wherever aerial warfare

is admired. What they had between them was a closely watched rivalry to see who would emerge as the top-scoring American ace of the war. What they left behind is a legacy of pride we will never forget, and a record of aerial victories that has yet to be surpassed anywhere in the world.

And so Connor takes it upon himself to investigate—a pursuit that becomes even more pressing when Dad is hospitalized after a stroke. What Connor discovers will lead him and his father to a new, richer understanding of race, identity, and each other.

Ace Angela Chen, 2020-09-15 An engaging exploration of what it means to be asexual in a world that's obsessed with sexual attraction, and what the ace perspective can teach all of us about desire and identity. What exactly is sexual attraction and what is it like to go through life not experiencing it? What does asexuality reveal about gender roles, about romance and consent, and the pressures of society? This accessible examination of asexuality shows that the issues that aces face—confusion around sexual activity, the intersection of sexuality and identity, navigating different needs in relationships—are the same conflicts that nearly all of us will experience. Through a blend of reporting, cultural criticism, and memoir, Ace addresses the misconceptions around the “A” of LGBTQIA and invites everyone to rethink pleasure and intimacy. Journalist Angela Chen creates her path to understanding her own asexuality with the perspectives of a diverse group of asexual people. Vulnerable and honest, these stories include a woman who had blood tests done because she was convinced that “not wanting sex” was a sign of serious illness, and a man who grew up in a religious household and did everything “right,” only to realize after marriage that his experience of sexuality had never been the same as that of others. Disabled aces, aces of color, gender-nonconforming aces, and aces who both do and don't want romantic relationships all share their experiences navigating a society in which a lack of sexual attraction is considered abnormal. Chen's careful cultural analysis explores how societal norms limit understanding of sex and relationships and celebrates the breadth of sexuality and queerness.
