American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association)

Trial Presentation Companion Shannon Lex Bales, 2018-06-22 Defendant Reginald McKay, a mentally disturbed American who became a home-grown Islamic terrorist, poisoned members of a Jewish temple during Passover seder. After one of the The Trial Presentation Companion: A Step-by-Step Guide to Presenting Electronic Evidence in the Courtroom, written by award-winning legal technologist Shannon Lex Bales, is NITA's first-ever, comprehensive "how-to" manual on running electronic evidence in the courtroom. This face-saving guide will help you and your firm expand your comfort zone in working with all the bits and pieces—laptops, trial presentation software, document cameras, audio-visual components, the puzzling array of cords and cables—that are increasingly essential when presenting electronic evidence in court in the modern era. Checklists and guides are included to help your firm create a technology plan for trial and recognize where opposing firms may attempt less-than-reputable technical tactics, such as burden shifting, to throw a monkey wrench in your trial plan. For the judiciary, the book presents a warts-and-all view of trial technology and discusses reasonable presentation obligations by firms to the court and how the court can ensure more efficient technological processes and fewer problems in the courtroom. Part One, Trial Presentation in Theory, is just that: a theoretical explanation, in plain (and often tongue-in-cheek) English, about why expert trial technologists do what they do during pretrial and in court—how to organize and name exhibit files, choose the best software for your needs, build a trial kit of equipment to take to court, comply with the Trial Management Order, develop an effective workflow, cultivate relationships that provide mutual support in court and out, and much more. Included as a free bonus are ready-to-use forms and checklists for you to download and use to help you mind the details of your case. Part Two, Trial Presentation in Practice, shows you, step by illustrated step, how you, too,

can bring that same game to your own legal team as you huddle for trial. Even if you don't know an HDMI port from a VGA and have never set up a folder system on your server before, The Trial Presentation Companion will show you how, and before you know it, you'll be running the show like you were born to it. This book is suitable for everyone from judges and law firm partners and associates to law students, budding trial technologists, and paralegals. Whatever your position, we envision you using this eBook alongside your computer, open on either an iPad or a secondary monitor while you plan and execute your courtroom presentation plan. This eBook's functionality is optimized on an iPad because it enables you to pinch-zoom the graphics to view the details, but it may also be downloaded to your desktop and viewed with Adobe Digital Editions. Digital Reader is an eBook reader for PC and Mac—and best of all, it's free.

Evidence in Criminal Trials Liz Heffernan, 2021-02-10 Shortlisted for DSBA Law Book of the Year Award 2020 Evidence in Criminal Trials is the first Irish textbook devoted exclusively to the subject of criminal evidence. This popular title provides comprehensive, detailed coverage of law and practice on the admissibility of evidence, the presentation of evidence in court and the pre-trial gathering and disclosure of evidence. The work combines analysis of traditional evidentiary doctrine with discussion of its application in practice and takes account of policy development and reform. The subject of evidence is discussed in the broader context of fundamental rights protection under the Constitution, the ECHR and EU law. This updated and extended second edition captures the many significant changes in the law of criminal evidence in recent years. The role of vulnerable witnesses in court proceedings is explored in new chapters on children and vulnerable adults, complainants in sexual offence trials, and victims of crime. The landmark Supreme Court decision in DPP v JC is analysed in an extended chapter on unlawfully obtained evidence and important case law developments relating

to confessions and the right to silence are discussed in a detailed chapter on pre-trial interviews with suspects. Other chapters explore the case law of the Supreme Court and Court of Appeal on testimony, corroboration, technological evidence, privilege and disclosure. The Law Reform Commission's recommendations in its 2016 Report on Consolidation and Reform of Aspects of the Law of Evidence are considered in the book's discussion of hearsay and expert evidence. This book will appeal to individuals working and studying in the areas of criminal law and evidence. It will be essential reading for legal practitioners, academics and law students and it will be of interest to others engaged with criminal justice and the court system.

It's capoeira between us. Conversations with capoeiristas. Part 1 Natalia Korelina, 2021-10-02 Capoeira has travelled beyond the borders of Brazil; it has fallen into the framework of other cultures, and has taken root in foreign mentalities. How did it happen? How has capoeira changed in these countries? What kinds of people choose capoeira in this or that country? What difficulties do coaches face? What do Brazilian masters think of capoeira being practiced outside of Brazil? These questions ignited my curiosity!
