Going Mobile Scott La Counte, 2012 Patrons increasingly expect access to their libraries anywhere, anytime. This Special Report provides practical guidance in how librarians can put the library in the palms of their patrons' hands. Using the HTML skills that many librarians already have along with flexible development tools, technology expert La Counte shows how creating a customized mobile app doesn't need to be expensive or require deep expertise. In straightforward, practical terms he Demonstrates how to establish a presence on the mobile web with mobile websites and phone apps Details open-source development tools such as PhoneGap that allow for the creation of mobile apps that work on a variety of mobile operating systems, with emphasis on the iPhone Discusses methods for assessing a library's user base and getting buy-in from administrators Following the pointers in this Special Report, libraries can easily go wherever their patrons do!

Educational Interventions for Students with Autism UC Davis MIND Institute, 2012-03-15 Educational Interventions for Students with Autism offers educators a vital resource for understanding and working with autistic students. Written by nationally acclaimed experts in the field and published in collaboration with the world-renowned UC Davis M.I.N.D. Institute, the book aims to deepen educators' appreciation of the challenges surrounding autism in a classroom setting and the current best practices in education for autism. To best meet the practical needs of teachers, school administrators, and parents, the book includes integrative summaries throughout, with recommendations for real-world classroom use. Topics covered include: how autism affects student learning, autism and its impact on schools, a teacher's view of autism and the classroom, best practices and challenges of working with students with ASD in the classroom, working with high-functioning autism (HFA) in schools, successful community-school partnerships, options for teacher

training, and more.
