Seeking a Sanctuary, Second Edition Malcolm Bull, Keith Lockhart, 2006-12-20 The completely revised second edition further explores one of the most successful of America's indigenous religious groups. Despite this, the Adventist church has remained largely invisible. Seeking a Sanctuary casts light on this marginal religion through its socio-historical context and discusses several Adventist figures that shaped the perception of this Christian sect.

Minority Churches as Media Settlers Dorota Hall, Marta Kołodziejska, Kerstin Radde-Antweiler, 2023-06-01 How do minority Christian churches adapt to and negotiate with the changes brought about by deep mediatization? How do they use their media to present themselves to their followers and the general public? This book aims to answer these questions by investigating how minority organizations of two different Christian traditions in the UK and Poland – the Seventh-day Adventist Church and the Orthodox Churches – use their own media to position themselves in their social, religious, and political environments. Based on the analyses of media practices, media content, and interview material, the study develops the new concept of media settlers, which pertains to religious organizations that use their media to fulfill their own aims: expand, assert their authority, and maintain their communities. They do so through five key media practices, which can be defined as strategies: acknowledgment, authorization, omission, replication of content, and mass-mediatization of digital media. This book is of particular interest to scholars of religion and mediatization, mainly sociologists, graduate students, and qualitative researchers working with discourse analysis. It is an insightful read for anyone interested in the Seventh-day Adventist and Orthodox Churches nowadays.

Religion Online August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 Religion Online provides new insights about religiosity in a contemporary context, offering a comprehensive look at the intersection of digital media, faith communities, and practices of all sorts. Recent research on Apple users, video games, virtual worlds, artificial intelligence, digital music, and sports as religion supports the idea that media and religion, once considered separate entities, are in many cases the same thing. New media and religious practice can no longer be detached; this two-volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization, autonomous religious worship, millennials' affinity for new media, and the rise of fundamentalism in the global south. While other works describe case studies, this book explains how new media are interwoven into the very fabric of religious belief, behavior, and community. Chapters break down the past, present, and projected future of the use of digital media in relation to faith traditions of many varieties, extending from mainline Christianity to new religious movements. The book also examines the impacts of digital media on beliefs and practices around the world. In exploring these subjects, it calls on the study of culture, namely anthropology, to conceptualize a technological period as significant as the industrial revolution.

The 2017 Unity Conference Adventist Today Foundation, Loren Seibold, 2017-08 The 2017 Unity Conference is an historic event in the contemporary development of the Seventh-day Adventist faith. This book contains the reporting by Adventist Today during the event and analysis of what it means. It includes quick summaries of all the presentations at the conference and information on how to access the complete transcripts. Adventist Today is an independent, professional journalism enterprise serving the Adventist community worldwide. It covered this important event despite the fact that the denomination's official media ignored it. All of the news reports are gathered in one cover with related opinion pieces and a new chapter providing perspective for the event in terms of both history and the future.

Interdisciplinary Perspectives on COVID-19 and the Caribbean, Volume 2 Sherma Roberts, Halimah A. F. DeShong, Wendy C. Grenade, Dwayne Devonish, 2023-09-06 Caribbean countries have had to navigate multiple crises, which have tested their collective resolve through time. In this regard, the region's landscape has been shaped by an interplay of vulnerability and resilience which has brought to the fore possibilities and contradictions. It is within this context that the effects of the COVID-19 pandemic must be considered. Interdisciplinary Perspectives on COVID-19 and the Caribbean, Volume 2: Society, Education and Human Behaviour provides a comprehensive, multi- and interdisciplinary assessment of the impact of the COVID-19 pandemic, using the Caribbean as the site of enquiry. The edited collection mobilises critical perspectives brought to bear on research produced within and beyond the boundaries and boundedness of conventional academic disciplinary divides, in response to the multi-dimensional crises of our time. This volume is divided into four (4) parts consisting of twenty-three (23) chapters and weaves together four broad thematic strands: COVID-19 and Caribbean Society; COVID-19 Religion and Rights; Psycho-social Impacts of COVID-19; and Education, Innovation, and Technology. Authors working within and across the human, social, physical and life sciences consider the myriad effects of the health crisis in the region, interrogating these experiences from the granular to macro level, utilising inter and multidisciplinary lenses. Collectively, the chapters which constitute Volume II expose the fault lines in Caribbean societies, which are deeply rooted in the region's history and delineate the precise ways in which the pandemic has transformed lives and livelihoods in the region. The culmination of this collection offers a reimagining of our Caribbean contemporary futures in the hope of finding home-grown solutions, avenues and possibilities.

Heartwarming Stories of Adventist Pioneers Norma J. Collins, 2005 Perhaps you've heard the stories of the Adventist pioneers. However these are the stories that are not often told. The stories that bring out the human nature of each one. Heartwarming stories will give you a different perspective. You'll get to know the pioneers. None of them were perfect--but all of them did their best, by God's grace, to spread the message of Jesus' soon return and the good news of the seventh-day Sabbath. You'll laugh, cry, and celebrate the God who uses imperfect people to do His work. - A Word to the Reader; CHAPTER; 1 William Miller: Today, Today, and Today, Till He Comes; 2 Hiram Edson: Bible Student, Preacher, Healer; 3 Joseph Bates: Herald of the Sabbath; 4 James White: You Will See Your Lord A-Coming; 5 Ellen Gould Harmon: Messenger of the Lord; 6 William Foy and Hazen Foss: One Who Willingly Obeyed, and One Who Refused to Obey; 7 Heman S. Growing Up in Affiliation with a Religious Community Arniika Kuusisto,

News Agencies from Pigeon to Internet K. M. Shrivastava, 2007 Deals with a very important business in global communication of news -- the news agencies. The first news agencies started their business when the fastest technology was a combination of telegraph and carrier pigeon. They have survived several technological developments since then and have used these technologies for further diversification of services and revenues. The Internet, some thought, will make the news agencies extinct like dinosaurs. But, well run news agencies found a new opportunity in this threat. Though there have been some corporate biographies of news agencies, there has not been any comprehensive analytical work in the past 25 years on this business. This book is an attempt to fill this void in the global literature on journalism, media studies, international communication and business management studies. Besides, the students of these academic disciplines, diplomats, policymakers, and all types of communication professionals will find this book useful. It will also be a good read for lay persons who unconsciously consume the products of news agencies through all types of media -- from newspapers to mobile phones.

Seventh-day Adventist Health Reform: A Crucible of Identity Tensions Richard B. Ferret,2023-07-20 The Seventh-day Adventist church, formally organized in America in 1863, is today one of the fastest-growing Protestant movements in the world and defines itself as a prophetic remnant, raised up and commissioned by God to teach and preach a final message of warning to the world before the imminent return of Christ. From its beginnings, however, a sense of failure was built into the success of the fledgling movement. In order to preserve the message (the imminent return of Christ), Adventists had to erect institutions based on continuity and permanence. A dilemma emerged: medical institutions built to be conducive for separation from the world faced a this-worldly reality filled with requirements from various state entities: registration, approval, and so forth. Thus, Adventist medical institutions confronted constant challenges to their denominational and theological uniqueness. The emergence of this dilemma between aspirations of separateness and this-worldly reality was especially evident in the battle for Adventism's sectarian identity, ethos, and future at the turn of the twentieth century--between Ellen G. White (a cofounder of the movement) and Dr. John H. Kellogg (an Adventist administrator and surgeon who sought to desectarianize the movement).
