Loved as I Am Sr. Miriam James Heidland SOLT, 2014-11-03 When Sr. Miriam James Heidland’s life as a successful college athlete proved unfulfilling, she went searching for something deeper and ended up falling in love with Jesus. By charting her own journey toward wholeness, Heidland invites young Catholics to pursue their own relationship with Jesus. Although originally full of athletic ambition and goals for a career in sports news, Heidland was transformed in a very slow but deep way during her undergraduate years, moving from party girl to bride of Christ. In *Loved as I Am: An Invitation to Conversion, Healing, and Freedom through Jesus*, Heidland helps readers learn from her experience of seeking love in the wrong places and instead finding it in Christ. She shares her struggles—learning she was adopted, battling alcoholism, and healing from childhood sexual abuse—as signs of hope that anyone who desires to know Christ can find him and be loved intimately by him in return. By bringing readers into Heidland’s healing process, *Loved as I Am* provides a gentle and subtle template for finding peace and freedom in Jesus.

Register, Genre, and Style Douglas Biber, Susan Conrad, 2009-10-29 This book describes the most important kinds of texts in English and introduces the methodological techniques used to analyse them. Three analytical approaches are introduced and compared, describing a wide range of texts from the perspectives of register, genre and style. The primary focus of the book is on the analysis of registers. Part 1 introduces an analytical framework for studying registers, genre conventions, and styles. Part 2 provides detailed descriptions of particular text varieties in English, including spoken interpersonal varieties (conversation, university office hours, service encounters), written varieties (newspapers, academic prose, fiction), and emerging electronic varieties (e-mail, internet forums, text messages). Finally, Part 3 introduces advanced analytical approaches using corpora, and discusses theoretical concerns, such as the place of register studies in linguistics, and practical applications of register analysis. Each chapter ends with three types of activities: reflection and review activities, analysis activities, and larger project ideas.

Interview for a Wife (a marriage of convenience historical western romance) Ruth Ann Nordin, A widowed father of two bound to a wheelchair and a barren widow looking for a place to stay might discover that despite one's imperfections, love is possible. ***** When her husband died, Deanne Grayson didn't shed a tear. She did, however, worry that his death meant she'd have to return to her hometown in Kentucky. Fortunately, she stumbles upon an ad in the paper from a man in Lincoln, Nebraska who is interviewing for a wife. Widower Bill Harvey is in need of a wife to help him run his general store. Plus, it would be nice to have help raising his two young children. But being confined to a wheelchair doesn't exactly make him confident when it comes to a more intimate union with a woman. So when Deanne comes in for an interview, he makes a stipulation. He'll marry her, but they won't be consummating the marriage. So the marriage will be more of a partnership than a romance. A marriage of convenience suits Deanne just fine. She's not looking for love. As long as she doesn't have to return to her hometown, she'll be happy. It's not long before Bill starts to have desires he put behind him after the accident that confined him to a wheelchair. Yes, it was his decision to treat their marriage like a partnership, but after he gets to know her, he starts to want more. Exactly how can he, someone who is only half a man, expect a woman to want a real marriage with him?

Pervasive Advertising Jörg Müller, Florian Alt, Daniel Michelis, 2011-09-21 This book looks at the future of advertising from the perspective of pervasive computing. Pervasive computing encompasses the integration of computers into everyday devices, like the covering of surfaces with interactive displays and networked mobile phones. Advertising is the communication of sponsored messages to inform, convince, and persuade to buy. We believe that our future cities will be digital, giving us instant access to any information we need everywhere, like at bus stops, on the sidewalk, inside the subway and in shopping malls. We will be able to play with and change the appearance of our cities effortlessly, like making flowers grow along a building wall or changing the colour of the street we are in. Like the internet as we know it, this digitalization will be paid for by adverts, which unobtrusively provide us suggestions for nearby restaurants or cafés. If any content annoys us, we will be able to effortlessly say so and change it with simple gestures, and content providers and advertisers will know what we like and be able to act accordingly. This book presents the technological foundations to make this vision a reality.
