Culture, Aesthetics and Affect in Ubiquitous Media Helen Grace, 2013-10-23 This book argues that ubiquitous media and user-created content establish a new perception of the world that can be called 'particulate vision', involving a different relation to reality that better represents the atomization of contemporary experience especially apparent in social media. Drawing on extensive original research including detailed ethnographic investigation of camera phone practices in Hong Kong, as well as visual analysis identifying the patterns, regularities and genres of such work, it shows how new distributed forms of creativity and subjectivity now work to shift our perceptions of the everyday. The book analyses the specific features of these new developments – the components of what can be called a 'general aesthesia' – and it focuses on the originality and innovation of amateur practices, developing a model for making sense of the huge proliferation of images in contemporary culture, discovering rhythms and tempo in this work and showing why it matters.

Occult Aesthetics K.J. Donnelly, 2014-02 *Occult Aesthetics: Synchronization in Sound Film* opens up an often-overlooked aspect of audiovisual culture which is crucial to the medium's powerful illusions. Author Kevin Donnelly contends that a film soundtrack's musical qualities can unlock the occult psychology joining sound and image, an effect both esoteric and easily destroyed.

I Am a World of Uncertainties Disguised as a Girl Nicole Lyons, 2017-11-09 'I Am A World Of Uncertainties Disguised As A Girl' written by author and poet Nicole Lyons, is a breathtaking collection of poems that blurs the lines between love and madness. A

sorceress of words, Nicole Lyons takes the reader to the edge of the abyss of creativity, sanity, and love, and asks the question, 'can one survive both a broken heart and a broken mind?'

The Artful Species: Aesthetics, Art, and Evolution Stephen Davies, 2012-11-29 The Artful Species explores the idea that our aesthetic responses and art behaviors are connected to our evolved human nature. Our humanoid forerunners displayed aesthetic sensibilities hundreds of thousands of years ago and the art standing of prehistoric cave paintings is virtually uncontested. In Part One, Stephen Davies analyses the key concepts of the aesthetic, art, and evolution, and explores how they might be related. He considers a range of issues, including whether animals have aesthetic tastes and whether art is not only universal but cross-culturally comprehensible. Part Two examines the many aesthetic interests humans take in animals and how these reflect our biological interests, and the idea that our environmental and landscape preferences are rooted in the experiences of our distant ancestors. In considering the controversial subject of human beauty, evolutionary psychologists have traditionally focused on female physical attractiveness in the context of mate selection, but Davies presents a broader view which decouples human beauty from mate choice and explains why it goes more with social performance and self-presentation. Part Three asks if the arts, together or singly, are biological adaptations, incidental byproducts of nonart adaptations, or so removed from biology that they rate as purely cultural technologies. Davies does not conclusively support any one of the many positions considered here, but argues that there are grounds, nevertheless, for seeing art as part of human nature. Art serves as a powerful and complex signal of human fitness, and

so cannot be incidental to biology. Indeed, aesthetic responses and art behaviors are the touchstones of our humanity.

What We Harvest Ann Fraistat, 2022-03-15 For fans of *Wilder Girls* comes a nightmarish debut guaranteed to keep you up through the night, about an idyllic small town poisoned by its past, and one girl who must fight the strange disease that's slowly claiming everyone she loves. Wren owes everything she has to her hometown, Hollow's End, a centuries-old, picture-perfect slice of America. Tourists travel miles to marvel at its miracle crops, including the shimmering, iridescent wheat of Wren's family's farm. At least, they did. Until five months ago. That's when the Quicksilver blight first surfaced, poisoning the farms of Hollow's End one by one. It began by consuming the crops, thick silver sludge bleeding from the earth. Next were the animals. Infected livestock and wild creatures staggered off into the woods by day—only to return at night, their eyes fogged white, leering from the trees. Then the blight came for the neighbors. Wren is among the last locals standing, and the blight has finally come for her, too. Now the only one she can turn to is her ex, Derek, the last person she wants to call. They haven't spoken in months, but Wren and Derek still have one thing in common: Hollow's End means everything to them. Only, there's much they don't know about their hometown and its celebrated miracle crops. And they're about to discover that miracles aren't free. Their ancestors have an awful lot to pay for, and Wren and Derek are the only ones left to settle old debts.

The Aesthetics of Emotion Gerald C. Cupchik, 2016-07-28 Argues that relations between mind and body are analogous to those between subject matter and style in art.

Reality Modeled After Images Michael Young, 2021-08-30 Reality Modeled After

Images: Architecture and Aesthetics after the Digital Image explores architecture's entanglement with contemporary image culture. It looks closely at how changes produced through technologies of mediation alter disciplinary concepts and produce political effects. Through both historical and contemporary examples, it focuses on how conventions of representation are established, maintained, challenged, and transformed. Critical investigations are conjoined with inquiries into aesthetics and technology in the hope that the tensions between them can aid an exploration into how architectural images are produced, disseminated, and valued; how images alter assumptions regarding the appearances of architecture and the environment. For students and academics in architecture, design and media studies, architectural and art history, and related fields, this book shows how design is impacted and changed by shifts in image culture, representational conventions and technologies.

As Tea's dark magic eats away at her, she must save the one she loves most, even while her life—and the kingdoms—are on the brink of destruction. Perfect for readers of Leigh Bardugo's Ninth House and Holly Black's The Cruel Prince! In the Eight Kingdoms, none have greater strength or influence than the asha, who hold elemental magic. But Tea's quest to conjure a shadowglass, to achieve immortality for the one person she loves most in the world, threatens to consume her. Tea's heartsglass only grows darker with each new betrayal. The Collage Aesthetic in the Harlem Renaissance Rachel Farebrother, 2016-12-05 Beginning with a subtle and persuasive analysis of the cultural context, Farebrother

examines collage in modernist and Harlem Renaissance figurative art and unearths the collage sensibility attendant in Franz Boas's anthropology. This strategy makes explicit the formal choices of Harlem Renaissance writers by examining them in light of African American vernacular culture and early twentieth-century discourses of anthropology, cultural nationalism and international modernism. At the same time, attention to the politics of form in such texts as Toomer's *Cane*, Locke's *The New Negro* and selected works by Hurston reveals that the production of analogies, juxtapositions, frictions and distinctions on the page has aesthetic, historical and political implications. Why did these African American writers adopt collage form during the Harlem Renaissance? What did it allow them to articulate? These are among the questions Farebrother poses as she strives for a middle ground between critics who view the Harlem Renaissance as a distinctive, and necessarily subversive, kind of modernism and those who foreground the cooperative nature of interracial creative work during the period. A key feature of her project is her exploration of neglected connections between Euro-American modernism and the Harlem Renaissance, a journey she negotiates while never losing sight of the particularity of African American experience. Ambitious and wide-ranging, Rachel Farebrother's book offers us a fresh lens through which to view this crucial moment in American culture.

The Art Kids Kate Spofford, 2013-06-24 The new girl has scars on her arms, like

mine...Sophie thought her senior year was going to be the best. That was before the new girl Laney arrives in her art class. Now, instead of good times hanging with her friends, everyone is acting strangely. Paul is angry all the time, Kevin and Jenna aren't quite the perfect couple anymore, and everyone is ignoring Evan. Sophie knows there's something different about the new girl. Something that seems to be tearing her group of friends apart. When Evan starts dating Laney, it looks like the end of the Art Kids... but maybe Sophie isn't seeing the whole picture.

Oscar Wilde's America Mary Warner Blanchard, 1998-01-01 In 1882 Oscar Wilde toured America as the Apostle of Aestheticism. The nation was still shaken by the Civil War, and Wilde's message of regeneration through art and beauty seemed to open new horizons. In this first cultural history of the aesthetic movement in the U.S., Mary Blanchard provides an imaginative account of a neglected dimension of our history. 221 illustrations.

Material Culture in America Helen Sheumaker, Shirley Wajda, 2007-11-07 The first encyclopedia to look at the study of material culture (objects, images, spaces technology, production, and consumption), and what it reveals about historical and contemporary life in the United States. Reaching back 400 years, *Material Life in America: An Encyclopedia* is the first reference showing what the study of material culture reveals about American

society—revelations not accessible through traditional sources and methods. In nearly 200 entries, the encyclopedia traces the history of artifacts, concepts and ideas, industries, peoples and cultures, cultural productions, historical forces, periods and styles, religious and secular rituals and traditions, and much more. Everyone from researchers and curators to students and general readers will find example after example of how the objects and environments created or altered by humans reveal as much about American life as diaries, documents, and texts.

The Aesthetic Illusion in Literature and the Arts Tomáš Koblížek, 2017-09-21 The notion of aesthetic illusion relates to a number of art forms and media. Defined as a pleasurable mental state that emerges during the reception of texts and artefacts, it

amounts to the reader's or viewer's sense of having entered the represented world while at the same time keeping a distance from it. *Aesthetic Illusion in Literature and the Arts* is an in-depth study of the main questions surrounding this experience of art as reality. Beginning with an introduction providing historical background to modern discussions of illusion, it deals with a wide range of theoretical issues. The collection explores the nature and function of the aesthetic illusion as well as the role of affect and emotion, the implications of aesthetic illusion for the theory of fiction, the variable forms of aesthetic illusion and its relationship to other components of aesthetic response. *Aesthetic Illusion in Literature and the Arts* brings together a team of scholars from philosophy, literature and art and presents an interdisciplinary examination of a concept lying at the heart of contemporary aesthetics.
