FRED FISHER (H.),2018

**Afghanistan and the Central Asian Question** Fred; H. Fisher,2015-07-14 Excerpt from Afghanistan and the Central Asian Question: With Map For my own part, I will only say that though I should have preferred, in the interest of peace, that Russia had not entered on a career of conquest along the Jaxartes and the Oxus, yet I see no reason at present to feel any anxiety about the advance towards India. Asia is large enough for both of us, and we may well pursue our respective paths, and fulfil our respective missions, without jostling or jealousy. Our position in Asia is quiescent, while hers is progressive... We can, therefore, well afford to wait, forbearing, but vigilant, and conscious that if real danger approaches at any time, we are strong enough to arrest and crush it. - Sir Henry Rawlinson's Notes on Khiva, March, 1873.

After the Taliban Neamatollah Nojumi, Dyan

Mazurana, Elizabeth Stites, 2008-10-17 To access the maps mentioned in this book, [Click Here](#). Despite the fall of the Taliban, Afghanistan remains a country in dire need of strong international support. Only with an understanding of the conditions in both urban and rural areas will the international community be able to offer aid and remain committed to long-term development. This fascinating and clearly written book mines a rich and unique array of data, which was collected in rural areas of Afghanistan by an expert team of researchers, to analyze countrywide trends in the relationship between human security and livelihoods. The team's

research and recommendations, published here for the first time, suggest that international assistance or national development strategies that ignore the long-term developmental and structural goals and sideline the moderate elements of Afghan society will be doomed to failure. The authors' deeply informed policy recommendations will help to focus further action on vital issues such as co-optation of aid by armed political groups; water scarcity; contamination and degradation of the environment; education; health care; agriculture, livestock, and land health; and justice. A valuable resource for students, policymakers, donor governments, and national and international organizations, After the Taliban opens a rare window into the otherwise hidden lives of the people of rural Afghanistan.
