

African Vuvuzela

Richard Calland, Lawson Naidoo, Andrew Whaley

The Vuvuzela Revolution Richard Calland, Lawson Naidoo, Andrew Whaley, 2010 The 2010 FIFA World Cup roused a nation, defying South African skeptics and Afro-pessimists alike, and this definitive account of Africa's first World Cup covers the build-up, the tournament itself, and its aftermath. Offering serious insights into the host country's management of a soccer event of this magnitude, the book explores the image South Africa chose to convey to the world, revealing the vivid granularity of this beautiful country during that extraordinary month.

Vuvuzela Dawn Luke Alfred, Ian Hawkey, 2019-04-01 In 2019, South Africa celebrates 25 years of democracy and the freedom that turned the country from a political pariah to one warmly embraced by the world. Nowhere was the welcome more visible, or more emotional, than in sport. Vuvuzela Dawn tells the stories of that return. From Bafana Bafana's Africa Cup of Nations win to the fabled '438' Proteas game, we go behind the scenes of the great moments and record-breaking triumphs from 1994 to the present. From Caster Semenya and Wayde van Niekerk to Benni McCarthy and Kevin Anderson, from twin World Cup rugby victories to the traumas of Kamp Staaldraad and Hansie Cronjé, Vuvuzela Dawn reveals the sporting dramas and passions that defined a quarter century.

Heritage Formation and the Senses in Post-Apartheid South Africa Duane Jethro, 2020-05-11 In this book, Duane Jethro creates a framework for understanding the role of the senses in processes of heritage formation. He shows how the senses were important for crafting and successfully deploying new, nation-building heritage projects in South Africa during the postapartheid period. The book also highlights how heritage dynamics are entangled in evocative, changing sensory worlds. Jethro uses five case studies that correlate with the five main Western senses. Examples include touch and the ruination of a series of art memorials; how vision was mobilised to assert the authority of the state-sponsored Freedom Park project in Pretoria; how smell memories of apartheid-era social life in Cape Town informed contemporary struggles for belonging after forced removal; how taste informed debates about the attempted rebranding of Heritage Day as barbecue day; and how the sound of the vuvuzela, popularized during the FIFA 2010 Football World Cup, helped legitimize its unofficial African and South African heritage status. This book makes a valuable contribution to the field of sensory studies and, with its focus on aesthetics and material culture, is in sync with the broader material turn in the humanities.

Africa's World Cup Peter Alegi, Chris Bolsmann, 2013-05-16 A collection of essays reflecting on the 2010 World Cup by noted journalists, academics, and experts

Mhiripiri, 2016-02-10 This edited volume addresses key debates around African football, identity construction, fan cultures, and both African and global media narratives. Using the 2010 FIFA World Cup in South Africa as a lens, it explores how football in Africa is intimately bound up with deeper social, cultural and political currents.

The Politics of South African Football Oshebeng Alpheus Koonyaditse, 2010 The Politics of South African Football is a literary account of the political arena of football and opens on that glorious day on Saturday 15th May when South Africa won the Right to host the World at the 2010 FIFA World Cup. The Politics of South African Football is South Africa's story of the road that lead to hosting the FIFA 2010 World Cup and the people whose vehement resistance and declaration that 'there could be no normal sport in an abnormal society' proved a powerful antidote to assurances by government that all was well--Bookseller's website.

Wild Religion David Chidester, 2012-04-23 Wild Religion is a wild ride through recent South African history from the advent of democracy in 1994 to the euphoria of the football World Cup in 2010. In the context of South Africa's political journey and religious diversity, David Chidester explores African indigenous religious heritage with a difference. As the spiritual dimension of an African Renaissance, indigenous religion has been recovered in South Africa as a national resource. Wild Religion analyzes indigenous rituals of purification on Robben Island, rituals of healing and reconciliation at the new national shrine, Freedom Park, and rituals of animal sacrifice at the World Cup. Not always in the national interest, indigenous religion also appears in the wild religious creativity of prison gangs, the global spirituality of neo-shamans, the ceremonial display of Zulu virgins, the ancient Egyptian theosophy in South Africa's Parliament, and the new traditionalism of South Africa's President Jacob Zuma. Arguing that the sacred is produced through the religious work of intensive interpretation, formal ritualization, and intense contestation, Chidester develops innovative insights for understanding the meaning and power of religion in a changing society. For anyone interested in religion, Wild Religion uncovers surprising dynamics of sacred space, violence, fundamentalism, heritage, media, sex, sovereignty, and the political economy of the sacred.

Prophetic Witness Heinrich Bedford-Strohm, Etienne De Villiers, 2011 The role of religious prophetic witness in the public discourse of modern civil societies is a vital question, not only for the churches, but for society as a whole. Is it still appropriate for churches to make use of prophetic witness as a mode of public discourse in contemporary democratic societies? Can biblical tradition be a referential source for prophetic public statements of the churches in highly debated political questions? Or must public discourse in pluralistic societies be strictly grounded in purely reason-based arguments? This book deals with these questions in a multi-disciplinary perspective, looking at historical settings of biblical texts and discussing contemporary issues and contexts. Africa: Continent of Economic Opportunity David Fick, 2007-04-01 Divided into geographic regions and representing every African nation, this comprehensive collection of case studies explores how successful business enterprises of varying size, along with community projects, help to create jobs in Africa. A valuable guide to conducting business anywhere on the continent, this account also offers information on finding business opportunities and handling oft-encountered problems.

Global Perspectives on Football in Africa Susann Baller, Giorgio Miescher, Ciraj Rassool, 2013-10-31 Football, in many ways, is a visual endeavour. From the visual experience within the stadium itself to worldwide media representations, from advertisements to football art and artefacts: football is much about seeing and being seen, about watching, making visual and being visualised. The FIFA World Cup 2010 in South Africa has turned into a perfect example of the visual dimensions of football. Stadiums have been built and marketed as tourist attractions, mass media and internet platforms are advertising South African cities and venues, logos and emblems are displayed and celebrated, exhibitions are organised in museums world-wide. This book explores the social, cultural and political role of football in Africa by focusing on the issue of its visibility and invisibility. The contributions consider the history and present of football in different parts of Africa. They examine historical and recent pictures and images of football and football players, as well as places and spaces of their production and perception. They analyse the visual dimensions expressed in sports infrastructure, football media-scapes, and in expressive and material arts. This book thus contributes to the growing interest in football in Africa by exploring a new field of research into sports. This book was previously published as a special issue of Soccer and Society.

Sports around the World [4 volumes] John Nauright, 2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. Sports Around the World: History, Culture, and Practice provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such

as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie Rocky to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume Sports Around the World spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

Negative Ecstasies Jeremy Biles, Kent L. Brintnall, 2015-08-03 Despite Georges Bataille's acknowledged influence on major poststructuralist thinkers—including Foucault, Derrida, Kristeva, Lacan, Baudrillard, and Barthes—and his prominence in literary, cultural, and social theory, rarely has he been taken up by scholars of religion, even as issues of the sacred were central to his thinking. Bringing together established scholars and emerging voices, *Negative Ecstasies* engages Bataille from the perspective of religious studies and theology, forging links with feminist and queer theory, economics, secularism, psychoanalysis, fat studies, and ethics. As these essays demonstrate, Bataille's work bears significance to contemporary questions in the academy and vital issues in the world. We continue to ignore him at our peril.

Africa's Elite Football Chuka Onwumechili, 2019-11-11 This book explores various aspects of intranational elite football in Africa, drawing on the expertise of notable scholars from across the world. *Africa's Elite Football* focuses on an area largely ignored by current scholarship on African football, where interest has focused on international migration. In exploring the intranational, the book is written in two parts. The first is a general focus on the continent, and the second is an examination of country cases. The general focus of the book is on the nature of elite tier leagues, the relationship between politics and football, the media, youth academies, intranational migration and fans. Notably, chapters on topics such as intranational migration present groundbreaking scholarship in this area. Currently, football discourses on migration focus on international migration of footballers, yet the majority of migration in African football is intranational. Thus, by addressing the intranational, this book brings attention to an area that is underrepresented in the current academic discourse. The second part of the book, which focuses on country cases, covers Botswana, Egypt, Kenya, Nigeria, Senegal, Zambia and Zimbabwe. The topics explored in those cases include religiosity, health, women's football, media and management. The coverage of health-related issues is particularly important given that several books on African football rarely broach such a topic. With its unique approach to African football, this book will be of interest to scholars and students of sports history, African studies, politics in sports and African sports.

Global Perspectives on Sports and Christianity Afe Adogame, Nick J. Watson, Andrew Parker, 2017-11-09 While the relationship between sport and religion is deeply rooted in history, it continues to play a profound role in shaping modern-day societies. This edited collection provides an inter-disciplinary exploration of this relationship from a global perspective, making a major contribution to the religious, social scientific and theological study of sport. It discusses the dialectical interplay between sport and Christianity across diverse cultures, extending beyond a Western perspective to include studies from Africa, South America and Asia, as well as Europe, the UK and the US. Containing contributions from leading experts within the field, it reflects on key topics including race, gender, spirituality, morality, interfaith sport clubs, and the significance of sport in public rituals of celebration and mourning. Its chapters also examine violent sports such as boxing and mixed martial arts, as well as reflecting on the cult of sporting celebrity and the theology of disability sport. Truly international in scope, *Global Perspectives on Sports and Christianity* is fascinating reading for all those interested in the study of sport, sociology and religion.

Routledge Handbook of Football Studies John Hughson, Kevin Moore, Ramón Spaaij, Joseph Maguire, 2016-10-04 Football is unquestionably the world's most popular and influential sport. There is no corner of the globe in which the game is not played or followed. More countries are affiliated to FIFA, football's governing body, than to the United Nations. The sport has therefore become an important component of our social, cultural, political and economic life. The *Routledge Handbook of Football Studies* is a landmark work of reference, going further than any other book in considering the historical and contemporary significance of football around the world. Written by a team of leading sport scholars, the book covers a broad range of disciplines from history, sociology, politics and business, to philosophy, law and media studies. The central section of the book examines key themes and issues in football studies, such as the World Cup and international competition, governance and ownership, fandom and celebrity. The concluding section offers in-depth surveys of the culture and organisation of football in each of the regional confederations, from UEFA to CONCACAF. This book will be fascinating reading for any serious football fan and an essential resource for advanced students or scholars undertaking research in football or sport studies, and any practitioner or policy-maker working in football.

The Extraordinary Journey of David Ingram Dean Snow, 2023 David Ingram was an ordinary seaman of the Elizabethan age. He served on a slave ship captained by John Hawkins, the Queen's slaver. After sailing first to Africa and then taking enslaved people to sell in the Caribbean, the little fleet was nearly destroyed in a furious battle with the Spanish. Ingram and two other marooned men then walked over 3600 miles from Mexico to New Brunswick in eleven months before being rescued. A dozen years later Ingram was brought in for interrogation by the Queen's spymaster, Francis Walsingham, as investors tried to learn more about America in anticipation of colonization. The contemporary historian Richard Hakluyt soon used the records of the interrogation to publish his version of Ingram's testimony. However, when editing it Hakluyt mistakenly assumed that everything Ingram described about Africa, the Caribbean, and North America applied only to Ingram's long walk through America. For over four centuries, Hakluyt's scrambled publication of 1589 has been ridiculed as the fantastic ramblings of a liar. Examination of the original documents surviving from the interrogation has revealed that Hakluyt was a poor editor, and that Ingram had told the truth about his extraordinary journey. Ingram's story can now be told as he related it, revealing things about Africa and the Americas in the age of European discovery that would otherwise be unknown to history--

MORE Ramblings of a Restless Mind T. Beeth, 2014-01-17 Since the publication of my initial 'Ramblings' in 2009, this supposedly 'restless' mind did not suddenly acquire Zen-tranquility. It continued to be what it has been for long and here is another installment of occasional thoughts, versified. I use 'versified' not in the strictly traditional sense because it gets a bit too restrictive for the 'license' some of us think we have or claim to have. These 'ramblings' are mostly in a territory that is consciously kept apart from the areas of my professional

interest. This territory involves governments, politics, nature, things and people -- people of faith, deep, shallow, desert-dry or fertile with pseudo-versions of Zen and Sufism. In this territory, the things that happen are often seen and considered in a somewhat different way, and the reactions felt and expressed, not always with due respect and reverence. There is no conscious attempt to organize or sequester these thoughts into groups or categories, but if one finds any trend in this tumbling out of thoughts, it may perhaps be largely attributed to some kind of chronological, evolutionary randomness. And if in these wanderings, some hills and valleys begin to look familiar to those who may know, they could well be but, I hope, seen from a different angle, tangential to a path rather less-familiar, and offering a somewhat different view. No two sunsets over a familiar hill are ever the same to an eye or a heart that is never tired of sunsets; every wave leaves behind its own set of previously unseen gifts each time it sweeps over and recedes from a well-trodden beach. Some of these ‘ramblings’ have been offered before, quite extemporaneously, to informal gatherings but if anyone detects any tell-tale signs here, it would be either incidental or that my editorial revisions have not been as thorough as I had originally intended. T. Beeth November, 2013
