The Shadow World Andrew Feinstein,2011-11-08 Soon to be a Major PBS Documentary Event The Shadow World is the harrowing behind-the-scenes tale of the global arms trade, revealing the deadly collusion that all too often exists among senior politicians, weapons manufacturers, felonious arms dealers, and the military—a situation that compromises our security and undermines our democracy. Pulling back the curtain on this secretive world, Andrew Feinstein reveals the corruption and the cover-ups behind a range of weapons deals, from the largest in history—between the British and Saudi governments—to the guns-for-diamonds deals in Africa and the imminent \$60 billion U.S. weapons contract with Saudi Arabia. He exposes in forensic detail both the formal government-to-government trade in arms and the shadow world of illicit weapons dealing, and lays bare the shockingly frequent links between the two. Drawing on his experience as a member of the African National Congress who resigned when the ANC refused to launch a corruption investigation into a major South African arms deal, Feinstein illuminates the impact this network has not only on conflicts around the world but also on the democratic institutions of the United States and the United Kingdom. Based on pathbreaking reporting and unprecedented access to top-secret information and major players in this clandestine realm, The Shadow World places us in the midst of the arms trade's dramatic wheeling and dealing—from corporate boardrooms to seedy out-of-the-way hotels—and reveals the profound danger and enormous financial cost this network represents to all of us.

Half the Sky Nicholas D. Kristof, Sheryl WuDunn, 2010-06-01 #1 NATIONAL BESTSELLER

• A passionate call to arms against our era's most pervasive human rights violation—the oppression of women and girls in the developing world. From the bestselling authors of *Tightrope*, two of our most fiercely moral voices With Pulitzer Prize winners Nicholas D. Kristof and Sheryl WuDunn as our guides, we undertake an odyssey through Africa and Asia to meet the extraordinary women struggling there, among them a Cambodian teenager sold into sex slavery and an Ethiopian woman who suffered devastating injuries in childbirth. Drawing on the breadth of their combined reporting experience, Kristof and WuDunn depict our world with anger, sadness, clarity, and, ultimately, hope. They show how a little help can transform the lives of women and girls abroad. That Cambodian girl eventually escaped from her brothel and, with assistance from an aid group, built a thriving retail business that supports her family. The Ethiopian woman had her injuries repaired and in time became a surgeon. A Zimbabwean mother of five, counseled to return to school, earned her doctorate and became an expert on AIDS. Through these stories, Kristof and WuDunn help us see that the key to economic progress lies in unleashing women's potential. They make clear how so many people have helped to do just that, and how we can each do our part. Throughout much of the world, the greatest unexploited economic resource is the female half of the population. Countries such as China have prospered precisely because they emancipated women and brought them into the formal economy. Unleashing that process globally is not only the right thing to do; it's also the best strategy for fighting poverty. Deeply felt, pragmatic, and inspirational, *Half the Sky* is essential reading for every global citizen.

Overcoming School Refusal Joanne Garfi, 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Confusion de Confusiones [1688] José de la Vega, 1957 This book is the first that describes the practices of any stock exchange; it makes evident a high development of practices, with puts, calls, pools, and manipulations; and it appeared as early as the seventeenth century. Not inappropriately the stock exchange described is that of Amsterdam, a city which at the date of the volume's publication —1688— was still the leading financial center of the world. The book, to be sure, is hardly a systematic account of the institution; the author pursued moral, philosophical, and rhetorical objectives, and,

while saying a lot that seems now to be of little value, manages somehow to leave unsaid a great deal that would be of interest for us. Nevertheless, it represents, even in its peculiar form, a really important source of information about the stock exchange, and indeed about the Dutch business world of that period.

The Shadow War Jim Sciutto, 2019-05-14 Are we losing a war few of us realize we're fighting? Jim Sciutto, CNN's Chief National Security Correspondent, reveals the invisible fronts that make up 21st century warfare, from disinformation campaigns to advanced satellite weapons. Poisoned dissidents. Election interference. Armed invasions. International treaties thrown into chaos. Secret military buildups. Hackers and viruses. Weapons deployed in space. China and Russia (and Iran and North Korea) spark news stories by carrying out bold acts of aggression and violating international laws and norms. Isn't this just bad actors acting badly? That kind of thinking is outdated and dangerous. Emboldened by their successes, these countries are, in fact, waging a brazen, global war on the US and the West. This is a new Cold War, which will not be won by those who fail to realize they are fighting it. The enemies of the West understand that while they are unlikely to win a shooting war, they have another path to victory. And what we see as our greatest strengths—open societies, military innovation, dominance of technology on Earth and in space, longstanding leadership in global institutions—these countries are undermining or turning into weaknesses. In *The Shadow War*, CNN anchor and chief national security correspondent Jim Sciutto provides us with a revealing and at times disturbing guide to this new international conflict. This *Shadow War* is already the greatest threat to America's national security, even though most Americans know little or nothing about it. With on-the-ground reporting from Ukraine to the South China Sea, from a sub under the Arctic to unprecedented access to America's Space Command, Sciutto draws on his deep knowledge, high-level contacts, and personal experience as a journalist and diplomat to paint the most comprehensive and vivid picture of a nation targeted by a new and disturbing brand of warfare. Thankfully, America is adapting and fighting back. In *The Shadow War*, Sciutto introduces readers to the dizzying array of soldiers, sailors, submariners and their commanders, space engineers, computer scientists, civilians, and senior intelligence officials who are on the front lines of this new kind of forever war. Intensive and disturbing, this invaluable and important work opens our eyes and makes clear that the war of the future is already here.

Medicine and Slavery Todd Lee Savitt, 2002 Widely regarded as the most comprehensive study of its kind, this volume offers valuable insight into the alleged medical differences between whites and blacks that translated as racial inferiority and were used to justify slavery and discrimination. In *Medicine and Slavery*, Todd L. Savitt evaluates the diet, hygiene, clothing, and living and working conditions of antebellum African Americans, slave and free, and analyzes the diseases and health conditions that afflicted them in urban areas, at industrial sites, and on plantations.

None Dare Call It Conspiracy Gary Allen, 2014-03 NDCC is an admirable job of amassing information to prove that communism is socialism and socialism (a plot to

enslave the world) is not a movement of the downtrodden but a scheme supported and directed by the wealthiest of people. If enough Americans read and act upon NDCC, they really can save the Republic from the conspirators-whose plans for the destruction of our country are galloping fast toward completion.

After the Reformation Barbara C. Malament, 2016-11-11 Civilization and madness; community and class; bureaucracy, corruption, and revolution—these essays range from social history to political history and the history of ideas. All take a strong interpretive stand in the manner of the man to whom they are dedicated. Together they make a major contribution to the scholarship on sixteenth-century and seventeenth-century Europe. In the presentation of these original essays, it is justly noted that J. H. Hexter served as the conscience of his fellow scholars for over thirty years—a distinguished tribute accompanied by the best work by the best people in the field. Former students are among the contributors, as are some of J. H. Hexter's colleagues and friends, including two that he frequently engaged in debate, Geoffrey Elton and Lawrence Stone. Born in Memphis, Tennessee, J. H. Hexter received his B.A. degree from the University of Cincinnati and his Ph.D. degree from Harvard University. From 1939 to 1957 he taught at Queens College, CUNY. He then spent seven years as a member of the faculty of Washington University, to which he returned on his retirement from Yale University; where he taught from 1964 to 1978. Among his numerous awards are two Guggenheim Fellowships, a Fulbright Fellowship, a fellowship from the Ford Foundation and one from the Institute for Advanced Study.

Black Feminist Archaeology Whitney Battle-Baptiste, 2017-07-05 Black feminist thought has developed in various parts of the academy for over three decades, but has made only minor inroads into archaeological theory and practice. Whitney Battle-Baptiste outlines the basic tenets of Black feminist thought and research for archaeologists and shows how it can be used to improve contemporary historical archaeology. She demonstrates this using Andrew Jackson's Hermitage, the W. E. B. Du Bois Homesite in Massachusetts, and the Lucy Foster house in Andover, which represented the first archaeological excavation of an African American home. Her call for an archaeology more sensitive to questions of race and gender is an important development for the field.

Fletch Won Gregory McDonald, 2018-11-20 Young Irwin Maurice Fletcher, a.k.a. Fletch, the eager and inventive new reporter for the News-Tribune, is having a hard time finding his place at the newspaper. After a few mishaps writing questionable headlines and creatively worded obituaries, Managing Editor Frank Jaffe appoints Fletch to the society pages, where he's assigned to cover a generous yet surprising donation to an art museum from a high-powered defense attorney. But before he can secure an interview, the attorney is shot dead in the newspaper's parking lot, no witnesses in sight. To Fletch's chagrin, the story is reassigned to the boorish lead investigative reporter Biff Wilson, and he's placed on a seemingly unrelated story, some society pages fluff piece about an all-women-trainers health club that's rumored to offer a lot of extras. Undeterred by Biff's threatening nature and determined to dig up the dirt on both stories, Fletch collects a cast of engaging characters and strings together the scandalous clues that lead to an eventful and unexpected conclusion.

The Madman Theory Jim Sciutto, 2020-08-11 From praising dictators to alienating allies, Trump made chaos his calling card. But four years into his administration, had his strategy caused more problems than it solved? Richard Nixon tried it first. Hoping to make communist bloc countries uneasy and thus unstable, Nixon let them think he was just crazy

enough to nuke them. He called this “the madman theory.” Nearly half a century later, President Trump employed his own “madman theory,” sometimes intentionally and sometimes not. Trump praised Kim Jong-un and their “love notes,” admired and flattered Vladimir Putin, and gave a greenlight to Recep Tayyip Erdogan to invade Syria. Meanwhile, he attacked US institutions and officials, ignored his own advisors, and turned his back on US allies from Canada and Mexico to NATO to Ukraine to the Kurds at war with ISIS. Trump was willing to make the nation’s most sensitive and consequential decisions while often ignoring the best information and intelligence available to him. He continually caught the world off guard, but did it work? In *The Madman Theory*, Jim Sciutto showed how Trump's supporters assumed he had a strategy for long-term success – that he somehow played three-dimensional chess. Four years into Trump's presidency, it was clear his unpredictable focus on short-term headlines did in fact lead to predictably mediocre results in the short and long run. Trump’s foreign policy undermined American values and national security interests, while hurting allies who had been on our side for decades, leaving them isolated and vulnerable without American support. Meanwhile, Trump had comforted and emboldened our enemies. The White House’s revolving door of staff demonstrated that Trump had no real plan; all serious policymakers—and those who would be a check on his most destructive impulses—were exiled or jumped ship. Sciutto interviewed a wide swath of then-current and former administration officials to assemble the first comprehensive portrait of the impact of Trump’s erratic foreign policy. Smart, authoritative, and compelling, *The Madman Theory* is the definitive take on Trump’s calamitous legacy around the globe, showing how his proclivity for chaos was creating a world which was more unstable, violent, and impoverished than it had been before.

Against Us Jim Sciutto, 2009-09-15 A solid job of reporting, a personal journey of discovery, and a wake-up call for all who read it. —Charles Gibson, ABC News After nearly one hundred assignments for ABC News in Muslim countries, Jim Sciutto brings back this disturbing truth: the Al-Qaeda—inspired view of an evil America bent on destroying Islam has moved from the fringes to the mainstream. Sciutto profiles a cross-section of people in the Arab world, including a former Al-Qaeda jihadi turned electrician in Saudi Arabia, a Jordanian college student willing to risk his life by killing Americans in Baghdad, a Christian woman who supports Hezbollah in Lebanon, bitter pro-democracy advocates in Egypt who feel betrayed by the United States, and British-born Muslim terrorists living in London. The result is an alarming portrait of the depth and scope of anti-American sentiment. Yet there is hope for America to turn the tide of hate. Democratic ideals are still held in high esteem, even as America’s perceived actions against Muslims are not, and President Obama’s election has raised hopes for change among many Muslims. *Against Us* is an urgent wake-up call for all Americans—and in particular those charged with formulating U.S. foreign policy—to rebuild relations with the Arab world and restore confidence in American values.
