

Age Of Conquest Africa

G. N. Uzoigwe

Britain and the Conquest of Africa G. N. Uzoigwe,1978-01-01

The Battle of Adwa Raymond Jonas,2011-11-29 In 1896 a massive Ethiopian army routed an invading Italian force and brought Italy's conquest of Africa to an end. In defending its independence, Ethiopia cast doubt on the assumption that all Africans would fall under the rule of Europeans, and opened a breach that would lead to the continent's painful struggle for freedom from colonial rule.

The Age of Colonialism Don Nardo,2006 From the late 1400s to the mid-1900s, the world's great powers engaged in a virtual feeding frenzy of conquest, colonization, and often ruthless exploitation of less developed regions and populations. Only in 1970 did the United Nations outlaw colonialism. This volume documents the rise and fall of the great colonial empires in North and South America, Africa, the Far East, and the Pacific region, and explores how many of the political and cultural problems the world faces today were created by the imperial and colonial practices of the past.

My African Conquest Julia Albu,2019-09-23 Next year I'm going to be 80 years old. My car will be 20 years old. Together we'll be 100. We're going to drive to London. And what route are you going to take? I have no idea. I think I'll keep to the right. When 80-year-old Julia Albu calls into her favourite radio show with a zany, half-baked idea, she has no idea that it will lead her to the adventure of a lifetime. With her trusty 20-year-old old Toyota Conquest, Tracy, a giant map and unbounded enthusiasm, Julia sets off on the long drive through Africa and into the UK where she hopes to meet the Queen of England. Beginning in South Africa, she travels through deserts, over mountains and across grassy plains. All along the way, she is accompanied by family and friends. She stays in hotels and hovels, breakfasts with a giraffe and hangs out with baboons, and meets a host of colourful characters who all can't help but be drawn to the charming, white-haired octogenarian in their midst. *My African Conquest* is a funny, feel-good story about adventuring through life and never acting your age.

The Battle of Adwa Raymond Jonas,2011-11-15 In March 1896 a well-disciplined and massive Ethiopian army did the unthinkable-it routed an invading Italian force and brought Italy's war of conquest in Africa to an end. In an age of relentless European expansion, Ethiopia had successfully defended its independence and cast doubt upon an unshakable certainty of the age-that sooner or later all Africans would fall under the rule of Europeans. This event opened a breach that would lead, in the aftermath of world war fifty years later, to the continent's painful struggle for freedom from colonial rule. Raymond Jonas offers the first comprehensive account of this singular episode in modern world history. The narrative is peopled by the ambitious and vain, the creative and the coarse, across Africa, Europe, and the Americas-personalities like Menelik, a biblically inspired provincial monarch who consolidated Ethiopia's throne; Taytu, his quick-witted and aggressive wife; and the Swiss engineer Alfred Ilg, the emperor's close advisor. The Ethiopians' brilliant gamesmanship and savvy public relations campaign helped roll back the Europeanization of Africa. Figures throughout the African diaspora immediately grasped the significance of Adwa, Menelik, and an independent Ethiopia. Writing deftly from a transnational perspective, Jonas puts Adwa in the context of manifest destiny and Jim Crow, signaling a challenge to the very concept of white dominance. By reopening seemingly settled questions of race and empire, the Battle of Adwa was thus a harbinger of the global, unsettled century about to unfold.

Age of Conquests Angelos Chaniotis,2018 The world that Alexander remade in his lifetime was transformed once again by his death in 323 BCE. Over time, trade and intellectual achievement resumed, but Cleopatra's death in 30 BCE brought this Hellenistic moment to a close--or so the story goes. Angelos Chaniotis reveals a Hellenistic world that continued to Hadrian's death in 138 CE.

The Kingdom of Waalo Boubacar Barry,2017-10-26 Situated along the Senegal River, the Kingdom of Waalo was the smallest of the Wolof states of Senegal, but it illustrates the broader consequences of a shift from trans-Saharan to trans-Atlantic commerce during a time of competing European, Muslim, and indigenous African forces. From the establishment of a French trading post in 1659 to the early nineteenth century, the history of Waalo was closely tied to French interests in St. Louis, popular revolutionary Islamic movements, and internal rivalries between competing royal families and provincial leaders. Stimulating Waalo's socio-political changes were the devastations and fluctuations of the Atlantic slave trade, as well as the Muslim attack on its aristocracy. Torn by internal divisions, devastated by French and Berber incursions, Waalo's institutions and its economy declined. Residents of Waalo sought their own solutions only for external agents to ruin their efforts. By the nineteenth century, the French attempted to establish a plantation economy in Waalo, culminating in their military control of the state and the Senegal valley. This newly translated study is a vital tool in our understanding of Senegal's history, its place in the era of trans-Saharan and trans-Atlantic commerce, and its development into the present. The book should be of value to African studies scholars, anthropologists, and historians of Africa, colonialism, empire, and post-colonialism.

Medieval Africa, 1250-1800 Roland Anthony Oliver,Anthony Atmore,2001-08-16 A revised edition of *The African Middle Ages 1400-1800*, ideal for University and college teaching.

The Conquest of Morocco Douglas Porch,1983 The Conquest of Morocco tells the story of France's last great colonial adventure. At the turn of the twentieth century, Morocco was a nation yet to emerge from the Middle Ages, ruled by local warlords and riven by religious fanaticism. But in the mad scramble for African colonies, Morocco had one great attraction for the Europeans: it was available. In 1903, France undertook to conquer the exotic and backward country. By the time World War I broke out the conquest was virtually complete. Based on extensive original research, *The Conquest of Morocco* is a splendid work of popular history.

The Scramble for Africa ,1992

Wars Of Imperial Conquest Bruce Vandervort,2015-01-28 First Published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

The African Middle Ages, 1400-1800 Roland Oliver,Anthony Atmore,1981-03-31 The African Middle Ages covers the period of African history from 1400 to 1800. During this period Africa was influenced by external forces as the Islamic states of the north extended their sway and as maritime trade with Europe and Asia increased. The notorious slave-trade created the black population of North and South America, the Caribbean and the Indian Ocean islands. The authors, however, emphasize the extent to which Africans dealt with outsiders on equal terms. The peoples of Africa were coalescing into tribal states rather like those of early medieval Europe. These states were often capable of providing a high degree of law and order, of exploiting resources and organising trade; of redistributing the products of local industries, and of defending themselves against outside attack. Though eventually subordinated by the colonial conquests of the late nineteenth and early twentieth centuries, the tribal states of pre-colonial Africa continue to exert a powerful residual influence upon the post-colonial states of modern Africa.

The Age of Diversity Jean-Louis Roy,2016-11-01 In twenty-five years, 80% of the world population will live in Asia and Africa. What changes, culturally in particular, should be expected in this century? This is the vast and fascinating question Jean-Louis Roy tries to answer with the help of correspondents from Africa, Asia, the Americas and Europe. The author argues that shifting wealth from the West to Asia, Latin America and Africa causes the reconfiguration of the economic map. This tilting also transforms the global cultural space. The dominant cultural position occupied by the Atlantic area will not disappear overnight. However, it is important to note that emerging countries are working earnestly, well served by the tools of the digital age. For example, China is already the world leader in the art market, and Nigeria, the second in international film production after India. Diversity emerges from all sides. Welcome to the twenty-first century!
